THANKS .- Messrs. Port and Dewees, of the House, and Fisher, of the Senate, will please accept our thanks for valuable documents.

SENATOR FISHER has been appointed chairman of the committee on Agriculture and a member of the committees on Finance and Accounts.

Silver bill vet. Wall street evidently has the ear of too many of our Congressmen. Our member wants to be punched up a little in regard to this matter.

THE regular annual meeting of the Penn sylvania Editorial Association will be held in Harrisburg, on the 24th inst., at 3 o'clock in the afternoon. Y. S. Walter is President of the organization, and R. S. Menamin, Secretary.

THE reports that reach us from Harristhey perform.

UNLESS some action is taken by the present Legislature the Soldiers' Orphan Schools will be closed next year, and about one thousand children, under the age of provisions for their welfare. The members of the Grand Army of the Republic, who have always taken a deep interest in the success of these schools, have petitioned for the continuance of the schools until they shall cease from having completed the great work for which they were created, and which they have so faithfully performed. We have no doubt provision for the continuance of the schools will be made.

AFTER Pendleton had received the caucus nomination of the Democrats of the Ohio Legislature he made a short speech, as did several of the other candidates, when John McSweeny, who is known in Ohio as the Irish Orator, closed the performance by turning to Pendleton and saying :--"Doesn't it seem strange, George, after all these long years of waiting, that we have as no mention is made in its columns of tention now. Some of the doctors and papers insist that it is simply chicken-pox, while others assertas positively that it is small-pox. One thing is evident: Whatever the disease may be it is one steps to be taken by the Legislature at this session should be to make itself perfectly acquainted with one of the greatest labor not to be trifled with and made light of. The

JOURNAL .- Dear Sir :- I wish, through our columns, to answer a question that is 'ten asked : "Where is the Gold the Government got in exchange for its boad the Gov-assert it never got any. In 1862, when it be-came necessary for the Governmeut to have funds to support the army, you will find that on February 25th, 1862, (12 Statutes, 345, eport of the Secretary of the Treasury,) Con-ress authorized the issue of 150,000,000 U.S. otes, not bearing interest. The act of July 1th, 1862, (12 Statutes, 532), authorized an

additional issue of 150,000,000, these notes to be a legal tender. The act of March 3, 1863, (12 Statutes, 710) again authorized an additional issue of 150,000,000 U.S. legal tender notes. For instead of issuing more U. S. legal tender notes, when it became necessary for This is nothing new under the sun, nor is it hard to explain. Who does not know that the Government to have more funds, they when a person is freezing to death stupor is sure to set ia, and that he who would be a true friend to the sufferer must use friendly violence ught the representatives of the people in Congress, who were not already interested in the banking swindle, and it was through this iniquitous scheme of public plunder that they to keep the drowsy man awake? It is one of the most notable facts in physical history that orced the bond system upon the country by which they converted their greenback notes dangerous diseases are attended with stupors. assitude, drowsiness and general lethargy, into gold-bearing bonds, and as often as these and there is no worse sign than an unabate notes came into their possession that often they were re-converted into gold-bearing continuance of a comatose state. A revival of action and interest is both a sign and a bonds, and I assert right here, and it cannot be truthfully contradicted, that every aoilars' worth of bonds held to-day were bought with greenbacks and with full constitutional power to create money and a nation of unlimited neans of returning health. Now it may seem of facts they will probably by this time appear like the healthy, timely notes of warning and like the healthy, timely notes of warning and alarm which a faithful sentinel ought to give, for the notes so issued. Our Government, in "vagaries," are in order at such times, and as Mr. Lincoln would say, "it is a pity there had not been some of them sooner, and that more people had not hed the same kind." O mous burden of interest on the people, entered into a traitorcus contract with a thieving people had not had the same kind." General Sherman was once thought crazy, but lived borde of capitalists and issued interest bearlong enough to see a whole people get the same disease worse than it was thought he ing bonds, which were given to these Shyocks in exchange for the Government's own had it. The truth is a man can hardly arouse men to proper interest in their own well-being pass a law, dictated by Wall street, making men to proper interest in their own well-being without incurring the danger of being called without incurring the danger of being called "crazy" or "beside himself." I remember that of the currency of the country, as stipulated the Apostle Paul was once spoken of in this in the original contrac, t with which currency the Apostle Paul was once spoken of in this very way. So great is the stupor, sometimes, that one has to act as if he were "beside him-self" with vehement earnestness before the persons interested will give proper heed. It is not my purpose in this communication to touch the question upon which the "doctors differ," in regard to its nature. But I do wish to say, as a citizen, truly, and I hope, intelli-gently interested in the real welfare of this demand that the bealth and safety of the citizens demand that the sanitary condition of the comparison of the grant of the gold result of the sanitary condition of the pare or the sanitary condition of the sanitary condition of the sanitary condition of the sanitary condition of the pare or the way and the sanitary condition of the sanitary c

And it is certainly plain that Board can satisfactorily show that the amount already paid has been lawfully applied. Can they do this? On the contrary, it appears that the duplicate was given to the collector without a good and sufficient bond, and in the neglect of them will not only involve the com-fort and health of the poorer classes, who cannot remedy them, but the water, and the air, and the food, of the most opulent also. Legislature is still unsolved. Committees of conference were appointed and a compromise has been reported, viz : that the Senate and House, shall commence business anew with the exception of local bills—these to retain their places and order as they now are on the calendar of last session, and that said local bills shall not require to be again advertised. The Senate at once adopted this report but the House has not yet acted upon it, strong opposition to it having been developed during quite a heated debate on Thursday last. As soon

as this order of business matter is settled look out for lively times on the "hill." I will be there as usual.

MR. H. R. STUTESS. Dear Sir.-Three years ago I was suffering terribly with Inflammatory Rheumatism. Our minister's wife advised me to take VEGETINE. After taking one bottle, I was entirely relieved. This year, feeling a return of the disease, I sgain commonced taking it, and am being benefited greatly. It also greatly improves my diges-tion. Respectfully, MRS. A. BALLARD.
