The best and cheapest plan for a farmer's ice house is to select a piece of ground that may be made perfectly level, so that the water from the melted ice may be quickly carried off. For a house twelve feet square-large enough for any farmer's family-lay down 3x16 inch plank; along the edges of the plank nail securely strips of hard wood 1x11 inches; against these set 2x4 scantling, 12 feet long, and at a distance apart of 30 inches, so the outside fall you gave him up, and believed he and inside scantling will be equidistant from each other; that is, so they will not angel returned, and annointed his eyes, and be opposite. Upon these, again, at the melted his heart, and in profound bittertop, put a plate of 1x13 inch plank, tying the scantling together from top to bottom at intervals of four feet, that they may not spread. Thus you have the walls ready; the space between the outside and inside walls being about 13 inches. Place the gles to regain what he had lost, and throw rafters over all, giving one fourth pitch, or one in four feet. Secure the whole by temporary ties so that it will not be blown down. Thus you have the skeleton of the building. Have ready a sufficient amount of tan-

bark, or in lieu of that, saw-dust, to fill the space between the scantling. Commence boarding up outside and inside, and as you proceed, fill up with the tan-bark or saw-dust, settling all firm. So proceed, until you have all finished to the rafters. Now put on the roof shingles or boards, and the building is finished, except the gables, in each of which should be placed a door, for putting in and taking out ice.

The floor of the house should be covered to a depth of a foot with broken stone or blocks of wood, that will keep the ice from centact with the ground, and afford free dripping of water below. Cut the ice in over my recovery." But no, you stood aloof uniform blocks, 18 or 20 inches square is a good size for handling. Lay these compactly in the interior, and close to the walls on every side. Proceed thus until He has compelled enemies to do him jus you have the house filled to the eaves .- tice, and friends have gathered around le with two feet of slough him who believe in and love him. He hay well tramped at the sides, and the whole will be found intact, if properly the effort to attain an honorable name by packed, when wanted.

An eight feet cube of ice will be found sufficient for an ordinary sized family, to that you, who was once dearer than a brothgive plenty for all cooling purposes. The er, have been a tacit enemy in all his great size we have mentioned will be ample for struggle; for he who helps not, hinders, a moderate sized dairy, and a cube of 14 in such a conflict. No, you never helped or 15 feet will furnish ice for larger dai-8 - Prairie Farmer.

To Ascertain the Weight of Live Cattle. said, "stand by, I am holier than thou."

It is often important for those who are of experienced judges by the eye, to have me means beside the scales of ascertain ing the weight of cattle while living, and by following these approved directions this an be done within a mere trifle :

derer shall rise up redeeme l, and angels Take a string, put it around the breast, shall sing, "The lost is found, the dead is stand square, just behind the shoulder alive again ?" Will it not then be a torblade; measure on a foot rule the feet and turing thought that you never helped him inches the animal is in circumference; this milled the girth; then with the string are from the bone of the tail which mbs the line with the hinder part of buttock; direct the line along the back to the fore part of the shoulder-blade; of music moves down the street, flinging take the dimensions on the foot rule as out pleasure on every side through the re, which is the length, and work the air to every one, far and near, that can forces in this manner: Girth of the listen. Some men fill the air with their ullock, say six feet four inches, length, presence and sweetness, as orchards in feet three inches, which multipled to- October days fill the air with perfume of ther makes thirty-one superficial feet; ripe fruit. Some women cling to their that multiplied by twenty three (this own houses, like the honeysuckle over the aber of pounds is allowed to each super- door, yet, like it, sweeten all the region ficial foot of cattle measuring less than sev. with the subtle fragrance of their goodness. en and more than five feet in girth,) make There are trees of righteousness, which 715 pounds. Where the animal measures are dropping precious fruit around them. than nine feet and more than seven in There are lives that shine like star beams, ich, thirty-one is the number of pounds or charm the heart like songs sung upon a each superficial foot. Again, suppose a holy day. a big or small beast should measure two How great a bounty and a blessing it is feet in sgirth, and two along the back to hold the royal gifts of the soul, so that which multiplied together make four they shall be music to some and fragrance square feet, that multiplied by eleven, the to others, and life to all! It would be no number of pounds allowed each square unworthy thing to live for, to make the foot of cattle measuring less than three power which we have within us the breath feet in the girth, make forty four pounds. of other men's joy; to scatter sunshine Again, suppose a calf, a sheep, etc., should where only clouds and shadows reign; to measure four feet six inches in girth, and fill the atmosphere where earth's weary three feet nine inches in length, which toilers must stand, with a brightness which multiplied together, make 151 square feet, they cannot create for themselves, and then multiply by sixteen, the number of pounds showed to cattle measuring less than five feet and more than three in is God's alarm clock. God has wound it girth, makes 265 pounds. The dimensions of the girth and length of back of up so that it may warn us whenever we cattle, sheep, calves, or hogs, may be as exactly taken this way as it is at all necessary for any computation or any valuation of stock, and will answer exactly to the four quarters, sinking the offal, a sum which every man who can get even a bit we desire such a conscience, we must be

then we shall always hear it. But if we A PRIEND who makes a very flaky piecrust with but little lard, kindly gave me get into the habit of not heeding its warn-what she thinks is the secret of it. She ing, and not doing what it tells us to do, mixes a little lard with flour and cold then, by and by, we shall cease to hear it. water until quite stiff; then rolls it out, Our conscience will sleep, its voice of warn spreads on a little lard, sprinkles flour over it and folds if over so it is double; then ing will be hushed, and we shall then be rolls ont and spreads on again, repeating the process two or three times; after the last time, instead of rolling up, as some do, she folds it up once or twice and cuts the

pieces for use from the edge.

Her idea is to keep the layers of shortening as near horizontal as possible, avoiding mixing them up, as one does in moulding or rolling, and there seems to be a deal of reason in it.

Around the Fireside.

Immortality.

There is no death! The stars go down To rise upon some fairer land; And bright in Heaven's jewelled crown

There is no death! The dust we tread

Shall change beneath the summer shower To golden grain, or mellow fruit, Or rainbow-tinted flowers. The granite rocks disorganize,
And feed the hungry moss they bear;
The forest leaves drink daily life
From out the viewless air.

There is no death ! An angel form Walks o'er the earth with solemn tread, He bears our best loved things away, And then we call them dead

He leaves our hearts all desolate He plucks our fairest, sweetest flowers; Transplanted into bliss, they now Adorn immortal bowers.

Born into that undying life, They leave us but to come again, With joy we welcome them—the same, Except in sin and pain. And ever near us, though unseen

The dear immortal spirits tread, For all the boundless universe Is life-there are no dead.

VEGETINE THE BEST SPRING MEDICINE. Years ago, your brother over the way

od a better.
Yours, Truly.
W. H. CLARK,
120 Monterey Street, Allegheny, Penn's

Medical.

VEGETINE.

HER OWN WORDS.

ME. II. R. SERVENS.

Dear Sir.—Since several years I have got a sore and very painful foot. I had some physicians but they couldn't cure me. Now I have heard of your Vegerins from a lady who was sick for a long time, and became all well from your Vegerins, and I went and bought me one bottlet of Vegerins; and after I had used one bottle, the pains left me, and 't began to heal, and then I bought one other bottle, and so I take it yet I thank God for this remedy and yourself; and wishing every sufferer may pay attention to it. It is a blessing for health.

MRS. C. KRABE, 638 West Baltimore Street.

VEGETINE

SAFE AND SURE.

Dear Sir.—This is to certify that I have used your "Blood Preparation" in my family for several years, and think that for Scrofula or Cankerous Humors or Rheumatic affections it cannot be excelled; and as a blood purifier and spring medicine it is the best thing I have ever used, and I have used almost everything. I can cheerfully recommend it to any one in need of such a predictions.

Yours, Respectfully, Mrs. A. A. DINSMORE, 19 Russell Street.

VEGETINE. WHAT IS NEEDED. BOSTON, Feb. 13, 1871.

Dear Sir.—About one year since I found myself in a feeble condition from general debility. Vegetine was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and, after using several bottles, was restored to health, and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health

Respectfully yours, U. L. PETTENGILL,

Firm of S. M. Pettengill & Co.,

No. 10 State Street, Boston.

VEGETINE. ALL HAVE OBTAINED RELIEF. SOUTH BRUNSWICK, ME., Jan. 17, 1872.

to encourage his efforts and take a broth-Dear Sir.—I have had dyspepsia in its worst form for the last ten years, and have taken hundreds of dollars worth of medicines without obtaining any relief. In September last I commenced taking the VECETINE, since which time my health has steadily improved. My food digests well, and I have gained fifteen pounds of flesh. There are several others in this place taking VEGETINE, and all have obtained relief. er's interest in his feeble beginnings in re tracing his steps. He thought of you. He said within himself, "surely I may count upon his sympathy and succor." Did you ve obtained relief.
Yours, Truly, THOMAS E. MOORE,
erseer of Card Room, Portsmouth Ca's Mills meet his hopes? Did you help him? Or did you say, I have no confidence in his

MR. H. R. STEVENS.

In 1872 your Vegetine was recommended to me, and, yielding to the persuasions of a friend, I consented to try it. At the time I was suffering from general debility and nervous prostration, superinduced by overwork and irregular habits. Its wonderful strengthening and curative properties seemed to affect my debilitated system from the first dose; and under its persistent use I rapidly recovered, gaining more than asual health and good feling. Since then I have not hesitated to give Vegetinm my most unqualified indorsement, as being a safe, sure, and powerful agent in promoting health and restoring the wasted system to new life and energy. Vegetine is the only medicine I use; and as long as I live I never expect to find a better.

Yours, Truly.
