The Huntingdon Normal School.

A problem, difficult of solution, stands before this community. It is not how it shall secure the establishment of the Brethren's Normal School and Collegiate Institution in our town, with all its advantages and benefits; but how our people, and especially those who are most interested, can afford to be so apathetic in relation to it, as to allow the interest to languish, if not entirely die out, only t awake in a short time to the fact that the enterprise has been taken elsewhere to benefit a more enterprising community. It has come to light that some of those interested in the would be donated, as a part of the site for the school are not in favor of such encourage ment, if not really hostile to the whole enterprise, and a site wholly within the borough for the people-the borough or town as a unitto go to work, buy the location asked and present it to the Trustees of the School, and we are assured that the work will be commenced flocking in, undaunted by the "scare" which has now passed, and the building now temporarily occupied by the school will not be sufficient to accommodate them even during shown a copy of the Ashland Times, printed at Ashland, Ohio, giving a detailed account of the effort there being made to secure the enwere present, and occupied seats near the pulpit, in front of which the handsome casket terprise at that place. VOICE OF THE PEOPLE.

FRANKLIN TOWNSHIP, O. K. MR. EDITOR-Dear Sir :- I wish to say to the nany readers of your paper, that the Brother good, with the Greenback Labor men in unity elected two School Directors, one Superviso and majority Inspector of election, and ran very close on the whole ticket. There was only one combination opposing the ticket. So you see we do not fear next fall, at which time it will be done right. Yours, Fraternally, Feb. 20, 1878. VOTER.

EDITOR JOURNAL—Dear Sir:—"We have met the enemy and they are ours." We met them massed at the Coffee Run school house on pesterday morning, on the old battle ground, at 7 o'clock a. m. They had thrown out a heavy picket line, but when a few of our advance guard came in sight the enemy com-menced to fall back. Shortly afterwards the General and Staff arrived, and commenced to rally their forces declaring that General Green back and his forces must be beaten if it was in the timber, after which the contending armies met, and such a clasbing of arms. You bave no idea of the carnage that followed each charge. The battle lasted until dark, when it was found that the enemy had been routed "horse, foot and dragoon." The General leaving a little before the great battle was over. He left his small army in charge of the staff officers, but after the close of the fight it was discovered that the whole staff was killed,

fact his whole army was either killed, in fact his whole army was either killed, wounded or taken prisoners.

It might be well enough to state the strength of the Greenback party in little Lincoln. We started last fall a year ago with one vote for Cooper; last fall we polled for the Greenback ticket 32 votes, on yesterday we polled 73 votes. This was a straight, square Greenback fight, so you see, Mr. Editor, we mean business.

MR. EDITOR:—Having read with a great degree of interest, the artuele in the JOURNAL of last week by "An Old Practitioner," it has occurred to me to present for his consideration a thought or two on the subject by way of suggestion, which might prove valuable should a like emergency occur in the future. As I am but an humu-le citizen, having no pretentions to scientific or literary attainments, I merely throw out the suggestion, hoping that he will consider it in the light of science and of medical jurisprudence, and inform us as to the of medical jurisprudence, and inform us as to the practicability and effectiveness of the measures, so far as has come under his observation. I refer far as has come under his observation. I refer principally to the system of "ventilation and funigation," to ether with the additional precaution of having a comm ttee to attend to the door, and guards appointed to exclude infected persons. This system seems to have worked so admirably in our town, during the prevalence of the epidemic, that it was even alleged—truthfully I have no doubt—that the churches were doing more for the health of the community than the Board of Health was afterwards able to accomblish. of the community than the Board of Health was afterwards able to accomplish.

Now, Mr. "Old Practitioner," what is your opinion on the subject? Of course the "veatilation," judiciously administered by throwing open the windows and doors, and admitting a sudden draft of cold air into a close warm room, would have a salutary effect upon the health of the congregation, but how is it about the "fumigation," and what agents would you prefer for accomplish-

after if still persistent in their evil course, while the later would undoubtedly serve to quicken and fortify the olfactory nerves for any contact with a more offensive odor, and would impart an agreea-ble variety at least, if not a counteracting effect,

ble variety at least, if not a counteracting chees, to the influence of the former.

Another plan pursued with very decided advantage by one of our churches during the prevalence of the contagion was that of having guards at the door to exclude from entrance any infected persons, and in this case the sense of security was greatly enhanced by the fact that one of the "guards" was a man whose family had the smallpox at the time. This is supposed to have had the effect of keeping those who were not infected on the outside at least, if the infected ones—did happen to get inside. Will your correspondent be kind enough to enlighten us a little on a question of much vital interest.

AMONG THE DEAD FAILURES

AMONG THF DEAD FAILURES

Of the past, how many bogus nostrums may be numbered! Beginning their careers with a tremendous flourish of trumpets, blazoned for a time in the public prints and on flaming posters, soon, but not too soon, were they relegated to the limbo of things lost on earth. But Hostetter's Stomach Bitters is a living and thriving remedy. It goes on, curing and to cure. Neither underhand nor open competition affect it. On the contrary, contrast its popularity. It has been repeatedly imitated, but without success. Counterfeits of it have been surreptitiously introduced, but have fallen flat. Everywhere it entrenches itself in the confidence of the people; and well it may, for it is a thoroughly reliable invigorant of the feeble, banishes dyspepsia and constipation, braces the urves, cures rheumatic ailments and kidney complaints and eradicates and prevents intermittent plaints and eradicates and prevents interrmittent [Jan4-1m.

SCROFULOUS AFFECTION, AND MERCURIAL AND SYPHILITIC DISEASES are cured and thoroughly eradicated by "Dr. Swayne's Panacea." As a blood purifier and cure for Cancer, Hip Joint Complaint, Indolent Sores and Ulcers, it is acknowledged by our best Physicians to have no equal.— In cases where syphilitic virus of the parent causes a development of syphilis or scrofula in the child, this medicine will thoroughly eradicate every vestige of these dangerous complaints.
