INVESTIGATION OF THE ALLEGED EN-

SLAVEMENT OF AMERICAN NEGROES. A Washington correspondent says the ecretary of State has written to Captain Hester to call at the State Department in reference to the information the latter has obtained about the impressment of colored men as slaves in Cuba. He will then await, it is thought, the steps which the Senate will likely take, shaped in the direction of an investigation moved by Senators Conover and Bruce, before he takes any further action. General Queralta will be subpænaed to give his state ment of what he knows personally about the rumored enslavement of free colored American citizens. It is said that about fifty cases are known to exist in certain nterior localitiea. Secretary Evarts has declined to send any one direct from the State Department. The late mission of Judge Leonard, Representative from Louisiana, was conceived by himself and assisted by the President and Senor Manuilla, the Spanish Minister, without Mr. Evarts knowledge or co-operation. Mr. Evarts has asked Captain Hester to make a full statement to the State Department of what he knows of the transactions in Cuba, but nourishment. A Campaign Slander.

When Dr. R. V. Pierce was a candidate for State Senator, his political opponents pub-lished a pretended analysis of his popular medicines, hoping thereby to prejudice the people against him. His election by an over-whelming majority severely rebuked his trarepublishing these bogus analysis. Numerous and most absurd formulas have been published Upon the "platform," on the south side purporting to come from high authority; and it is a significant fact that no two have been at all alike—conclusively proving the dishonesty of their authors.
