A BEDFORD MAN'S TRANSACTIONS.—Dr. Dewart's "Young Man" is a true story. The ubiquitous scribbler of the Chicago Tribune has been investigating the doings of a man who was at one time a prominent citizen of Bedford, Pa. The following are the details of the story, which, if true, reflects anything but credit upon the individual whose conduct is the subject of the article.

Some very disagreeable facts concerning J. Selby Mower, a former prominent citizen of Bedford, Pa., come to light. Some years ago he was married by Father Lawler, a Catholic priest of Laporte, Indiana, to a lady who was born and grew in Bedford town. They resided for a number of years in this county in the position of Assistant Superintendent of the Pittsburgh Fort Wayne and Chicago railroad under General Superintendent Gorham.

After the removal of Danville, Illinois, and her husband went to Chicago, he having obtained a situation there as master on the Chicago railroad. Mower pronounced it his duty to resign his position at Danville, but during several visits which he made to Danville he still put her off, and the allegation that he did not have things properly arranged yet for a removal to Chicago, he abandoned her altogether, and she is in a very destitute circumstance. She is in the last stage of consumption. Last week she lived only a few hours, and it is not likely she will live very long. There was one child in the family, but it is dead.
