Indications of the Disintergation of

the National Party. It is well known, and we think will not be denied by the Nationalists themselves, that there are two elements in their party, antagonistic and difficult to harmonize, the labor-reformers and greenbackers. In our own county, it will be remembered that the movement was commenced by the workingmen, who called meetings for the advancement of their own interests, and that after they had met a few times they were joined by their present local leaders, and were led into financial folly, not in pursuance of their original intention, but, perhaps, contrary to it. We have repeatedly said that Mr. Mason is not such a candidate as laboring men could consistently support, but we did not anticipate away from him as now seems probable.-Judge Stanton, of Luzerne county, was of more than 3,000 votes over both the sider in this campaign. Republican and Democratic candidates by the labor party, and it would seem that he ought to adhere to the Nationalists if there is any concurrence of sentiment between him and them. But he is now as was a year ago to defeat his own. An interview with him upon political matters has recently been published in the Scranton Sunday Free Press, in which he freely gives his views in regard to Mr. Mason He warmly advocates the election of Mr. Dill, a fact which has no other political significance than that he desires to lead a large portion of the Nationalists into the Democratic party. We would ask the

In regard to the result of the coming election he said : The indications point to the election of either Dill or Hoyt. I see no possible chance for Mason. He is simply a money issue can-didate. He was put in the convention as Frank Hughes' man, and nominated against the labor delegates protest, and with the dis-tinct understanding that he would not favor the political views of the laboring masses; for the platform presented by the element in the

With him at the head of their ticket last fall, the labor men of Luzerne county achieved a victory which stunned monopolists throughout the land. That was a fight fairly won by the Labor party without the co-operation or assistance of the Hughes-Dewees Greenback-corporation clique which now proposes to steal the Luzerne county laboring men's thunder for their own aggrandizement. We do not believe their own aggrandizement with the weak how that Judge Stanton is. Hughes is, as the Judge says, Franklin B. What Hughes could not obtain for himself, be has secured for one who will be his tool, and through this tool he hopes to ride into the United States Senate. If this nomination had happen Government would lay a heavy hand upon ed a few years ago, when prosperity sat en-throned in the houses of labor, it might be passed over as a political accident, but that it should happen at a moment when labor is most jealous and watchful of her rights, seems inexplicable. A leopard can sooner change his spots than Mason should change his pro-corporation sentiments, and they who dream that if lifted by labor votes to the executive other property, which she estimates at chair, he will change his sentiments, have yet to learn by bitter experience how callous this worth. Hadn't the Government better but the men better but the men because he is on their discussions the men because he is on their discussions. for a man because he is on their ticket, especially when he is placed there by the basest political intrigue and manipulation. They, of all classes, should realize by this time that in these degenerate days men mean everything and platforms nothing. "Principles, not men," is now a tradition of the past. The Devil with the ten commandments emblazoned on his banner, would be, notwithstanding, the Devil. Yet let it not be inferred from our similitudes that we wish it to be understood that Mr. Ma-son is the Devil, others beside the Devil are

absence of sympathy with labor, Mr. Mason's religious susceptibilities will come into play for someboly's benefit. It is consoling to think that in the event of Mr. Mason's election, although he will have little bowels of compassion for the hard-fisted toiler, that the freedom of the executive mansion will be guaranteed to the Scranton Battalion and other Christian propriations. Christian organizations. It is consoling for the laboring men to reflect that as Governor, Mr. Mason will in the zeal of religious sympathy, be a grand auxiliary for Pauli when he goes to Harrisburg to have Judge Stanton impeached for being so imprudent as to sen-tence him to prison for the trifling crime of

forgery.

We believe in the cause of labor, and we will aid the laboring men all we can in our humble way this fall to obtain the mastery wherever success in the fight promises to be beneficial to themselves, but since the election of Mr. Mason would, in our judgment, be only a victory for one of the greatest enemies of labor, we will record our vote for plain, honest, Andy Dill, who, without any pretentions, will do his whole duty by all classes, poor and

rich alike. We would ask the working men of Huntingdon county whether they will support such a man as Mr. Mason is shown such a sudden and complete breaking to be by their own party friends. If not, will they allow themselves to be transferred bodily to the Democratic party? These elected to the bench last year by a majority are the only questions they have to con-

Ir is said that through the courtesy of the railroad companies, the delegates to the Greenback State Convention which nominated Mason, traveled to Philadelphia anxious to divide the National party as he the National State Committee expects to the campaign. And this is the anti-corporation party! They ought to be too independent to travel on a railroad at all, and especially to place themselves under obligations to the companies by accepting their favors. How can a red-hot Nationalist, or even an imported communist, cry out against the monopolies while enjoying a free ride in a monopolist's car, over a monopolist's railroad, and drawn by a monopolist's railroad at all, and especially to place themselves under them such a condition. But when we see the following men, who can raise the torrents of passion, but can not stay the flood of destruction, it seems the duty of every good citizen, at least, to point to the danger that is approaching.

We have a good government, yet the time never was when some of the people were not complaining of hard times, bad government, high taxes, and all other imaginable ills. It is true there have been times, as now, when real distress was fell, and invariably the party out of power laid the source of all the trouble upon the one in power; and ambitious men have never failed to seize these opportunities for the promotion of their own selfshs schemes, by holding up false inducements to the public. monopolist's railroad, and drawn by a monopolist's locomotive? INGDON COUNTY. EDITOR JOURNAL-Sir :- In using the term workingmen, it is not because of any special sig-nificance we desire to attach to the name, but be-

nificance we desire to attach to the name, but because it is used by others. In its restricted sense it means those who are employed at fixed wages, but in a more general way it includes everybody and is equivalent to the people; for there are but few, very few, who may be excluded from the working class. When the term is used it requires a great round of explanation to have our readers knew just whom we regard as workingmen; and our effort would be quite as intelligible if we had said the people, and stopped.

Therefore, when we use the term, workingmen, we mean the people, unless to make sense its re-

we mean the people, unless to make sense its re-stricted construing is required. It may be pre-sumption on our part to ask the people to consider the views we may present. But as we have noth-ing to desire but the general prosperity of every one, knowing that whatever of selfishness we may one, knowing that whatever of scinnings we may possess will be fully gratified in obtaining all we deserve, when every other person is prosperous and happy we earnestly desire this, as your careful readers well know who have not forgotten the spirit and doctrine of many of our former articles in recommendation.

We have advocated measures that would benefit we have accounted the necessity of dividing men into classes, which, when once adopted will endure because they would not violate any social law. The first point to be gained in the consideration of any subject is to clearly understand it. When fault is found with the result of any process the proper course to pursue is to inquire for the origin of the wrong, and when that is discovered the evil may readily be corrected.

But instead of following this wise course, opin-

Of this nation it is said that it is an "asylun for the oppressed of all nations," and it may be true, but if it is, those enjoying its benign infinence should conform with its laws and institutions that made Mason the candidate. They certainly would not have done so much to secure the nomination of one opposed to them. Truly, passes are the great danger that is besetting this political Sansem in its very youth.

finence should conform with its laws and institutions, instead of which, they have sown the seeds of poison, and corrupted our people, many of whom are carried away by the false doctrines presented. To-day our large cities, where these corrupting influences prevail and have a majority, are but little better than the cities over which the moral character of the rural districts—the farmers—for whom Satan has no mischief, because they are never idle, the country would soon fall into are never idle, the country would soon fall into the clutches of that much-abused individual.

the veil is lifted a little, and we get a glimpse of the animal, with "seven heads and ten horns," we are led to inquire what manner of creature it . There has never been a movement in this nation that required such strict and continued watch-

ing.

If the National party was really a workingman's
party we should not raise our voice against it, but
when we see men, who have never given a drop of

the mischief.

As we find this article will become too lengthy for one issue, we must defer its conclusion until another time, but before closing we wish to notice

a couple of squibs that appeared in a recent issue of the Greenback Nationalist. It is true, the wail was not lengthy but exceedingly deep. One writer cries out "Read! read! let every greenbacker, every farmer, especially every workingman, read "Trite's" communication in the JOURNAL, remember the contumely it heaps on your class. Read it carefully, have your neigh-bors read it, and let it do campaign service." Kerrect, sir. Let it be read and the truth of it bors read it, and let it do campaign service."
Kerrect, sir. Let it be read and the truth of it discovered, and we assure you it will do campaign service, but not at your mill. Going on a little further we find the following, which seems to ceme from the same pen: "There are some greenbackers in these parts who would be a disgrace to the Fejee Islands, on account of their innate ignorance and petty prejudices." Whew! "slander"—"contumely." Let's compare notes. Another gentleman, writing from the "Upper End," says some very naughty things, which shocked us seriously. He tells the people we could not enter the Universal Brotherhood. We are at a loss to know how he learned this, but it is wonderful how some men do get information. Yet we think there is a mistake somewhere, for we have been a member of a very Universal Brotherhood for a long time. There seems to be a difference, however, in the one described by this gentleman and the one we have been connected with. Whilst he excludes some we admit everybody.

Our order is very old, and broad in its views, and is based on a constitution and by-laws exceedingly plain and simple.

The first section of the first article, of our constitution, is as follows: "Thou shalt have no other God before me."

The second is, "Thou shalt not make unto thee any graven image," &c.

The by-laws are of like character. The first is

The second is, "Thou shalt not make unto thee any graven image," &c.

The by-laws are of like character. The first is in these words, "whatsoever ye would that men do unto you do ye even so to them."

Now, if this "Upper End" gentleman wishes to acquaint himself with the workings of our order, or desires to become a member, we shall be most happy to loan him the books containing the constitution and by-laws, wherein everything pertaining to it is clearly and completely explained. There is no difficulty in getting into our Lodge. Members do not have to go through a gangway, or air tunnel, nor go down a shaft, or stove-pipe, nor say, or do any funny things, but whenever the spirit moves them they enter the door and enter in. It is large enough to admit a locomotive. This gentleman says the Brotherhood is not political. Very well do we know this. Politics is too high, too noble a science to be found groping among woodchucks. We have called these societies political, (for which we beg pardon) not because they are political, but because they have intruded themselves where true politics alone, in its majesty, should be found. Again, this gentleman tells the people that our poor heart ached, when we saw over the door of his Lodge, the unchangeable fist, "No professional men can enter here." This did start a pane of sorrow hard to be endured. To "No professional men can enter here." start a pang of sorrow hard to be endured. To feel that we were shut out with Laplace, with Newton, and Leverrier, with Franklin, with Webster, and Morse, was enough to make a stronger heart than ours "bust." Yet there is a little concolation in remembering that the hog never looks

up to him who threshes down the acorns.

With your permission, Mr. Editor, we will conclude our article at another time.

Investigators of natural science have demonstrated beyond controversy, that throughout the animal kingdom the "survival of the fittest" is the only law that vouchsafes thrift and perpetuity. Does not the same principle govern the commercial prosperity of man? An inferior cannot supersede a superior article. Illustrative of this principle are the family medicines of R. V. Pierce, M. D., of Buffalo, N. Y. By reason of superior merit, they have outrivaled all other medicines. Their sale in the United States alone exceeds one million dollars per annum, while the amount exported foots up to several hundred the clutches of that much-abused individual. From these false doctrines the National party came, and now, as workingmen, you are asked to follow its advocates, under the disguise that they alone can relieve your distress. They present to the public very little of their true intent, hoping to gather power in this manner, and afterwards, by stealth, introduce their obnoxious innovations. If this party was what it appears to be on the surface it would not deserve notice, for if it were to-day in power, the good it proposes, and by the measures indicated, would never be felt. CHEAP KANSAS LANDS!!

We own and control the Railway lands of TREGO CO., KANSAS, about equally divided by the Kansas Pacific R. R., which we are selling at an average of \$3.25 per acre on easy terms of payment. Alternate sections of Government lands can be taken as homssteads by actual settlers. These lands lie in the Great Limestone Belt of Central Kansas, the best winter wheat producing district of the United States, yielding fom 20 to 35 Bashels per acre. The average yearly rainfall in this county is nearly 33 inches per annum, one-third greater than in the much-extolled Arkansas Valley, which has a yearly rainfall of less than 23 inches per annum in the same longitude. Stock-Baising and Wool-Growing are very remunerative. The winters are short and mild. Stock will live all the year on grass! Living Streams and Springs are numerous. Pure water is found in wells from 20 to 60 feet deep. The Healthiest Climate in the World I No fever and agne there, No muddy or impassable roads. Plenty of fine building tone, lime and sand. These lands are being rapidly settled by the best class of Northern and Eastern people, and will so appreciate in value by the improvements now being made as to make their purchase at present prices one of the very best investments that can be made, aside from the profits to be derived from their cultivation. Members of our firm reside in WA-KEENEY, and will show lands at any time. A pamphlet, giving full information in regard to soil, climate, water supply, &c., will be sent free on request. Address.
