"DEAD HEADS," TAKE NOTICE !- Ev. ery now and then a paper is returned to this office, accompanied with information that the person to whom it was addressed had left for parts unknown, or refused to lift it. In nearly every case we find that the paper has not been paid for, and we are the loser. In order to have some satisfaction out of such scoundrels we have prepared a book, in which we enter their names, the place at which they received the paper, and the amount they owe us, and in the near future we propose to publish it, under the head of "Black List," in order that the public may know who they are. To be sure, this will not liquidate the claim we have against them, but it will be a satisfaction to us to publish their scoundrelism, and it may prevent others from being swindled by them. The man who takes a paper for a year or more, and refuses to pay for it is little better than the thief who enters your house and steals the there is any difference between them, the latter is the more honest of the two. We have already a half dozen names on our list, and will add to it all those who refuse to pay for their papers. We have made up our mind that no newspaper "dead beat" can swindle us and escape without exposure. Those who don't want their names to appear in this list can prevent it by not attempting to cheat us out of our just dues. There are some men who war. take a paper from year to year without any idea of paying for it, and the sooner these men are known to the newspaper fraternity the better it will be for them.

We have sent a bill to every man who owes us a year's subscription, so that no one can set up the plea that he did not know the amount of his indebtedness; besides this the tab on every paper will give the desired infor-
