WHAT OUR CORRESPONDENTS SAY.

OUR CORRESPONDENTS. GREENBACK, Sept. 25, 1878. Mr. Nass - Dear Sir - I noticed some two weeks ago, a communication in your paper signed "Editorial," containing a kind of stricture on a Greenback article.

He showed conclusively that the Republican party was in the way responsible for the hard times, and that it could not have been on account of the contraction of the currency, inasmuch as there was more currency in circulation in 1873, than ever before, and so forth.

He traced the history of money, its definitions, and showed that it had for six thousand years been based on something of value, and that it was not a mere piece of paper, but a thing of value.

He was followed by Mr. A. R. Brown, of Washington, D. C., in a few eloquent remarks, which were shorted on account of the lateness of the hour.
