met at the depot by a large delegation of citi-zens, and were immediately conducted to the carriages in waiting and driven through West Huntingdon to the head of Washington street, where they alighted from their carriages and ascended Warrior Ridge for the purpose of viewing a proposed site for the buildings, but not being favorably impressed with the location they descended and took carriages again and were driven to the other proposed site on the farms of Messrs. They returned to town and repaired to the Leister House where they remained during their stay in our town.

In the evening a session was held in the arlors of the Leister House, during which Hon, H. G. Fisher addressed the Commission at some length upon the advantages and facilities of our town.
