### A Last Appeal to the Honest Voters of Huntingdon County Without Regard to Party.

As this is the last issue of the Journal that can reach any one until after the election on the 5th of November, we feel like calling the attention of honest, intelligent men to some facts connected with the present campaign.—
After an experience of almost forty years of political life we can say that there has been more dishonesty practiced during the present campaign than we have ever known before. campaign than we have ever known before. There is an old adage, and we think a very true one, that "honesty is the best policy," and we believe that those who have been acting dishouest for selfish purposes will learn the truth of this proverb, after Tuesday next, to their sorrow. This political dishonest dealing has been brought about by a set of sore heads are fine seekers who folling to gain promotion. or office seekers who, failing to gain promotion in the parties to which they belonged, have undertaken to break up the two leading parties by introducing a third party known as the "Greenback party." This greenback maggot is said to have sprung from the brain of Pendleton, of Ohio. Now while Mr. Pendleton, and all others who advocate this new party, and all others who autocate this new party, profess great sympathy for the poor laboring men, they are really their worst enemy. They take advantage of the panic and hard times, they tell the poor men that all these hard times are caused by the party in power, and if they will only vote for them, so they can get the government into their hands, times will get better at once; they will make green-

to vote for him. He knows, too, that the Government has no authority to issue green-backs only as a war measure and that it would be contrary to the Constitution to do so. He well knows, too, that it is no contraction of the currency that causes the present hard times, and that the election of a hundred men like him to our Legislature would only make times harder. He tries to deceive you at every point. If you are a Republican he tells you he is a Republican; if you are a Green-backer he is a particular friend of yours. And white he has said that no good thing can come out of the Democratic party—"or that other place," yet he is even willing to go there that place," yet he is even willing to go there that he may secure your votes. While Mr. Doyle was a minister of the Gospel we felt like reverencing him, but since he has become a reverencing him, but since he has become a dishonest politician we can have no respect for him. Some think he has fallen from grace, but we have no such an idea, he is just as good a man to day as he ever was, all the difference is, he is showing his true colors now. We believe Paul said to as good a man, and perhaps better, who was deceiving the people: "O full of all subtilty and all mischief, thou child of the devil, thou enemy of all righteousness, wilt thou not cease to pervert the right ways of the Lord."

to secure his election. Now we ask the in telligent voters of Huntingdon county wbether in our Legislature who act dishonestly to secure their election? The man who deceives you once will deceive you again. We would say to you, then, vote for Samuel McVitty and won against their combined efforts to defeat him. Vote for Figher William S. Smith, men of known honesty.—
We venture the assertion that you cannot find
a single voter in Huntingdon county who they
have deceived by telling them that they were
either Greenbackers or Democrats in order to
gret their votes. And while we are arreful to get their votes. And while we are careful to send honest men to represent us, we should ble one." especially be careful to send men who have been successful in managing their own busi-ness, as a man unable to manage his own affairs would not likely be able to manage the interests of our county at Harrisburg. Now we believe you can find few men, if any, in Huntingdon county who have been more successful, and have made as few mistakes in cessful, and have made as few mistakes in their own business transactions, than has Messrs. McVitty and Smith, while they are in every other way able and qualified for the position they seek. We say to you, then, one and all, vote for McVitty and Smith.

THE SECOND LARGEST MEETING FVFR HFID IN HUNTINGDON!

and all, vote for McVitty and Smith.

Our candidate for Congress, Mr. Fisher, should have the support of every Republican and Democrat in the county from the fact that he has secured the Penitentiary for us, which will be a present and lasting benefit to the people of this county. While his opponent, Mr. Stenger, has never done a single act in any way benefitting the people of this county. What claims can he have on the voters of this county? We say to you, then, vote for Fisher. county? We say to you, then, vote for Fisher, an able man, and one who is identified with

an able man, and one who is identified with the interests of our county.

W. McK. Williamson, our candidate for Prothonotary, being a good lawyer, and his experience in the office doubly qualifies him for that position. His disposition to accommodate every person having business in the office, has won him many friends, and we predict for him a large majority on the 5th of November as any men on the ticket. Vote for Williamson.

G. B. Orlady, our candidate for District Attorney, is well known to the citizens of our torney, is well known to the citizens of our county as one of the most shrewd, energetic young lawyers we have, and we have no doubt but that he will fill that office with credit to himself, and to those who place him there.—

offered to the voters of Huntingdon county, take it from Congress to Auditor. You do not find among them any weak minded spiritresult of the among them any weak minded any weak minded any weak minded any weak minded and politicians. We offer to you a ticket made up of men of intelligence, with sound minds and honest hearts, and we ask you to vote for every man on the ticket.

Fisher, our candidate for Congress, made the first speech, in the course of which he discussed the financial issue of the day in a masterly manner, and showed plainly that the Greenback theory of "fiat" money was detricted.

short time since, endeavoring to win converts, the stand to catch the utterances of an honest to the heretical doctrine of unlimited inflation, man. His speech was able and convincing, he made some statements which were rather

For instance, in comparing the profits which accrue from farming with those derived from National Banking, he said that were a man to invest \$15,000 in a farm, at the end of ten years his property would probably have increased in value 3 per cent., which would likely be absorbed in improvements. But were he to invest the same sum in National Bank Stock, at the expiration of ten years his capital would have been augmented to an amount sufficient to purchase 19,148 such farms. Such an assertion needs no comment, as its absurdity is obvious.

Again, holding up a \$2 greenback note, and

gold all through the war, which he explained by stating that it was of the first issue of \$60,000,000 which were a legal tender for all

debts public and private.

He was very enthusiastic as he dwelt upon the advantage of this kind of currency, which would be the money the Greenback Party would issue when they obtained control of the government. He argued that if this green-back note could be at par all the time through the war, why could not all our notes be declared at par and have no fluctuations in the money market? He further stated that it was only necessary to have the government stamp upon them; and that gold was not an essential basis of our currency.

Boring, of this place, and formerly Supervisor of this Division of the Penna. Canal. Were I seeking office at this time it would be a seeking of the seekin

stamp upon them; and that geld was not an essential basis of our currency.

He challenged any one present to prove that his statements were incorrectin any particular. Col. G. W. Owens immediately arose and asked the gentleman if he desired the challenge to be taken up there. Doyle very courteously declined, saying he had other engagements and would meet the Colonel again. Next morning he called upon Col.

Owens and the first topic that engaged their attention was the greenback note upon which Doyle had expatiated so fully the previous evening. The Colonel upon seeing the note was satisfied that it was a common greenback, was satisfied that it was a common greenoad, and to convince Doyle of this fact, a powerful microscope was brought to bear upon the note in order to read the stipulations on the back, it being much mutilated and worn.

Several citizens had now became interested

in the controversy, and all could see through the microscope that it was a common green-back note. Doyle was much confused by the relations of the microscope, and said the bill had been given to him by Mr. North previous

SAMUEL McVITTY, ESQ. I will not attempt anything like a full biographical sketch of the individual whose name forms the caption of this article, but I will point out a few traits of character in the man which I think should commend themselves to the favorable consideration of every voter in the county. It is scarcely necessary, I suppose, to state that McVitty is a candidate on the Republican ticket for the Legislature. He was placed there without any special solicitation on his part. When it was known that he would accept the nomination, public sentiment pointed him out as the man for the position, and indeed, the same can be said with reference to Mr. Switt. and indeed, the same can be said with reference to Mr. Smith.

In the first place I will say, that having known McVitty personally at least twenty-five years, I can vouch for the assertion that he get the government into their hands, times will get better at once; they will make green-backs so plenty that every poor fellow can have his pockets full of them. No more hard times, work will be plenty, no tramps traveling over the country. They use every kind of stratagem to deceive the poor laboring men, and lead them estray. They will tell them that rich men are all the time concocting plans by which they may skin the poor man, and as saved some money. And although he has and lead them estray. They will tell them that rich men are all the time concocting plans by which they may skin the poor man, and as a last argument they tell them to vote the greenback ticket as they cannot make a worse of it. Oh I when we see men so easily led estray, we are reminded that "earth was fertile in many things, not least in fools, who mercy both and judgment scorned. Scorned love, experience scorned, and onward rushed to swift destruction, giving all reproof, and all instruction to the winds."

We believe that Rev. Doyle has used all the arguments we have mentioned above, knowing them to be false, in order to get laboring men to vote for him. He knows, too, that the Government has no authority to issue green.

to his support on Tuesday next and give him an unprecedented majority in the county.— By the business in which he is engaged he has to a very considerable extent built up the community in which he lives, and has given employment to many persons from year to year. Every voter in the entire lower end of We believe Paul said to as good a man, and perhaps better, who was deceiving the people: "O full of all subtilty and all mischief, thou child of the devil, thou enemy of all righteousness, wilt thou not cease to pervert the right ways of the Lord."

Mr. Foust, the other candidate for the Legislature on the Greenback ticket, is also a deceiver. He professes to be a Greenbacker and a sworn member too, and when he gets with a Democrat he says that he "is just as good a Democrat as he ever was." He too seems willing to resort to any measures at all to secure his election. Now we ask the in telligent voters of Huntingdon county when the given and a sworn of Huntingdon county when the gets and the too seems willing to resort to any measures at all to secure his election. Now we ask the in telligent voters of Huntingdon county when the gets are few whom he has not either directly or indirectly benefited through business transactions. The Colonel then explained to him that the first issue of \$60,000,000 were demand notes and the reason why they were always at par was because they were payable on demand in gold; and that the government refused to issue more of them as she had not the gold with which to redeem them. And the reason of the great depreciation in the value of the common greenback notes was because it was uncertain whether they would ever be redeemed.

subversive of health, it is absolutely essential that the grand thoroughfare or avenue of the system, the bowels, should be re-opened as speedily as possible when they become obstructed. If they are not the bile is misdirected into the blood; the liver becomes torpid; viscid bilious matter gets into the stomach, and produces indigestion; headaches ensue, and other symptoms are produced, which a prolongation of the exciting cause only tends to aggravate. The aperient properties of Hostetter's Stomach Bitters constitute a most useful agent in overcoming constriction of the bowels, and promoting a regular habit of body.
