

TO THOSE CONCERNED.
All persons knowing themselves indebted to this office for subscription, advertising or job work, for over one year's standing, are expected to call and pay up at once. These accounts must be settled without further delay. We have great leniency to those owing us, but our business interests now require us to demand payment, and if this request is not complied with we will be compelled to add costs, something which we are averse to doing if it can be avoided.

We have bills against several townships and boroughs, for advertising their school and supervisors' accounts, which should have been paid long ago, and which must now be paid.

All accounts remaining unpaid after the coming Court will be placed in the hands of an officer for collection.

THE "War Governor," the renegade Republican, Andy Curtin, has been defeated in the Centre district. Glory! Carry the news to McClure.

It is just a little previous, but the Constitution, published at Atlanta, Ga., says the Republican National ticket in 1880 will be Conkling, of New York, and Hartranft, of Pennsylvania.

WESTERN emigration has assumed a new feature; and one which we believe will become popular. The new feature consists in the formation of companies of honorably discharged soldiers of the late war who select a location in some one of the Western States and colonies. A colony of this kind is now in process of formation in Allegheny county.

We are in receipt of a copy of the Sidney (Neb.) Telegraph, and after scanning its pages we discovered that our old-time friend, W. H. H. Brainerd, formerly of Tyrone, is one of its editors and proprietors. While Brainerd was showing the editorial pencil in this region, it was in the interests of the Republican party, but he has fallen from grace as is evidenced by the intensely Democratic doctrine he preaches through the Telegraph. We wish him financial success, but political disaster.

THE average consumption of wheat is sixteen bushels per head of population. England raises only four bushels per head. Russia twenty six, and the United States forty bushels per head. England's supply must come from the surplus of other countries, and that country which offers a good quality of grain at the lowest price will command the trade of England. Uncle Sam's energy and ingenuity must offset Russia's nearness to the English markets.

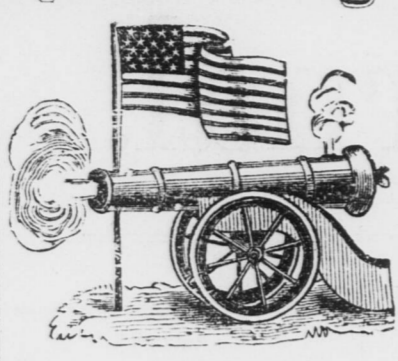

THE New York Times says that Lancaster county, Pa., is one of the best cultivated counties in the republic. It was settled by the Dutch in the eighteenth century, and the valuation of the farms at present is about \$89,000,000, agricultural products \$20,500,000, and minerals \$16,000,000. The population is about 226,000, and farms are rarely over 100 acres. These are seldom sold but go down from father to son. They are a thrifty and hard working people, but pay little attention to improvements, and have not yet learned the trick of escaping their debts.

We received the offer from the Chicago & North Western Railway Co., the other day, to publish \$75 or \$100 worth of special notices for a trip between Chicago and any point on that road. We see that a number of our exchanges are publishing the same matter set us, and we presume are doing it on the terms offered us. If this Company expects us to give it \$100 worth of advertising for \$20 or \$30 worth of travel over its road, it is mistaken in its customer. When we want to travel over that road we will pay our fare, and when it wants the use of our columns it will have to pay us for the same.

DURING the past ten days there has been a decided decrease in the number of yellow fever patients in the infested districts of the South. In New Orleans the board of health has declared the epidemic at an end, the number of deaths from other causes exceeding those from yellow fever. Memphis, Mobile, Baton Rouge, and other cities and towns are still suffering, but the number of new cases and the death rate are very small in comparison with what they were a few weeks ago. The cool weather and the welcome frosts have had a salutary effect in staying the progress of the terrible scourge.

COL. RICHARD REALE, the poet, journalist and orator, committed suicide, by morphine, at the Windsor House, Oakland, Cal., on Monday night, of last week. The deceased was born in England, but in his early manhood he emigrated to America, and soon after his arrival in this country became a pronounced and ardent Abolitionist. He thus became associated with John Brown—acting in the capacity of a private secretary. Later in life he entered the army as a staff officer in the West when the rebellion broke out, and served with credit to himself, fairly winning his spurs by years of courageous fighting and service. His army experience told upon his constitution, and a few years after the war closed,—about 1871—he landed in Pittsburg, where he had been invited to give his mental gifts. A few sketches contributed to the press on various topics of local interest, awakened inquiry, and he was in a few months given a position on the writing force of the Pittsburgh Commercial. Gradually his talents there were displayed—at a poet and as an editorial writer of pungent paragraphs—until he was advanced to the position of assistant editor, a position which he held to the time of the consolidation of the Commercial with the Gazette. When his connection with the Commercial was severed he started out to lecture on temperance in all over the country. While in Pittsburg his domestic troubles drove him into the courts seeking for a divorce. He had often intimated to his friends that he would end his troubles by suicide, and it is fair to presume that unpleasant marital relations caused him to end his brilliant though checkered life.

A FIELD DAY FOR REPUBLICANISM!
The victory in this State, on Tuesday,

was full and complete. Hoyt, Stone, Sterrett and Dankel have been elected by majorities ranging from fifteen to twenty thousand, and both branches of the Legislature are largely Republican, which insures the election of a United States Senator next winter. The victory is the more complete when we remember with what fierceness the Democrats fought. Mr. Speer, the Chairman of the Democratic State Committee, early in the campaign, asserted that "this was to be the battle of his life," and in his attempts to be successful he resorted to all the means known to the low political trickster; the press and orators of his party were raking with personalities and falsehoods, but the honest masses of the State were not to be swayed from the right, and they rebuked him and his party by rolling up a majority of 20,000 for gallant Harry Hoyt and the balance of the State ticket. Mr. Speer's battle has been a failure, and he leaves his forces routed, panic-stricken and so much scattered that his "bugle-call" will not be able to rally them for the contest in 1880. In all the States north of Mason and Dixon's line, which voted on Tuesday, the Republican party has been successful.—New York gains seven Congressmen and will return Cookling to the U. S. Senate. In Connecticut we elect the legislator which insures us a United States Senator. "Beast" Butler has been defeated in Massachusetts, and the Republicans elect all their Congressmen. Down in Jersey we gain a Congressman. New Hampshire is solidly Republican, and will choose a U. S. Senator. Michigan comes up nobly and sends a solid Republican delegation to Congress.

In 1790 there were over 3,000 slaves in Pennsylvania. Large deposits of plumbago have been discovered in Delaware county. Kelly Hagy, who with three other miners fell into the shaft of Gabriel's mine near Boyertown, Berks county, has died of his injuries. The Lehigh county coal operators will meet at Bethlehem on Monday to discuss the advisability of a discontinuance of the coal combination. Jeremiah Neffinger, a former resident of Carlisle, was murdered in West Virginia, by a man named John A. Filbert, a horse-dealer, a few days ago.

was this in the case of Mr. Fisher, Mr. Williamson and Maj. Orady, and we point with pride to the election of these gentlemen. The combination succeeded in electing Foust and Doyle to the Assembly, McElwain treasurer and Isenberg Commissioner. We are sorry that this is so, and if Republicans were not so easily persuaded into giving complimentary votes we would not be compelled to announce the defeat of our candidates for these offices. We do hope that Republicans will profit by this lesson. A most desperate fight was waged against Senator Fisher, but despite the lavish use of money sent here for the purpose of corrupting voters, the lies and slanders of some of our people, and the dirty work performed in the interests of Stenger by hired lick-spittles, he carries the county by a majority of 715 and the district by 200. This is glory enough for one day.

Thanksgiving.
PROCLAMATION BY THE PRESIDENT OF THE UNITED STATES.
WASHINGTON, October 31.—The President has issued the following proclamation setting apart Thursday, November 29, as a day of Thanksgiving:
By the President of the United States: A Proclamation. The recurrence of that season at which it is the habit of our people to make devout and public confession of their constant dependence upon Divine favor for all good gifts of life and happiness, and of public benediction to the glory and praise of the Father of mercies, and the abundance of His mercies, in the record of the year, abundant harvests, productive mines, ample crops, staples of trade and manufactures, have enriched the country. The resources thus furnished to our reviving industry and expanding commerce will hasten the day when discord and distress shall cease, and the length and breadth of the land will, under the continued favor of Providence, give way to confidence and assured prosperity. Peace with all nations has remained unbroken. Domestic harmony has prevailed, and the institution of liberty and justice which the wisdom and virtue of our fathers established remain the glory and defence of our children. The general prevalence of the blessings of health throughout our wide land has made more conspicuous the sufferings and sorrows which the dark shadow of pestilence has cast upon a portion of our people. This heavy affliction even the Divine Ruler has tempered to the suffering community in the universal aid and succor which have flowed to their relief, and the whole nation may rejoice in the unity of spirit in our people by which they cheerfully share one another's plagues. Now, therefore, I, Rutherford B. Hayes, President of the United States, do appoint Thursday, the 28th day of November next, as a day of national Thanksgiving and prayer, and I earnestly recommend that, withdrawing themselves from secular cares and labors, the people of the United States do meet together on that day in their respective places of worship, there to give thanks and praise to Almighty God for His mercies, and to devoutly beseech His continuance.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this 30th day of October, in the second year of our Lord 1878, and of the independence of the United States the one hundred and third. R. B. HAYES, President of the United States. By the President: WM. M. EVARTS, Secretary of State.

Industrial Items.
All the steel works in Pittsburgh are running double turn.
The Cleveland Rolling Mill Wire Company's men are now working 12 hours per day, and are receiving from 75 cents to \$1.50 per day.
The Cleveland Rolling Mill Company are now employing 3,500 men. Ninety days ago they had but 3,200—thus having increased their force 300.
Laclede Rolling Mill, St. Louis, is now running double turn in both the forge and mill, turning out an average of seventy tons of bar sheet and plate iron daily.
The bar mill at the railroad company's iron works at Cumberland, Md., have started up under the management of the new superintendent, Mr. William Robinson. Between thirty and forty men will be employed.

The Balde Locomotive Works shipped by the ship Colorado, from New York to the 22d ult., for Sydney, New South Wales, three heavy locomotives, which had been ordered by the Government of that far-off country.
The recent storm laid a heavy hand on the locomotive works at Lancaster. Over one half of the works known as the smelting range, which is built of brick, with a heavy slate roof, was blown completely to the ground.
One of the leading iron manufacturers of Youngstown, Ohio, according to the Register of that place, says the iron trade looks brighter at this time than it has before for five years. Orders are plenty and iron is going up.
The strike of the Clyde (England) ironworkers has commenced. The engineers' society, numbering 3,000 men, has also resolved to strike if the reduction of wages be enforced. The firm of John Elder & Co., have decided to discharge 1,200 of their hands. They employ 4,000 men.
