

The Huntingdon Journal.

FRIDAY, - - DECEMBER 6, 1878.
READING MATTER ON EVERY PAGE.

W. L. FOULK,
 Agent of the Pennsylvania, Ohio and West Virginia Press Association,
 Is the only person in Pittsburgh authorized to receive advertisements for the JOURNAL. He has our best rates.

LOCAL AND PERSONAL.

Brief Mention—Home-made and Stolen.

Dust and shake out your furs.
 Saturday's sunshine was enjoyable.
 Buy your cigars at the JOURNAL Store.
 Everybody talked penitentiary last week.
 The weather is as fickle as a Miss in her teens.
 Almanacs for 1879 for sale at the JOURNAL Store.
 A full supply of school stationery at the JOURNAL Store.
 Motions for the million just received at the JOURNAL Store.
 Purses, for carrying coin, at the JOURNAL Store, for 10 cents.
 The best and cheapest school ink in town at the JOURNAL Store.
 Some very handsome and very cheap ink stands just received at the JOURNAL Store.
 The Justices have been ropping in the shekels for the past week from the tarty tax-payers.
 Patent stickers a specialty at the JOURNAL Office. Call and see them and leave your orders.
 Blank certificates of agreement between Directors and teachers just printed and for sale at the JOURNAL Store.
 The Blair county teachers' Institute will convene in the court house, in Hollidaysburg on the 23d inst.
 Now is the proper time to repair your ice-houses for the reception of the coming crop—if it does come.
 A daily paper is promised from the Mt. Union Times office during the holidays. Or-isonians to hear from.
 Pork is selling as low as three dollars per hundred in some parts of the State, with few buyers at these figures.
 The handsome paper, for making wall pockets, in water, all colors and styles, just received at the JOURNAL Store.
 A quartette of Alton hoodlums has been sent jail to answer the charge of robbing some of the churches of that city.
 The third annual re-union of the 131st Pennsylvania regiment will come off at Williamsport on Friday, the 13th inst.
 The saloon of Dexter White, in Bedford, was slightly damaged by fire on Sunday morning, at 2:45 a. m. Fully covered by insurance.
 If you want to make the hearts of the little ones glad, buy them some of the handsome juvenile books for sale at the JOURNAL Store.
 The juveniles had a good deal of sport, on Thanksgiving day, in their efforts to catch a turkey which had got away from its owner.
 Some of the parents on the north side of Mifflin street, during rainy weather, would answer first rate for fish ponds. Level them out.
 We interviewed diggers with our old friend, Henry Conprobs, esq., on Saturday last. He is the same clever, jovial gentleman as of yore.
 The new Fountain Pen, to be had at the JOURNAL Store, is just the thing for persons to use who have much writing to do. Only 25 cents.
 Some of our exchanges seem to take pleasure in reminding Huntingdonians that at one time they talked about building plate-glass windows "right off," gentlemen.
 Copper ore has been discovered in Sarville township, Perry county, and a shaft is being sunk for the purpose of working it, if found to exist in paying quantities.
 The Jury Commissioners have completed their task of filling the jury wheel for 1879 with the names of those citizens who it is supposed will make good jurors.
 Rev. J. C. Clarke, known well in this place, was one of the officiating ministers at the funeral obsequies of Col. E. L. Everhart, held in Harrisburg on Friday last.
 Street Commissioner Miller has taken several wagon loads of dirt out of the inlets to the Fifth street sewer, a something that is necessary to avoid an overflow during a heavy fall of rain.
 A brown shawl was found on the Stone Creek road, on Friday morning last, between this place and the pottery. The owner can have it by calling at this office and paying for it.

B. J. Devor, of Mt. Union, was last week made a full-fledged lawyer by being admitted to practice in the courts of this county. He is supposed to have passed a very creditable examination.
 The best five-cent cigar in town can be had at the JOURNAL Store, while the two for five cents, at the same place, build both creation.
 Some friend, in human form, fired the leg and ice-house of D. W. Woods, esq., in Lewistown, on Sunday morning last, destroying both of them and slightly injuring the residence of that gentleman.
 Judge Summers proposes building a man-made ice-pond this fall which he will fill with spring-water. The Judge can have a large crop, wind and weather permitting, of most excellent ice.
 The ladies are loud in their praise of the Jet Paste Store. Polity. They can black their teeth in their "Sunday-go-to-meeting" clothes without fear of tarnishing them. No dust, no rubbing. Only 10 cents a box.
 Our friend, in the "upper end" can rest assured that "the poor D—" does "feed that little bill." Our income is made up of "little bills," and if they were paid more promptly we would not be so "hard up."
 The inspection of the companies composing the Fifth regiment, which was advertised to take place on Thanksgiving day, has been postponed until the tenth of December, owing to the fact that some of the companies have not received the new regulation uniform.

The windows of our merchants and shopkeepers are beginning to wear a holiday appearance. A display in the window is not half so good, however, as an attractive advertisement in the "handsomest and best paper in the county." It is bound to bring trade.
 Quite a heavy rain and wind storm set in at late hour on Sunday night, which prevailed until about five o'clock on Monday morning, when it cleared off and the sun shone out with a warmth and brilliancy which would have done no discredit to the balmy days of October.
 A polar wave struck this place on Thanksgiving day, and by noon the weather was uncomfortably cold than the usual amount of kind had to be dispensed with, much to the regret of the ladies and ladies who had made arrangements for having a good time.
 Mrs. Margaret Harris, a colored lady who resided in West Huntingdon, died very suddenly on Saturday morning last. She arose in the morning as usual, and after coming down stairs sat down on a chair, where, a few moments later, her daughter found her about expiring. Her death was cause, we understand, by heart disease.

SPORTING NOTES.

John McCoy gobbled five rabbits on Saturday last.
 Partridges sell at \$2 per dozen in the Harrisburg market.
 On Saturday last Howard Decker, of this place, killed a sixteen-pound wild turkey. Two pheasants and one rabbit.
 Quite a number of our sportsmen spent Thanksgiving day in the woods, but we have received no report of the amount of game taken by them.
 A gentleman named Zeigler, residing in Buffalo township, Perry county, shot two wild turkeys at one shot, a day or two ago. He weighed respectively 19 and 19 1/2 pounds. He made this extraordinary good shot with an old army musket.

A turkey which attempted to make his escape the other day, to avoid the axe of the executioner, and took refuge on the roof of the building, was brought from his perch by a well directed shot from Frank W. Stewart's double-barreled fowling piece.
 John Henry, of Barre township, on Thursday evening of last week, killed a four-pronged buck, weighing 132 pounds, on Warrior Ridge, Mr. Henry is a crack shot and a good hunter, his being the second deer which he has brought down this fall, besides a number of wild turkeys and smaller game.
 Howard Holtzworth, of this borough, who had been on a ten days' hunt in the lower end of the county, returned home, on Saturday last, loaded down with trophies of the chase. During the ten days he killed 122 partridges, 7 rabbits, 5 pheasants, 1 ground-hog and 1 woodchuck. A pretty good showing this, for an amateur.
 A writer in some of the eastern papers recommends the sowing of wild rice in rivers as a protection to fish against the depredations of the pirates who still persist in fishing with seines, notwithstanding the law strictly prohibits it. If rice were sown in the Juniata, in a few years it would grow so thick that it would be impossible to pull a seine through it, and whilst it would protect the fish it would also afford food for all kinds of water fowl, and would be means of bringing them to our river in innumerable numbers, thus giving the poor cheap food and at the same time affording any amount of amusement for sportsmen. The idea is respectfully referred to the members of the Game Association of this place.
 Rev. McMurry, of the M. E. church, last week returned from his annual deer hunt.—The party was composed of gentlemen, who every year, meet at Phillipsburg, and under the leadership of Mr. J. F. Steiner spend a week in the mountains. One deer was killed by the party, but it did not this time fall to the lot of Rev. McMurry. He shot at one and it dropped as though it was dead; he stood still a moment with the other barrels of his gun in readiness, and then concluding that it was dead started to walk carefully toward it. All of a sudden it gave a bound and away it went unharmed by the load of buck shot that followed after. It had been stuck on the head at the first shot and stunned and if Mr. McMurry had not felt so certain of its being dead he could easily have secured it before it came so far as to be able to escape.—*Clearfield Journal.*

DEATH OF COL. E. L. EVERHART.—On Friday morning last a telegram, announcing the sudden death of Col. Everhart, at Harrisburg, the night previous, was received here, and the sad intelligence cast a gloom over the community, as the deceased had many warm personal friends in this place who were pained and shocked at the intelligence of his sudden and unexpected death. For a number of years Col. Everhart was a resident of our town, where he was esteemed and respected by all who knew him. The Patriot, of Saturday, says:
 Col. Everhart was taken ill about a week ago, the result of a severe cold contracted a short time previously while on a visit to Huntingdon county. The cold continued, and he was attended by skillful physicians, but his recovery was not within the power of human agencies. Col. Everhart bore an excellent reputation as a citizen of this county, and was always regarded as one of the staunchest democrats of the above county. On assuming the duties of a selector general, he was elected to the position of his clerk, a position for which he was eminently adapted. He performed his duties faithfully and well, as his books show. He was a member of the Mifflin Lodge, No. 1, in official and social contact. The deceased was born in Mifflin county, but passed most of his life in Huntingdon, from which he was elected to the office of selector general in the department. He was a brother of Hon. J. C. Everhart, who represented Blair county in the legislature in 1875 and who was then the Auditor General of the clerks and employees of the Auditor General's department was held on Friday afternoon, and after a brief speech by Auditor General Schell, recounting the many good qualities of the deceased, the following resolutions were adopted:
 WHEREAS, Death has suddenly removed from among us Col. E. L. Everhart, registry clerk in this office;
 And whereas, by his integrity and sterling moral worth he won the confidence, esteem and friendship of all his associates, we, who were intimately connected with him, socially and officially, desiring to bear testimony of our appreciation of him as a man and citizen and to give publicity to his noble character;
 Resolved, That in the death of the deceased State has lost a faithful public servant, his associates a true friend and wise counselor and the community a valued citizen.
 Resolved, That our heartfelt sympathy is extended to the grief-stricken son and relatives of the deceased in this sad bereavement.
 Resolved, That the death of our deceased brother be draped in mourning for the space of thirty days.
 Resolved, That we will attend the funeral in person, and invite the other departments in the state service to join with us in the solemn obsequies.
 That a committee of six of the employees of this office be appointed to accompany the remains to their final resting place at Martinsburg.
 Resolved, That a copy of these resolutions be sent to the son of the deceased and that a copy be furnished the Harrisburg city papers and the Huntingdon papers for publication.
 The remains were taken to the Martinsburg internment, and were consigned to their final resting place on Sunday forenoon. A number of the clerks attached to the Auditor General's office accompanied them to Martinsburg. At this place the cortege was joined by Col. John S. Miller and daughter, and John O. Murray, esq., and wife. The funeral is said to have been the largest ever seen in that place.

SHOCKING ACCIDENT.—An esteemed correspondent writes us from Robertsdale, this county, under date of Nov. 28th, as follows:
 A terrible accident occurred here yesterday to an old woman, Mrs. Braunsig. She had been drinking pretty freely, and is supposed to have spilled some of the liquor on the stove, when it took fire, burning her in a crisis. From the neck to the waist. Her clothes were entirely burned off her body, and all the skin fell off that was not burned off. She laughed and talked with the Doctor dressed the burns, and did not know until five hours after that she had been burned at all. She suffered severely for an hour after she became sober, when she died relieved her. She was eighty-five years of age, and it was the first time she had ever had a professional call from a physician. She was hearty, did all her own work, and might easily have lived to be a centenarian. It is bad enough to see whisky to men, but it is an outrage to see it to a woman of her kind and her advanced age. It was not only sold to her, but delivered at the house by the liquor dealer.
 REFLECT that in every cemetery of the silent tenants are the victims of neglected Coughs and colds; and if you are thus afflicted avoid their fate by resorting at once to *Walt's Honey of Horsebrand*, with its curative, agreeable, and certain means of cure. Sold by all Druggists. Pike's Toothache Relief cure in 1 minute. [Sec. 6-1m.]

HUNTINGDONISMS.—

This city has been taking the news for the last ten days, and the average citizen can hardly be up under the pressure.
 The Leister House and Miller's hotel are stowing away more corn than to the square inch, than any other public houses in town, the Middle "penitentiary" included.
 In the Houtz her-Shillingford case, still on trial, Speer for the plaintiffs and Blair for the defendant, are the leading legal champions of the day. The light weights stand from under.
 What this vineyard of science most wants at the present time, is a man who can win on game out of ten, in a contest with Rap Morin, the champion checker player of Oceola and Honduras. Offers by mail will receive prompt attention.
 Nightly "cack-walk" is the way they put it here, among night-giggers who frequent the latest novelty in the way of entertainments of color. For particulars, inquire at headquarters.
 This is emphatically a city of houses—a large brick, and then a wooden shanty, then a shanty adjoining another brick. Some of the log houses present the appearance of having been "changoed" with Revolutionary bullets.
 This town has a "pent up" genius whose inventive brain has brought forth a novel and ingenious application of the plaster mold or matrix, adapted to the art of photo electrolysis—an important factor in a useful art.

The street-fair at night supplies a missing link between the genus homo and the eccentric duplex mulus, and the agility of those Penn state boys in the practice of croaking each other's skulls, is a timorous headliner. This is the most agile tricks in the county of nut-kicking.—*Oceola Revue of last week.*
THE BOARD OF TRADE AND THE PENITENTIARY.—A meeting of the Board of Trade was held on Saturday evening last to devise ways and means to raise the amount of money necessary to purchase the site and to erect a penitentiary in this county. Mr. Lindsay, who is the Secretary of the Board, gives the following report of said meeting:
 Hon. Alex. Port, who had been present at the meeting of the Penitentiary Commission in the city of Pittsburgh, last Tuesday, reported that the commission had adopted a resolution locating the penitentiary at this place, and that they had decided to accept the second proposition made by the Board of Trade. This sum Mr. Port pledged himself to raise. He also read a letter from Capt. Hart, the Secretary of the Board of Trade, dated the 29th, in which he said Mr. Port, the Attorney, would be in Huntingdon on December 9th, and advised our people to go ahead with the project of the penitentiary.
 Remarks were made by Messrs. Blair, Brown, Henry, Fisher, and others, when on motion of Hon. H. G. Coe, a committee of five citizens be appointed to secure subscriptions throughout the county.
 The following gentlemen were appointed the committee to take subscriptions: H. G. Fisher, J. Hall Muser, A. Kennedy, H. C. Weaver, G. B. Orsley, J. R. Simpson, G. C. Steiner, J. C. Clarke, J. C. Brown, J. C. Brumbaugh, James Creek, A. G. Neff, Porter, W. J. W. Ward, Henderson; J. P. Weaver, H. W. R. Foster, David, Walker; John Ripley, O. J. Blair, and John R. Miller. Messrs. David Blair and John R. Miller were appointed to draw up the plan and prospectus.
 The gentlemen appointed to solicit subscriptions have been busy at work, and up to the time we close our files have raised about \$6,500. We think we are safe in saying that the whole amount will be raised, and that the penitentiary will be built at Huntingdon, notwithstanding the efforts made by some of our citizens to throw cold water on every measure looking to this desirable end.

TEACHERS' INSTITUTE.—Huntingdon County Teachers' Institute will hold its next annual session in the usual place, December 16th to 20th, 1878. We have not a full programme prepared yet, but we will present a list of topics and questions for teachers to think about and prepare to discuss:
 1. Course of study for ungraded country schools.
 2. Concert recitations.
 3. Object teaching.
 4. Should pupils be permitted to use the book on arithmetic?
 5. Would a teacher be justifiable in suspending from school a pupil who persists in the use of profane language?
 6. Uniformity of text books.
 7. Moral training in public schools.
 8. General Information.
 9. Should the study of civil government be taught in our public schools?
 10. What kind of an education is necessary to make good American citizens?
 11. What is the right of suffrage in a Republic be based upon intelligence?
 12. Importance of teachers reading educational literature.
 13. Should a student may money be properly expended in adorning the school room?
 14. What attention should teachers devote to forming an cultivating a catalogue of habits of cleanliness and neatness—tidiness?
 15. Public school examinations—merits.
 16. Public school exhibitions—merits.
 17. How can we get the best science lessons profitably imparted?
 18. Literary exercises for public schools—merits.
 19. Art of map drawing.
 20. It is necessary for a teacher to know more of a subject than is required to teach?
 Dr. E. Brooks of Millersville State Normal School has consented to be with us part of the time. Prof. D. M. Senses, late Principal of West Philadelphia Normal School, will be with us part of the week. Miss L. E. Partridge of West Philadelphia Normal School, will be with us part of the week. The evening lecture course, will appear next week.
 W. R. BAKER, County Supt.

CURE FOR HOAG DISEASE.—In view of the fact that a fatal disease has broken out among the hogs in several parts of the State, we give place to the following remedy, as we find it in the Altoona Tribune, of a recent date.
 The writer is Mr. S. L. Shaw, general agent of the Burlington and Missouri River Railroad, who is extensively engaged in raising hogs in the west. The letter is dated at our town and says:
 I have stated that so far as my experience and observation in hog raising goes not one in ten of the hogs that die of "hog cholera" ever had such a disease. It is simply a species of cholera which is caused by cold or chills, and gradually extends to the lungs and often terminates in a kind of diarrhoea. If one of your physicians will open the throat of a diseased hog I am satisfied he will find this to be the case. If the farmer will mix up the following dose and feed it to hogs, scattered over a course of three or four days, he will cure nine out of ten if taken in time.—One-third spirit of turpentine; one-third turpentine; one-third turpentine; one-third turpentine. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed. I feed well hogs the same, and also coppers water in moderate quantities. If you will add to this a little turpentine, and you will have a hog that is worth anything. If you have a hog that is sick with this disease, and you have a good chance to get a hog, I will give you a dose of bone-set in feed.
