A CRACKSMAN CRACKED-HE AT TEMPTS TO BLOW OPEN FISHER & SONS' SAFE-IS FOILED, SHOT AND EVENTUALLY CAPTURED. About half-pist one o'clock on Monday morning, the Wilson brothers, who reside at the south-west corner of Seventh and Penn streets were awakened by a heavy explosion, which at first, they thought was occasioned by the report of a railroad alarm cap, but hearing n trains passing they concluded to investigate, and for this purpose A. P. Wilson went to his chamber window and peered out, and on account of the bright moonlight he could distinguish day: The following extract is taken from the objects at considerable distance. He gave the alarm and he and Mr. Fisher at once opened fire upon the fleeing fugitive. Mr. Fisher fired four or five shots, and was under the impression that the tourth one had done execution, which subsefell in the water twice, and with difficulty clambered up the steep embankment leading to the railroad. When in the water the bur glar fired three shots at his pursuers, and two more when on the railroad. They now turn ed their attention to the interior of the office, where they found everything in confusion, the desks and drawers ransacked, the floor strewn with papers, and almost every pane of glass in the windows shattered. An entrance was gained by cutting a panel out of the rear door, and when once inside the burglar unlocked the door and prepared the way for hasty exit in case he was disturbed in his operations. His efforts to open the safe were fruitless, only the outer door being damaged, which, for about two feet from the bottom, was sprung open not more than an inch and a half or two inches. To enable him to introduce the pow der the burglar removed a large brass plate off the door and put the powder in the screw holes, which, we suppose, he ignited by means of fuse and repaired to the mill, acros the road where he was seen by Mr. Wilson, to await

> Mr. Philip Schneider, who resides one mile and a half east of this place, came to town about 9 o'clock, and hearing of the robbery, said that a man had called at his bouse that morning and asked the privilege of warming himself and drying his clothing which he said had got wet while he was standing near a water-tank, the fireman throwing the hose down in such a way as to drench bim to the skin. After warming himself, by invitation of Mr. Schneider he sat down to the breakfast table, but after eating a bite or two remarked that he felt sick and was unable to eat more. He again took his seat at the stove, and taking a roll of money from his pocket proceeded to dry it by the fire. This news being communicated to Mr. Fisher, he, in com pany with the Wilson brothers and Will. Smith drove rapidly to Mr. Schneider's, but upon their arrival there learned that their man had departed. They drove on down the road, a half mile distant, to Ardenheim, where they learned that a man answering the description of the one that had been at Schneider's, had bearded the Johnstown express. Telegrams were sent along the line to have the man arrested. The man left the train at Lewistown, and repaired to a physician's office where be had a ball extracted from bis left breast. The constable at Lewistown, when he received Mr. Fisher's dispatch, went to the Coleman House and arrested the man, where he had gone to bed. He was brought to this place the same evening and lodged in jail.

Upon his person was found about \$105.00, a pair of the latest improved Smith & Weston revolvers, and the articles taken from the office of Fisher & Sons. We visited the prisoner in his cell, on Wednesday morning, and instead of finding a rough-looking, hardened man, we found a beardless, handsome, tender-hearted youth of only about nineteen years of age, whose pleasant countenance cannot fail to create a favorable impression. He talked freely of his

trouble, and his version is about as follows : He said that he made his living by selling cheap jewelry; that while in Harrisburg he was accosted by a man who suggested to him that they go to Huntingdon and "crack" a building which he described as standing away from other buildings and being surrounded by water; that he accepted the proposition, and in company with his partner, arrived in this gained an entrance as described in another outside while his partner operated in the building; soon after the explosion he heard footsteps approaching and remarked to his partner that they were discovered; that he attempted to make his escape to the railroad by crossing the race, and that while doing so he was shot in the left shoulder, the ball entering behind and passing through to the front, from which position he had it extracted pursuers he entered a stable-which, judging from his description, must have been either that of Mr. Bryan's or Mr. S. T. Brown'swhere he crept under the hay and lay for some time, suffering intensely from cold and pain from his wound; when he left the stable he got upon the main street and followed it to the lower end of town where he struck the railroad and brought up at a farm house, While passing down street, in the grey of the morning, he said he was fearful the rattling of his frozen clothing would awaken the people. The law plainly requires, according to one of our exchanges which has given the subject considerable investigation, the auditors of the several boroughs and township to publish a statement of their accounts respectively at the close of each fiscal year, which previous to 1876 was in June. We so stated in previous years, but there were persons, and lawyers too, who had not given the subject a minute's attention, who argued that the law did not require any publication other than a written statement posted up in the borough or township. A case was tried in Northumberland county, involving a neglect of auditors to publish in the papers, and after a thorough examination the court decided against the auditors and fined them \$20 each. In Alleghenv county a like case was tried and with a like result. It was all along clear to us that publication in the papers was necessary. The reason why people thought a publication by written or printed statement put up in the borough or township was a sufficient compli

ance with the law was because the act of 1874 so stated, but the proviso to the act savs as follows: Nothing in this act shall be construed to interfere with the present law, which requires annual statements of the receipts and expenditures of the borough councils, road commissioners supervisors, overseers of the poor and school directors to be advertised in the weekly

FIRST. The auditors are required in each

borough and township to settle the accounts thereof, and to publish the same not only in newspapers, but also by written or printed statements put up in the most public places in the boroughs and townships, as soon after the close of the fiscal year, which is on the first Monday in April, as possible. SECOND. If the borough or township is in debt, it must be included in the statement, together with the valuation of property, etc., used for splints, strains, lameness in the limbs or shoulders, weakness across the kid embraced in the written or printed statement

> It is necessary that the auditors of the espective boroughs and townships should go to work at once and settle the accounts as they are in duty bound to do, and have them published as the law directs. When the borough or township has no indebtedness neglect to publish incurs a fine of \$20; but if the borough or township is in debt the neglect incurs a fine of one thousand dollars.
