WILD RICE.-The question of sowing wild rice in the rivers and ponds of this State has attracted a good deal of attention among sportsmen and fishermen, the former hoping that it would increase the number of wild fowl known to feed on it in the northern rivers and lakes, and the latter that it would afford some protection to our game fish. From funds contributed by different parties we have ordered a bushel from Wisconsin, with a view of testing it on mud banks and eddies and at the same time made some inquiries as to the mode of sowing it. The directions given us are to soak it until it will sink, which will any other grain. The water must cover it the year round from two inches to four or five feet, and once started, the sowing will come to an end. It comes up thickly with a strong in fact exterminates all other vegetation-and viewed in this light will be an excellent thing to destroy the malarial grass which annually takes possession of our river. Alfred T. Story contributes a paper home of Washington's ancestors, full of imexcellent illustrations, a picture of the ancestral mansion of the Washingtons in Northants.

"A Few Sea-Birds,"by H. W. Elliott, is Same timelast year ... exceedingly interesting, and beautifully illustrated.

Especially timely and important is Mrs. Lamb's comprehensive and entertaining account of the origin, development, and present situation of the United States Coast Survey. With numerous happily selected illustrations, it explains the methods of work pursued by this department, and gives sketches of the four superintendents, with their portraits, and much amusing anecdote.

George E. Waring contributes the first of his series of papers on the Austrian Tyrolfull of interesting sketches of the reople and the country, and magnificently illustrated. Charles Barnard, in a short illustrated paper, shows the superiority of the American over the English locomotive as a competitor in the markets of the world. E. M. Bacon contributes an interesting

There are other papers of timely interest: 'The English in India." by Thomas Knox: "Climate for Invalids" (containing facts of greatest importance), by Dr. T. M. Coan: 'Aighanistan," by Z. B. Gustafson; and "The Tom' Side of Macaulay," by D. D. Lloyd. Abbey contributes a page illustration of

contributed by Miss Thackeray, Constance F: Woolson, and Alice Perry. Besides this bewildering variety of interest g articles and examisi the always well-conducted editorial depart ments, including the timely and graceful gossip of the Easy Chair, a comprchensive critical record of recent books, a summary of scientific progress, a resume of current historical events, and an amusing "Drawer."

Scribner for March contains the first of the illustrated papers on the Drama which were lately announced by the publishers, and it is early numbers. This month the subject is Modieska incidents of whose life and career on the stage are related in a biographicalwhich the actress and her husband led for a time on a rancheria in Southern California; but which she relinquished with little regret to play in San Francisco for the first time in Eaglish. The text is written by Charles de Kay, and is accompanied by three portraits of Modjeska, two being in character, one as Juliet and the other as Cleopatra, the latter House, New York City.
