This is due, in part, to the close sympathy which exists between the stomach and the brain, and in part also to the fact that any disturbance of the digestive function necessarily disorders the liver, the bowels and the nervous system, and affects, to some extent, the quality of the blood.

THE Oliver-Cameron breach of promise case is still on trial in Washington, and it looks as if it was a "set-up" job to ex tort money from Gen. Cameron. The defendant will prove by a score of witnesses, that the letters presented in evidence by this wily woman, showing promises of marriage, etc., are all forgeries. From present indications we will be very much mistaken if Mrs. Oliver, and those who have been aiding and abetting her in this damnable scheme of blackmailing, do not find themselves in the penitentiary, where they should be.
