FACTS FOR THE PUBLIC.

1-We have the largest establishment for the manufacture and sale of Clothing in Philadelphia, extending through from 518 and 520 Market street to 511 and 513 Minor street, and occupied.

- Our buildings having been constructed and arranged for the business to which they are entirely devoted, unites all the conveniences and appliances which have been found necessary or desirable 3—We have an ample cash capital, enabling us to make all purchases for cash, and giving us a selection, at the most favorable prices, from the markets of the entire world. In this particular we have advantages shared by but pew other houses in the trade. This fact is well

known to the public.

4—We sell goods for each only, which, though it restricts our business to those prepared to purchase in that way, enables us to give them advantages such as no house doing a different business can.

5—A business experience of over a quarter of a century has informed us fully of the wants of the public, and of the best way to meet them. We have introduced such improvements as have from time to time been found necessary, nearly all of which were originated by our predecessors in business (Messrs. Bennett & Co.) and many of them adopted by other houses in our business, so that long published accounts of "Systems of Doing Business" need not convey to the public an idea of anything new or peculiar, as the whole of such accounts are an almost verbatim description of methods which were mostly originated in this establishment, and have been in use in it for years.

6—We employ the best and most experienced cutters and workmen in making up our goods—the style, fit, and make of which are unsurpassed.
