Republicans, the only candidates to be nominated being a Director of the Poor and a Jury Commissioner, it is feared the people will take but little interest in the convention. This should not be so. The two offices are important ones in themselves, and then the election of our ticket this Fall, will be an advance of our picket line for the great political battle to be fought in November 1880. Let every Republican in the county buckle on his armor and move to the front and do whatever he can to secure victory for our State and county ticket.

The present is a good time to discuss the Jewish question, because public attention is turned so strongly upon the Jewish people. Two years ago Jews were forbidden entrance at one of the most prominent hotels at Saratoga. A week ortwo ago the same thing was repeated by Mr. Corbin at Manhattan Beach. While general interest is thus directed toward the Jewish race, it will be well for us to consider briefly the fact of their continued existence as a people, and especially for the Mother country, is indeed a dark one, and the future prospect is anything but encouraging on the other side of the "big waters."

The truth is that the Jews deserve consideration at our hands. The world owes much to this race. Christianity is indebted to the Jews for its richest trensure. The Jews gave us the Bible. Our Lerd Himself was a Jew, as were all of His carly disciples. We do not begin to appreciate the debt we owe to Jewish scholarship in the early Christian centuries. Our best church history was written by Neander, a converted Jew. After mentioning other eminent Jews, the speaker continued: "The Jewish part of our population is one to be respected. The majority are estimable citizens. Seldom is a Jew found in an almshouse or a jail. They may be fond of money, but I have known instances among them of the noblest generosity.

A Source of Much Bodily Evil.

If the habit of body becomes irregular, much evil is inflicted on the system. The stomach becomes dyspeptic, bilious symptoms develop themselves, the circulation is contaminated, and the nerves share in the general disorder. It is of the utmost importance that the howels should be thoroughly and speedily regulated when they grow derelict. The corrective agent best adapted to this purpose is Hostetter's Stomach Bitters, a wholesome non-griping vegetable lexative, worth all the rasping cathartics invented since the time of Paracelsus. People who have been in the habit of using blue pill, calomel, and other drugs and cheap nostrums for constipation, should abandon such hurtful and useless should abandon such nurriur and useress medicines, and substitute for them this pleas-ant and gentle aperient, which now only pro-duces the purgative effect naturally, but also strengthens while it regulates the bowels, stomach and liver. It moreover cures and gout, rheumatism, debility and urinary trourevents intermittent and remittent fevers
