

FOR STATE TREASURER: Hon. SAMUEL BUTLER, OF CHESTER.

Republican County Ticket.

DIRECTOR OF THE POOR: JACOB HAFLEY, of Penn township. JURY COMMISSIONER: RICHARD WILLS, of Warriorsmark.

The California "boom" is pleasant music to the Republican ear.

ZACK CHANDLER calls the Greenbackers "cross-eyed Democrats."

DeYoun's pistol made Kalkoff mayor of San Francisco, and that alone did it.

The Mississippi plan: If any man attempts to hold the Democratic ticket shoot him in the back.

Now that the Greenback party is defunct, it will be proper to appoint a day for memorial service over its corpse.

Down in Lehigh Valley over fifty farms were started during the month of August. Another black eye for Greenbackism, Communism, and every kind of ism.

C. F. STEARNS, a son of Prof. Stearns of Harvard University, committed suicide on Sunday night, at the Arch Street House, Philadelphia by taking poison.—He left a note giving his name, but assigned no reason for committing self murder.

The Clearfield statesman was down at Washington, a few days ago, and while there a newspaper reporter attempted to interview him, but he wouldn't be interviewed, further than to say that he "had no doubt the Democratic candidate for Treasurer would be elected"—in a horn.

The Okolona (Miss.) Southern States says, exultingly: "The Southern Democracy don't want and won't have a Sherman at the head of the United States Army, after Thurman walks up the White House steps. The General in Chief must be a grand old Confederate!" Boys, do you hear that?

THE STATE FAIR.—The Annual Fair of the State Agricultural Society opened on Monday in the Main Centennial Building, Philadelphia. The attendance and display are both unusually large, the building being taxed to its utmost capacity. The attendance on one day alone footed up \$90,000 persons. The premium fund amounts to \$20,000.

SOME enterprising English inventor has perfected an armor-plate which is said to be impenetrable to the heaviest and hardest projectile of modern warfare. If this article does all that its inventor claims for it he has a fortune in store for himself and family should he come to this country and sell the armor to Independent Democrats in Mississippi. There's millions in it.

How business is reviving at great manufacturing centres is shown in a statement made by the Pittsburgh Commercial Gazette, that the receipts of bar iron in that city during August aggregated the enormous total of \$2,300,000, the largest receipts on record in the history of that city. The revival, when exhibited in such facts, establishes a basis for trade which can venture in any direction, so far as investment is considered, because when the iron business prospers it is an indication of substance in all the other industries.

The Monitor last week published a paragraph from the Pittsburgh Post, which asserted that both DeYounge and Kalkoff were "excellent Republicans." Such is not the truth, and Mr. Barr's Post knew it was asserting an untruth when it so charged. DeYounge was never anything else than a Democrat, and his paper is one of the most rampant Democratic sheets in the Golden State. We do not know what Kalkoff's political antecedents were, but we do know that his supporters in California are from the ranks of the Democracy and the hoodlums of the sand lot.

Mrs. H. M. DIXON, the wife of the man who was brutally murdered in Yazoo, Miss., because he persisted in being an independent candidate for sheriff, has published an open letter. She tells the story of her husband's assassination with a directness so plain and simple that the reader is convinced of its truth, while he is shocked at the brutal instincts and actions of the assassin and his accomplices. The anti-mortem statement Dixon made on his death bed under oath, contradicts the story set afloat previous to the murder that he had threatened the life of the murderer, and set up a defense for the murderer after the deed was committed.

THE New York Tribune of a recent date has an article headed the "Pennysylvania Contest," with the following very truthful paragraph: "The present State Treasurer is a Democrat, who was elected two years ago, when the Republicans lost the State on the whole ticket by an adverse majority of 9,901. This year the Republican party is in the best possible condition for success. The few factions which practically disappeared. The party was never more thoroughly united, and has rarely been more confident. It has been a long time, too, since the general situation was more favorable to the Republicans. Resumption has struck the Greenback party like a sledge hammer. The reviving business which followed it convinced everybody that the Republicans were right all along in their financial theories. Nearly all the iron mills are once more in operation throughout the State; the coal industry is reviving; the railroads are more prosperous; the farmers have reason to expect better prices for their crops, and everywhere the beginnings of a new and general prosperity are to be seen. Last year the Republicans carried the State by 22,353; this year, with the improved conditions, and with their Democratic and Greenback opponents very much split up, they ought to do far better. The Keystone State will give a good account of itself this fall."

THUNDER ALL AROUND!

The East Answers to the West

Maine Responds to California!

The Ground Retaken by the Republicans in both States!

Following close on the late election news from California which brought the cheering news that the Republicans had elected their Governor and four Members of Congress, with other State officers and with unprecedented and unlooked for gains everywhere, comes the ringing intelligence from the pine woods of Maine that this gallant Republican State has wheeled into line, by electing, on Monday last, after one of the most hotly contested political campaigns on record, a Republican Governor, and secured a Republican majority in the Legislature on joint ballot.

The news from these States sends a thrill of triumph throughout the Union, and is significant of the feeling of the people everywhere. The great East has answered to the great West in a shout for Freedom and Humanity and against repudiation, oppression and wrong. Maine will again head the column of solid Republican States, California is secured for the next presidential contest, and now for Ohio, as a central station on the great highway of triumph which awaits us in 1880.

We neglected to state that our friend, Dr. McCarthy, had purchased the type and fixtures of the defunct Mr. Union Times for the sum of \$76.00.

Fryinger's new paper has reached us, but as that gentleman arrived at his new home on the morning of publication day, he had no hand in the "get up" of this number. Hereafter the paper has been published on the "patent outside" plan, but the new proprietor promises to publish a home paper just as soon as he can do so.

The Conference News, published at Harrisburg, under the auspices of the Methodist Book Room, and ably edited by Rev. W. Massin Fryinger, will enter upon its fifth volume with the next issue. This paper is the organ of the Central Pennsylvania Conference, and contains much of interest to the members and friends of that denomination, and should be liberally patronized.

The Weekly Capital is the name of a small paper lately started at Topeka, Kansas, by Hudson & Ewing, two gentlemen who display a greater amount of "cheek" than we have seen for a month of Sundays. They offer to send us their paper for one year if we will insert a two-inch advertisement, laudatory of their publication, for the same period. When we feel like giving them ten dollars' worth of advertising for nothing we will send them word.

Another new candidate for public favor has just been issued in Philadelphia, by D. W. P. Murphy, who has figured as editor of several papers in the Juniata Valley within the past four or five years.—The new venture is called the "Philadelphia Literary Companion," and will be devoted exclusively to literature, poetry, romance, amusement and instruction." It is a twelve page sheet and will be issued at \$2.25 per copy. We hope that Mr. Murphy's latest venture may prove a rich bonanza.

We are in receipt of "Slayton's Lyceum Bureau," a ninety two page pamphlet, published at Chicago, Ill., containing a list of the most prominent Lecturers, Musicians, Actors and Actresses in the United States and Europe, whose services can be secured for entertainments during the lecture season about to open. The book is issued by Henry L. Slayton, and is really very interesting and entertaining, containing as it does many fine portraits of the persons open for engagements, together with brief biographical sketches of the most prominent of them. If any of our readers have any idea of getting up a course of lectures or other entertainments during the coming winter, they can call at the JOURNAL Store and examine this work, which will give them such information as is necessary.

THE NORTH EAST PASSAGE.—Professor Nordenskiöld, what a name! a Swedish navigator, has just completed a successful voyage in search of a Northeast passage from the Atlantic to the Pacific Ocean by way of Nova Zembla and the Northern Ocean. It is considerably more than three hundred years since this feat was first attempted by Sir Hugh Willoughby, who, with his ship's company, were frozen to death in the attempt, a fate which has overtaken many of his successors. Beyond the establishment of important scientific facts, however, the discovery is barren of any very important results, the route not being practicable for commercial purposes, on account of the rigidity of the climate, its track being ice-bound a good part of the year, and the need for a Northeast or Northwest passage being entirely supplanted by the Suez Canal which furnishes a highway to the Indies by a shorter route than any that has or perhaps ever will be discovered by modern navigation.

HARRISBURG Telegraph: The Republican State Committee has established its headquarters at the Continental Hotel in Philadelphia. Presumably the Committee is now ready for work, and we hope it will be carried on actively and effectively. The Democratic Committee's emissaries are hard at work in every county of the State soliciting individual voters to support Daniel O. Barr. The Republican interest in the present State Treasurer is falling by a majority that will thunder-blast the Democracy, and that majority should not be decreased one vote by inaction. We only need active work on the part of the State and County Committees to insure a rousing majority.

REFORM.—The Congressional Committee on the cause of the business depression, with Hon. Hendrick B. Wright as chairman, after completing a pleasure tour over the continent, has returned without finding the object of its search. Of course no man ever expected that it would amount to anything, and now, unlike the mountain in labor, it has failed to bring forth even a mouse. But then the members of the committee have had a good time at the public expense; thousands of dollars of the people's money have thus been squandered, and this is what is called Democratic retrenchment.

RETURNING PROSPERITY.—The evidence of returning prosperity are no where more clearly seen than in the present healthy and prosperous condition of the iron manufacturing industry in this country.

The iron manufacturing industry in this country. The forces, furnaces and rolling mills, though, in many instances, run on double time, are unable to meet the demand of the country. Government orders from Washington have recently been declined by a number of manufacturing firms because of having too many private orders ahead to undertake to complete the work in the time required.

EIGHT months have passed away since the government resumed specie payments, and all but demagogues have great reason to rejoice. More gold is in the treasury than before the first day of resumption.—The public credit is a matter of national pride. Private credit is consequently strengthened, and confidence has brought a vast capital, till now locked up, into the channels of trade. To crown all, a splendid harvest will relieve the farmers, who stand as the fountain heads of a Nation's wealth.

The Chisholm Trial.

THE WIDOW OF THE WITNESS—MRS. CHISHOLM TELLING HOW HER HUSBAND, HER SON AND HER DAUGHTER WERE MURDERED BY THE KEMPER COUNTY MOB—ONE OF THE SADDEST STORIES EVER TOLD IN COURT.

Dr. KALB, Miss., September 8. The taking of evidence in the trial of Henry J. Gully for the murder of Corneilia Chisholm on April 22, 1877, began at 9 o'clock this morning. Seventy witnesses, thirty-two for the State and thirty-eight for the defense, were sworn and put under the rule and excluded from the courtroom until 12 o'clock. It was largely increased on the following morning. Sinclair, then Sheriff, arrested her husband on the morning of April 22, 1877. He asked to be admitted to her own house and sought an instant investigation of the charges against him. Armed men went to the house of the widow and Mr. Sinclair, conversed with them and then talked with Chisholm. Chisholm told one crowd: "You know I would not do you wrong, but before evening, but before you do it I will make some of you bite the dust." Sinclair came to my husband at the door. He asked to be admitted to my house and sought an instant investigation of the charges against him. Armed men went to the house of the widow and Mr. Sinclair, conversed with them and then talked with Chisholm. Chisholm told one crowd: "You know I would not do you wrong, but before evening, but before you do it I will make some of you bite the dust." Sinclair came to my husband at the door. He asked to be admitted to my house and sought an instant investigation of the charges against him. Armed men went to the house of the widow and Mr. Sinclair, conversed with them and then talked with Chisholm. Chisholm told one crowd: "You know I would not do you wrong, but before evening, but before you do it I will make some of you bite the dust." Sinclair came to my husband at the door. He asked to be admitted to my house and sought an instant investigation of the charges against him. Armed men went to the house of the widow and Mr. Sinclair, conversed with them and then talked with Chisholm. Chisholm told one crowd: "You know I would not do you wrong, but before evening, but before you do it I will make some of you bite the dust." Sinclair came to my husband at the door. He asked to be admitted to my house and sought an instant investigation of the charges against him. Armed men went to the house of the widow and Mr. Sinclair, conversed with them and then talked with Chisholm. Chisholm told one crowd: "You know I would not do you wrong, but before evening, but before you do it I will make some of you bite the dust." Sinclair came to my husband at the door. He asked to be admitted to my house and sought an instant investigation of the charges against him. Armed men went to the house of the widow and Mr. Sinclair, conversed with them and then talked with Chisholm. Chisholm told one crowd: "You know I would not do you wrong, but before evening, but before you do it I will make some of you bite the dust." Sinclair came to my husband at the door. Chisholm told one crowd: "You know I would not do you wrong, but before evening, but before you do it I will make some of you bite the dust." Sinclair came to my husband at the door. He asked to be admitted to my house and sought an instant investigation of the charges against him. Armed men went to the house of the widow and Mr. Sinclair, conversed with them and then talked with Chisholm. Chisholm told one crowd: "You know I would not do you wrong, but before evening, but before you do it I will make some of you bite the dust." Sinclair came to my husband at the door.
