

Farm and Household.

The happiest men who live by toil are those who cultivate the soil.

Horse Shoeing.

The first time a horse is shod the shoes should be very light, and of equal weight, behind and forward. This is a self-evident truth.

Lime and Crops.

The bulk of all fertile soils consists of three earths, viz: silica, alumina, and lime. Unmixed with clay, sand or other organic and inorganic substances, lime consists of the oxide of the metallic element calcium.

Cracked Heels.

Exposure to wet and mud, and severely avoidable in autumn, will certainly produce cracked heels in horses, unless precaution is used.

Bedding for Stock.

Farmers as a rule are not sufficiently thoughtful in the matter of securing and providing an abundance of bedding for neat stock in the winter.

Popular Cures for Warts.

One mode of charming them away is to take an elder shoot and rub it on the part, then cut a small notch on the twig as you have warts, bury it in a place where it will decay, and as it rots away the warts will disappear.

Bible Men.

An honored name in our own country is mentioned as having had a singular honor in connection with the Bible. It is that of the well known John Jay, whose family, we believe, was of the Huguenot company of emigrants who early settled in this country.

Sabbath Rest.

It is a well established fact that more real work is performed by those who labor only for six days than those who devote all the seven to unremitting toil.

Virtue and Vice in Contrast.

Vice is most revolting when seen in contrast with virtue. A profane man belching forth oaths among those who never swear; an abject pouring forth blasphemies in the presence of reverent and holy men; an inebriate filthy and coarse, mingling with persons who never touch the debasing draught; the vulgar libertine corrupting the air with unwholesome speech, to the disgust of those whose minds are pure; in every such instance vice is not alone a sin, but as a horrid deformity.

THAT ACTS AT THE SAME TIME ON THE LIVER, THE BOWELS, AND THE KIDNEYS.

This combined action gives it wonderful power to cure all diseases.

Why Are We Sick?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.
