does all, and more, than Mr. Gary claimed for

that city on Wednesday of last week:

"Mr. Gary, will you explain to the Herald what you are doing at the present time, and how you

railway signal is progressing?"
"Willingly, for I feel that I am now in a posi-tion to speak with some degree of confidence on the magnetic railway signal—not that I have any

THE FITCHBURG RAILROAD,

EQUIP BIS ENTIRE ROAD WITH MY SIGNALS,

EQUIP HIS EXTHE ROAD WITH MY SIGNALS, and I am about to enlarge my facilities of manufacture to fill the order. It has proved a wonderful success, and has even exceeded my expectations. I will tell you about it. The box which contains the magnets, lever and armature, which are connected with the tapet at the side of the rail, is over ground beside the track. I had it placed there in that manner, as its use there would be only temporary in that marginary place and also

there in that manner, as its use there would be only temporary in that particular place, and also because I could readily show the doubting Thomases that I had no battery concealed under or over it. In the late snowstorm the snow was piled up on the box, and I had it tamped in ander the lever or tapet, so as to test its working powers in case of ice pressure or accumulation around it. It worked, however, as well as if it were entirely free of snow or ice; but the most curious thing was that, when the thaw took place and the box became filled with water, the machine worked on as if nothing happened, sending its induced cur-

as if nothing happened, sending its induced cur-rents along the wires and operating the gong in the signal house, as if the box were only filed with air. This has opened a new field of useful ness, which I shall take advantage of in operating

SOME CLOCKWORK MACHINERY.

scored him between 35 and 40 miles.

and hence, instead of losing power. I can gain it as I go along, if need be. It is only a question of in the weather boarding about eighteen inches long. The concussion and the falling plaster-ing awoke a daughter of Mrs. Decker who was "Do you mean to say that a very small magnet asleep in the room at the time, and had the pipe struck the building endways, it is more by such manipulation, could be made to produce a greatly multiplied power from half a dozen or ore strong magnets?"
"That's just what can be done."
"Then your motor can be made a practical

near about seventy-five feet. This is a warning to boys not to play with fire arms of any kind, whether they be gas pipes, cannons, old army muskets, or worn out pistols, for it is not known when they will shoot the wrong way, and it is to be wondered at that some one of the party concerned in this New Year's racket, was not killed outright.

A reader of the Journal informs us that our esteemed friend, Dr. J. Aubrey Crewitt, formerly of this town, but now of Robertsdale, this county, came near his death on Friday afternoon last, by taking an overdose of hydrate of chloral. His information is to the effect that the Doctor had been suffering intense pain with neuralgia in his teeth, and from weakness, had been confined to his bed for several days. On Friday, the nerve of one tooth was extracted by Dr. Rhodes, of Saxton, who cauterized the socket. The pain then bear at the stake had a suffered to start a thing that would most readily bring me an income, I switched off on to the man income, I switched off on to the mine me income, I switched off on to the man income, I switched off on the to sailly bring me an income, I switched off on to the man income, I switched off on the toaling me an income, I switched off on the them of movement which you shall see in operation in good time. The principle is the same as that with which you are already familiar, but it is carried out in a way, and will work."

"I see that Prof. Morton of the Steven's Institute of New York classes you with Keely, and affects to look upon ou as a humburg."

"I have seen his letter on the Edison light, in which my name occurs. I have no reply to make to it, or to the effusions of those scientific men way, having their science ready made for them, swear by it as a gospel that is infallible and can't be improved upon. I shall show by my affine the profession, and will not the motor. I have not have the same as that with which you are already familiar, but it is carried out in a way, and will work."

> NAIL CUTTING IN EARLY DAYS -The irst cut nails made in the central part of cennsylvania were made in the town of

SCARLET FEVER -A Warning to Parents and Teachers .- In several sections of the State scarlet fever has been raging among children with great fatality. Within a short Fitchburg and Grand Junction roads, in Somery weather should continue much line of ferry boats at some of the street crossing for the use of pedestrians whose business compels them to cross over the seas of mud.

The committee appointed by the Board of Directors of the Juniata Valley Campmeeting of the street are places that only need the Directors of the Juniata Valley Campmeeting late of the street roads.

Fitchburg and Grand Junction roads, in Somery tille, and the instrument to operate it beside the street is too late. We know of the streets at night at will, should look after their haunts ere it is too late. We know of the conduct of some boys that is calculated to bring much sorrow to mothers if a halt is not soon called. Remember that in a town of this size there are places that only need the Directors of the Juniata Valley Campmeeting late of publicity to make them a stench in part of the instrument to operate it beside the track some three late it besides the instrument to operate it besides the station; and since it has been there I will venture to say that the instrument to operate it besides the instrument to operate it besides the station; and since it has been there I will venture to say that the tapet or lever-arm, which is placed to say that the tapet or lever-arm, which is placed to say that the tapet or lever-arm, which is placed to say that the part fatality. Within a short time a number of cases has been reported and track some three lumited feet east of the signed in this city. This warning should not be overlooked by teach their haunts ere it is too late. We know of the streets at night at will, should look after their haunts ere would not be afraid to risk his life on it. When I first brought it to the attention of Mr. Adams, the superintendent of the Fitchburg Railroad, he said if I could do what I claimed, I had just the thing that all the railways needed. But he said that, in any event, he would require a six months' trial before deciding to adopt it. That was natural enough, Mr. Adams based his estimate of my machine partly on the performance of the electric machines that have been in use on railways for some years. He calculated that, while it might work well under favorable conditions, there might

some years. He calculated that, while it might work well under favorable conditions, there might be cases where it would fail. You see that I had the impressions created by failures in the working of the electric signals to encounter. But I knew that what I had would work its way on its own intrinsic merits. Well, I may tell you the result in a few words. The machine has been working but two weeks, and has given such unqualified satisfaction that Mr. Adams has given me the order to A CARD. I wish to say to the people of Huntingdon that the person who recently visited them, and solicited a donation in my behalf, was an imsolicited a donation in my benait, was an imposter, and swindled those whose contributions she received. The plea used to prove successful, except that I have been confined to the house for several weeks, was entirely a misrepresentation of matters, and certainly an insult to all concerned, especially to the Mill Creek church, who financially more than meet their obligations to us, and whose tokens of respect are so numerous. We can but pity and pray for the one upon whose character rests the above stigma, and hope the future will find her facing the ills of life a true Christian with self-respect. R. C. BLACK. MILL CREEK, Jan. 7th, 1880.

HOW THE "TRAMP ACT" WORKS IN CUMBERLAND COUNTY .- The report of Hon. Diller Luther concerning the effect of the "Tramp Act" in Cumberland county, brings to light some remarkable facts.— For the months of September, October, No vember and December, 1879, the amount paid the Sheriff of the county for the keeping and maintenance of tramps was \$449 as against \$5,162.31 for the same months the previous year. The law was enacted last winter through the ability and energy of A. M. Rhodes, one of Cumberland county's representatives. A strict enforcement of the law in every county in the State would soon rid the Carrent whenever you are constinated or hitter.

ness, which I shall take advantage of in operating submerged wires in my telegraphic system."
"Your signal, then, as I underssand it, is only to ring a bell ahead at a crossing to warn of the approach of a train?"
"That is what the signal I have had reference to does. But I told Mr. Adams I could 60 everything that was now done by the electric signal systems without the aid of a battery, and I am going to do it. Here are the parts of a machine which I am about completing, and will soon attach to the Fitchburg road, which will not only ring a bell ahead, but show a danger signal either. wealth of the "tramp nuisance." TEACHERS' INSTITUTE .- The County Teachers' Institute held last week was the largest ever assembled here, some two hunred teachers being in attendance. The exercises consisted of discussions, lectures, class brills, music, &c., and were of a lively and proceedings is shortly to appear in pamphlet form, so that all who wish can obtain them at

ATTENTION, DAIRYMEN. - Those dairynen who have the reputation of always making gilt-eged butter, get their high prices by ng Perfected Butter Color, made Richardson & Co., Burlington, Vt., by which they maintain the same fine, bright color the whole year. The New England Farmer says: "It should entirely supercede the use of car-rots, and all preparations of annatto." It is graph machine?"
"I have it now in such a form that once I can

The Philadelphia Press of December 13th had this strange paragraph : "Ought Christmas and Easter be recognized by Baptists? will be the subject of discussion by the Philadelphia Conference of Baptists on Monday

morning next."

bristian's! Christmas and Easter, around which centre, and from which all the Chris-tians hope is derived. O! what a question for Christian men to discuss now, near the close f the nineteenth century. "Ought we to cognize" the birth of Him who eighteen undred years ago descended from the hights druggists. of His glory and took upon Him our poor hu-manity, suffered all the trials and afflictions man is heir to, (sin only excepted,) trod this weary world, with not where to lay His head, was persecuted, condemned and crucified, and after three days in "the place of departed spirits," arose from the dead, to confirm and make forever sure the work He had begun for us, that we might have a sure hope of that inheritance which He purchased for us with His precious blood. "Ought" we to keep the birthday of a man like that? O! Christians, ne and all, who are dependent on His mercy. celebrate the event of His birth before it is oo late for the privilege of doing Him such lonor. Remember His word declares "They honor. Remember His word declares "They who honor me, I will honor." All who profess His name, have no objection to accept the gifts that circle around the anniversary and have their origin from the glorious "day spring from on high who visited us and gave gifts unto men," and what are all the perishable gifts we receive, one from another (which all York City.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipe that will cure you, FREE OF CHARGE.

This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City. gifts we receive, one from another (which all pring from Him) compared with the gift of limself? O! that all Christians might at entively "read, work, learn and inwardly di-est" the first chapter of St. Luke. It would ve them an idea of whether they "ought to then an idea of whether they "ought to be ecognize" that Saviour whose coming was eralded for ages prior to the event "by the nouth of all His holy prophets." Shall the irithday of an earthly potentate be kept, and but of the Wingrand Loudell Land. birthday of an earthly potentate be kept, and that of the "King of Kings and Lord of Lords" that of the "King of Kings and Lord of Lords" and \$1.00. For Lame Bace, Side or Chest, use not be "recognized!" Shame! Shame! on Shiloh's Porous Plaster. Price 25 cents. Sold by all druggists. eglect. Well will it be for them, if in clair ing the inheritance He has purchased for them by His first advent, He should say to them at the second, "Ought I to recognize you, who questioned recognizing Me?"

#### Show this to your Doctor.

CLEVELAND, November 1, 1878. Editors "Wachter am Erie," Cleveland, Ohio. GENTLEMEN :-- Allow me, as an old reader your valued journal, herewith to send you a few lines, which please insert in your next issue. I will vonch for their truth, and know that by their publication a great deal of good will be accomplished. Having been a reader of your paper for many years, I hope you will

kindly grant my request.

For twelve years I had suffered, from time to time, terribly with Rheumatism, to such an extent that I was unable to move about and lost the use of my limbs. I tried everything recommended to effect a cure, consulted some of the most prominent physicians, and ex pended large sums of money, hoping to find relief, but without any success. Glancing over the columns of the "Wachter," I read about the St. JACOBS OIL and the MANY cures this remedy had affected. Having been disappointed so many times, I lost all faith in any remedy, the St. Jacobs Oil included, intil I saw one day that it had cured a wellknown citizen with whom I am acquainted. Other parties fully endorsed the value and wonderful power of the OIL, telling me that it had cured them of different ailments in a very short time. This brought me to a conclusion. I said to myself, "Schweizer, fifty cents won't break you;" so I went to my druggist, Mr. Bock, bought a bottle of the Oil, and must now confess that the result was truly wonder. ful. I used it every two hours, and found relief immediately upon the first application, and the pain ceased entirely after a few more applications. Fearing a new attack, I re-mained in bed and continued to use the remedy every three hours. All pain having left me, I arose from my bed and walked down stairs

without any trouble. Since that time I have been able to follow sixty years ago when nails were cut by a hand machine at Alexandria, Huntingdon county, by William Dean, a popular Irishman of the weather may be. Having thoroughly The amount of goods carried by the several railroad companies for Adams Express, have fallen off considerable since the holidays, especially on Broad Top, and we suppose "Peeps" there are six cent fares on the street cars there is a demand from that city for pennies. The Huntingdon Journal entered upon the forty-fourth year of its existence with the issue of yesterday. It is an excellent weekly newspaper, and ably conducted, both editorially and locally—Johnstown Tribune.

The suppose the fact of the penny, but when one gets to St. Louis, or east of that point, then the penny becomes a familiar friend. Whereall observe there are six cent fares on the street cars there is a demand from that city for pennies. The horse car companies are limited to \$20 few complications that I know any mechanic who sees it once at work will say that there is nothing about it to get out of order. When I applied it to get o refer to Judge Caldwell, of Gaysport, he will away from all human habitation, I should, \$5.75(6.00; medium, \$63.50; 500); common, \$4.5 always in my house.
