

TEETH.

SILICIOUS METALS, OR MINERAL INCORPORATED TEETH.

It has for many years been a great desideratum among European and American Dentists, to manufacture teeth from incorruptible materials which should imitate the natural living teeth.

Many have devoted years to unsuccessful experiments, and others have succeeded in manufacturing teeth of materials similar to the porcelain ware, but generally they have an opaque white appearance, by which they are easily distinguished from the human teeth.

After long and tedious experiments, the subscriber has succeeded in manufacturing teeth of materials entirely incorruptible, and perfectly in imitation of human teeth. They have a semi-transparency, and are made of various sizes and shades.

In cases where absorption of the avolar process, or other causes may render it necessary, he will cast of the same materials attached to the teeth, artificial gums, which shall imitate the gum and supply the loss of substance.

It is entirely impossible for these teeth to change their color, or cause facial breath.

He will insert them from one to entire sets, in such manner that they will make articulation of the tongue materially assist in mastication, and so that they cannot be distinguished from the most beautiful natural living teeth by the most scrutinizing observer.

He also performs all the various operations in Dental Surgery, according to the late scientific improvements in the art.

W. KNAPP, Surgeon Dentist.

N. W. corner of Charles & Fayette streets, Baltimore.

COMMON SCHOOLS OF CARLISLE.

It has been resolved that the Board of School Directors of the Borough of Carlisle will hereafter meet on the first Monday of each month in the Town Hall at nine o'clock in the winter, and eight o'clock in the summer, for the admission of scholars into the public schools, and the transaction of other business.

Teachers are informed that the 12th Rule of the published regulations of the Board, which permits a Teacher at his or her discretion, to allow a scholar to attend school, until the meeting of the Board, has reference exclusively to new scholars, who have not been at any school in the borough for the preceding six months, and of this fact it will be expected that the Teacher will require full and satisfactory evidence. By order of the Board.

January 31, 1839.

TO DRUGGISTS.

A Drug Store situated in a town in one of the most fertile sections of Pennsylvania, is offered for sale. To a person of moderate capital, there are but few more desirable situations. A House and Lot will be received by the purchaser, if required, and these will be held given at any time. For further particulars enquire of the Editors of the Volunteer.

January 31, 1839.

A new Line of Freight Cars FROM HARRISBURG TO PHILADELPHIA.

The subscriber, grateful for past favors, respectfully acquaints his friends and the public, that he has put into operation on the HARRISBURG AND CARLISLE RAIL ROAD, a line of new DOUBLE CARS, which will run regularly between Harrisburg and Philadelphia, by which Goods and Produce of all descriptions will be forwarded with care and despatch, at the lowest rates of freight.

Goods will be received at the WAREHOUSE of THOMAS J. MAXWELL, N. E. corner of Broad and Vine streets, Philadelphia, and forwarded to Harrisburg, Carlisle, Chambersburg, and intermediate places, and by the subscriber, OWEN McCABE.

Harrisburg, Jan. 31, 1839.

DISSOLUTION.

The partnership heretofore existing between the subscribers, under the name of Moore and Biddle is this day dissolved by mutual consent. All business of the firm will be settled by John Moore.

JOHN MOORE, EDWARD M. BIDDLE.

Carlisle, January 21, 1839.

MACHINIST AND Burr Manufacturer.

The subscriber wishes to inform his friends and the public that he continues the manufacturing of all kinds of machinery for Woolen Factories, together with

FRENCH BURN MILL STONES.

At his old stand in New Cumberland, all of which he will warrant to be made in the best workmanlike manner and of the best materials, and sold at the lowest prices, upon accommodating terms.

A constant supply of Cards will be kept on hands, and old machines repaired.

ABRM MELLINGER.

June 21, 1838.

TO DENTISTS.

The subscriber furnishes Dentists with his celebrated Mineral Incorruptible Teeth, which have been spoken of in the highest terms of commendation by all who have used them, and by numerous men of profound chemical knowledge who have examined them. Also, including every article of material used in Dental Surgery, Teeth, gold, &c. sent by mail to any part of the Union when ordered.

F. H. KNAPP, Surgeon Dentist, Baltimore.

FANCY STOVES.

A SPEDID assortment of fancy Franklin and Parlor Stoves, intended for coal or wood. Also, a variety of Cooking Stoves of the most economical and approved kind. Wood stoves and other castings for sale either finished or in the plates, very cheap for cash or approved country produce.

PLEIS, FORBING & THURMOND, Oak Grove Furnace, Oct. 4, 1838.

A CARD.

Dr. Knapp, Dentist, returns his thanks to his friends for the liberal patronage, which he has received, and gives notice that he will continue to visit Carlisle, annually.

Job Printing Neatly and expeditiously executed at this office.

CHANGE OF AGENTS.

For Morrison's Universal Medicine. DR. ORATIO SHEPHERD, of Mount Joy, Pa., late Sole Agent in the United States, having been dismissed by the British College of Health, Dr. George Taylor now of the City of New York, has been appointed Sole General Agent and Hygienic Delegate to the United States.

The said George Taylor has appointed A. D. Olmstead of Montrose, Susquehanna county, Pennsylvania, Sole General Agent for the states of Maryland and Delaware, and thirty three counties east of the Allegheny Mountains, Pennsylvania; and George C. Hand, Surgeon Dentist, of Allentown, Lehigh county, Pa., General Agent for four counties in the state of New York, and seven in the state of New Jersey, to wit: Burlington, Cape May, Cumberland, Gloucester, Monmouth and Salem, in the state of New Jersey; Genessee, Livingston, Monroe and Steuben, in the state of New York.

Hereafter, no person can or will vend the genuine Hygienic Medicines within the said districts, except by the authority of the said A. D. Olmstead, George C. Hand, or G. C. Hand, or any agencies within said districts having terminated by the removal of H. S. Mead, who is now offering for sale under the firm of Mead & Pelham, Medicines of their own manufacture, which will readily be detected, as such will not have the signature of A. D. Olmstead, G. C. Hand, or Olmstead & Hand, on the cover of each box or package.

The leading principles of the Hygienic or Morrisonian theory of Disease, are too favorably and generally known to require a minute explanation in this advertisement.

These medicines cure all diseases which admit of a cure, and many heretofore deemed incurable. They may be given with safety to the weakest patient, and under every circumstance and stage of human suffering, and to children of the most tender age.

None offered for sale within the aforesaid districts are genuine, unless each box or package have a fac simile of James Morrison's signature, with a fac simile of the signature of George Taylor, and also the written signature of A. D. Olmstead, G. C. Hand, or Olmstead & Hand, when appointed.

The Pills are of two kinds, No. 1 and No. 2, sold in boxes with envelopes at 25 cents, 50 cents and packages at \$1 and \$3. Each packet contains a proportion of about two to one of No. 2. The Powders are in separate boxes—price 25 cents.

No chemical apothecary or druggist is ever employed to sell these medicines.

Respectfully requesting with the requisitions required may be appointed agents on liberal terms.

Office and General Depot, No. 5 South Front street, Philadelphia.

A. D. OLMSTEAD, General Agent, For 33 counties, Pa., the states of N. Y., N. J., Md., and Delaware.

G. C. HAND, General Agent, For 5 counties, N. Y., and 7 counties, N. J.

The public is hereby notified that we have united our business, and hereafter it will be conducted under the firm of Olmstead & Hand.

All orders directed to Olmstead & Hand, No. 5 South Front street, Philadelphia, will receive prompt attention.

OLMSTEAD & HAND.

The above medicine is for sale by CHARLES OGILBY, Agent for Carlisle, Sept. 20, 1838.

TO BRIDGE BUILDERS.

F. GOOD'S IMPROVEMENT IN BRIDGES.

FRANCIS GOOD, of the township of New London, in the county of Chester, and state of Pennsylvania, obtained letters patent for an improved plan of erecting Bridges over streams of water. The plan combines strength and permanency with economy, and is so constructed, in some situations, more than one half the expense to erect a Bridge on this plan, and when built would not be liable to be injured by a freshet, or rise in the stream; the Bridge being constructed and secured in such a manner, that if the water should rise so high as to run over the top of the Bridge, it would remain firm and secure. The plan has been submitted to a number of scientific men, who all pronounce it a great improvement. One on this plan has been erected over a branch of Whiteclay creek, in the township of Londongrove, which received the approbation of a Jury appointed by the court to view the same.

The subscriber having purchased the rights of the states of Pennsylvania west of the Susquehanna, New Hampshire, Vermont, New Jersey, Eastern Shore of Maryland, North and South Carolina, Indiana, Kentucky, Michigan, Mississippi, Louisiana, Missouri, and the territories of Wisconsin and Florida, will sell single, township, county, or state rights, to any person or persons, and will give every explanation that may be necessary, at his place of residence, Kirk's Mills, Lancaster county, Pennsylvania, or to the Editors of the Volunteer, Carlisle, Pa.

FRANCIS G. FELL.

September 20, 1838.

WE, the Commissioners of Chester county, having erected a Bridge on the model of Francis Good's patent, are decidedly of the opinion that it is a very valuable improvement, especially for building over small streams; being much less expensive in their construction.

Witness our hands and seals, this 11th day of June, 1838.

J. W. Passmore, John Beller, Commissioners.

Interesting Case Cured, BY DR. WM. EVANS' CAMOMILE TONIC AND FAMILY APERTIENT PILLS.

BENJAMIN BOWN, corner of Shippen and George streets, Philadelphia, was afflicted for seven years with extreme nervousness, by which he was not able to write his name. His symptoms were: eructation, daily spasmodic pain in the head, loss of appetite, palpitation of the heart, giddiness and dimness of sight, also inability of engaging in any thing that demanded vigor or courage; sickness of the stomach, impaired appetite, coldness and weakness of the extremities; emaciation; and extreme debility; disturbed rest, a sense of pressure and weight on the stomach after eating, great mental despondency, severe flying pains in the chest, back and side, costiveness; and a dislike for society and conversation. Mr. B. has made trial of various medicines before the public, but to no effect, until, observing in a public paper, an account performed by Dr. William Evans' Camomile Tonic and Family Apertient Pills, he was induced to give them a trial, of which he is any time happy to state that they effectually cured him of the above distressing disease.

Persons who doubt the above cure, are most respectfully directed to the above mentioned persons, at the Northwest corner of Shippen and George streets.

BENJAMIN BOWN.

Dr. Wm. Evans' Camomile Pills.

ENEMALS who are daily troubled with distressing disease, Sick Headache, which destroys the peace and happiness of thousands, can be effectually cured by Dr. Evans' Camomile Tonic and Family Apertient Pills. Vide other medical advertisements.

TO THE PUBLIC.

FOR the purpose of removing a general practice of medicine, as well as to give quietude to the unfounded reports of some interested individuals concerning it, the subscriber thinks it necessary to present to the public the following voluntary certificates of cures performed by him, from persons of respectability, long known in the borough of Carlisle. Persons similarly afflicted may have their complaints as well as their prejudices removed, by calling on F. EHRLMAN, Homoeopathic Physician, E. Main street, Carlisle, December 27, 1838.

TRIUMPH

Of the Homoeopathic, over the old practice of Medicine fairly established.

TO WHOM IT MAY CONCERN.

SOME TIME the last of August, A. D. 1837, a small protuberance appeared on my face near my left eye. I thought it was what is called a boil, but it increased, and several days after it first appeared, it was examined by a physician of this place, who pronounced it a CANCER, and directed me to apply a lunar caustic, which I did for two or three weeks, but found no help from it. I also applied other remedies to no better effect, after which I was directed to use caustic potash, but all to no purpose. The last proposed remedy created a sore about the size of a quarter of a dollar, and a copious discharge. It was again examined by a medical doctor, and thought by him to be sufficiently burned by the caustic, and he advised me to apply some healing salve. I did so, and as it healed, the cancer was more visible than at first, and by the time it was healed, it was only so far from it never was fully healed from its first appearance, until healed in the way hereafter stated. At this time there was a head appeared on the surface, about the size of a five penny bit, with a shooting pain and a crawling sensation in it.

Having been acquainted for several years with Mr. Asa F. Smith, generally known in this neighborhood, by the name of the Indian Doctor, and having seen him during the time I was applying the remedies above stated, I asked his opinion. He said, he feared they would not effect a cure; that he had cured many, and was perfectly acquainted with the nature of the disease, and that he had used those remedies which I had been using, ineffectually. I applied to the said Mr. Smith; he applied a plaster, with a small quantity of powder, much larger than the tumor, which was exceedingly painful. He gave me a phial of the powder, and the composition of the plaster, with directions how to use them. It will be observed that the plaster was only for the purpose of sticking and keeping the air from the wound—the powder was intended to have effect on the cancer—and an effect it had, indeed, for it burned similar to red hot iron. The application of which I continued for about 38 days, during which time my sufferings were extreme, beyond description. Indeed, it now appears astonishing to me how I bore up under it so long. In the course of this application, there were several pieces of this cancer taken out, but after taking out a piece in one place and then going to another for the same purpose, by the time I had succeeded in taking that out another one appeared in the place whence the former one had been removed, until I had taken out three pieces in the same place in succession, and more still appeared in the same place. By the sufferings I had endured from the application of the said powder, I was induced to use salve. The day in which I ceased the application of it I was informed that Dr. Frederick Ehrman professed to be skilled in the cure of cancers; this was sometime in December 1837, to the best of my recollection. I called on the doctor that evening. The next day he called to see me, and he would not allow any upward application, excepting dry lint—and to my astonishment, there was no further discharge from the wound, more than barely saturated the small quantity of lint, which was only sufficient to cover it. After I had taken his prescription for three or four days, I found by the sensation in my face, that it was as highly charged with the cancer as was the side I had made the application of the powder to, aforesaid, and that it had also got down over my under jaw into the glands of my neck. I also found a cancerous sensation on the inside of my right arm, between the wrist and elbow, and another on the flesh part of my right arm, also in other parts of my body. The sensation was so well known by me, having experienced so much of it, I could not have been mistaken. After taking Dr. Ehrman's prescription two or three days, I observed a change in all those affected parts, above named, and more particularly in the wound which was opened by the application of the powder to heal. I think it was not more than two or three weeks from the time Dr. Ehrman made the first application until my face was healed completely over, and has continued so ever since, and appears to be sound.

From the foregoing facts I feel it a duty I owe to my fellow men, and to the public at large, to certify that he FULLY REMOVED THE CANCER FROM MY SYSTEM, by his prescription, and that he not only cured me of the cancer, but has partially removed a disposition which I had long felt of a dyspeptic affection, and also some urinary obstruction, so that I feel more whole and sound in body than I have for several years past. Given under my hand at Carlisle, county of Cumberland, and state of Pennsylvania, the 13th day of August, A. D. 1838.

JACOB SQUIER.

A CASE OF DYSPEPSIA

of 20 years standing cured by Homoeopathic practice.

I do certify that I have been afflicted with dyspepsia for the time above mentioned, and for the last five years very severely, attended with a burning, itching and beating in the stomach, and occasionally with stitches and vomiting. I could not resist strong diet of any kind, and was generally of a costive habit. During my long illness, I employed nine different physicians, at different times, in the hope of getting some relief, if I entirely cured; but all was in vain. At length I heard of different astonishing cures performed by Dr. Frederick Ehrman, Homoeopathic Physician, and I employed him as the Homoeopathic Physician, and he cured me of my dyspepsia, but without much hope. He gave me some pleasant medicine and continued it four or five weeks, when I felt great relief, and in a very short time afterwards I was completely cured, and for nearly a year since I have enjoyed a good state of health, without the least symptom of that distressing complaint. I therefore recommend to those afflicted with similar or other complaints, to make early application to Dr. Ehrman, whose medicine is not only pleasant to the taste, but seldom or never fails in affording relief. Moreover, the Doctor's change is uncommonly moderate. Witness my signature at Carlisle, the first day of November 1838.

C. MOORE, Hanover st.

TO THE PUBLIC.

I do certify with pleasure, that Dr. Frederick Ehrman, Homoeopathic Physician, of Carlisle, cured me of the following complaint, to wit: In the autumn of 1837 I was afflicted with a violent attack of dysentery, and I applied to and was attended by one of our best eminent

physicians, with but little success. Sometime after I was afflicted with what is generally termed inflammatory rheumatism, and the pains suffered were excruciating, particularly in my joints. I was attended by the same eminent physician, and so acute were my pains, that I was unable to move, and I was obliged to lie in bed and ease my sufferings—it afforded but a temporary relief; my joints were swelled and stiff, my right arm and hand were powerless—I could not move a finger. I had the white swelling in my right knee, and my ankle joint was swelled and stiff. I had a cough with purulent expectoration, accompanied with the dysentery. In fact I was left by the different diseases, and the treatment prescribed, a living skeleton, almost without any hope of relief. One of my neighbors who visited me about this time, advised me to call on Dr. Frederick Ehrman, and I did so, on the principle that a drowning man would catch at a straw, or, in other words, I was willing to try anything to get relief from the misery I was laboring under, and contrary to my expectation, as well as all who saw me, I soon found a general relief—my pains removed, and my flesh and health increased by Dr. Ehrman's treatment, and from that time I enjoyed and now enjoy a better state of health than before I was afflicted. I do therefore with confidence recommend to those suffering under similar afflictions, to call upon Dr. Ehrman, in Carlisle, (the sooner the better, after they become afflicted) under a firm belief that they will be soon relieved and restored to their usual if not better health, than before they were afflicted, without the use of the lancet, or the use of any other violent means of blurring or an uncommon restriction of diet. His medicine is pleasant but powerful, and is always attended with beneficial consequences. Given under my hand at Carlisle the 15th day of November, A. D. 1838.

E. ZERMAN.

CONSUMPTION CURED.

In the fall of the year 1837, I was afflicted with a bad cough, which brought on a severe consumption, and I was confined to bed, and every movement of my body brought on the cough so severely that I thought I must die. I cannot describe the sufferings I endured, but I had tried every remedy, and I had given up all hope, when I was informed by one of my friends, that I should try the Camomile Pills, which I had heard of from one of my friends, and I was induced to try them, and I found that they were the best medicine I had ever used, and I was cured of my consumption, and I am now as well as ever.
