TEETH.

It has for many years been a great desideratum among European and American Dentists, to manufacture Teeth from incorruptible materials which should imitate the natural living Teeth. Many have devoted years to unsuccessful experiments, and others have succeeded in manufacturing teeth of materials similar to the porcelain ware, but generally they have an opaque white appearance, by which they are easily distinguished from the human teeth. After long and tedious experiments, the subscriber has succeeded in manufacturing teeth of materials entirely incorruptible, and perfectly in imitation of human teeth. They have a semi-transparency, and are made of various sizes and shades. In cases where absorption of the avicular process, or other causes may render necessary, he will cast of the same materials attached to the teeth, artificial gums, which shall imitate the gum and supply the loss of substance. It is entirely impossible for these teeth to absorb their color, or cause teeth to bleach. He will insert them from one to entire sets, in such manner that they will make articulation of the voice perfect, and materially assist in mastication, and so that they cannot be distinguished from the most beautiful natural living teeth by the most scrutinizing observer. He also performs all the various operations in Dental Surgery, according to the late scientific improvements in the art. F. H. KNAPP, Surgeon Dentist. N. W. corner of Charles & Fayette streets, Baltimore.

TO DRUGGISTS. A Drug Store situated in a town in one of the most fertile sections of Pennsylvania, is off for sale. To a person of moderate capital, there are but few more desirable situations. A House and Lot will be rented to the purchaser, if required, and possession thereof given at any time. For further particulars enquire of the Editors of January 31, 1839.

A new Line of Freight Cars FROM HARRISBURG TO PHILADELPHIA.

THE subscriber, grateful for past favors, respectfully acquaints his friends and the public, that he has put into operation the HARRISBURG, LANCASTER, and COLUMBIA RAIL ROAD, a line of new DOUBLE CARS, which will run regularly between Harrisburg & Philadelphia, by which Goods and Produce of all descriptions will be forwarded with care and despatch, at the lowest rates of freight. Goods will be received at the WAREHOUSE of THOMAS J. MAXWELL, N. E. corner of Broad and Vine streets, Philadelphia, and forwarded to Harrisburg, Carlisle, Chambersburg, and intermediate places, and by the subscriber, to COWEN McCABE. Harrisburg, Jan. 31, 1839. FISH, SALT AND PLASTER, CONSTANTLY ON HAND. Cash paid for almost all kinds of country produce.

MACHINIST AND Burr Manufacturer.

The subscriber wishes to inform his friends and the public that he continues the manufacturing of all kinds of machinery for Woolen Factories, together with PATENT STEAM MILL STONES. At his old stand in New Cumberland, all of which he has fully proved to be superior in the best work like manner and of the best materials, and sell at the lowest prices, upon accommodating terms. A constant supply of Cards will be kept on hand, and old machines repaired. ABR' M MELLINGER. June 21, 1838.

A VALUABLE TAN YARD FOR RENT.

AT HARPER'S FERRY, VA. THE subscribers will lease for one or more years, their valuable Tan Yard, with all its appendages. It is one of the best locations in Virginia for carrying on the business on an extensive scale, as there is abundant steam and the materials are ample. A number of the Vats are under cover, and all the buildings are of the most suitable kind—besides the grinding of Bark (which can be got convenient and at fair prices) is done by water power. Any quantity of Hides can be procured in the neighborhood, as there is no other tannery within several miles of the place—and there is also every facility for getting hides from the cities, and sending them to market when tanned, either by rail road or canal. There is, likewise, a demand at this place for a large quantity of Leather annually by the Government. Possession will be given immediately. For further particulars enquire of HUGH GILLECE & CO. Harper's Ferry, Feb. 7, 1839.

DR. I. G. LOOMIS, DENTIST.

INTENDS residing permanently in Carlisle, and would be gratified to receive professional services to the citizens of the place and vicinity. He has taken rooms at Col. F. Ferree's Hotel, where he may be found at all hours. Persons requesting it, will be waited upon at their residences. Dr. George D. Foulke, Dr. Theodore Myers, Dr. Thos. C. Thornton, Dr. David W. Malton. Carlisle, Dec. 6, 1838.

Clover Seed for Sale.

100 BUSHELS OF CLOVER SEED. JUST received from Ohio, and for sale at the Warehouse of the subscriber in the borough of Carlisle. Also a large quantity of Timothy Seed. HENRY RHOADS. December 20, 1838.

Wood stoves and other castings for sale either finished or in the plates, very cheap for cash or approved country produce. PLEIS, FORBING & THURDUM. Oak Grove Furnace, Oct. 4, 1838.

PETERS' PILLS.

THE TRUE RICHES OF LIFE IS HEALTH.

We know that health, and the ability to labor in the wealth of the great mass of the people in this as in most other countries. To preserve, therefore, that health by NATURAL means, is a grand moral and political scheme, to fulfil which requires our utmost attention. It is, apparently, the reputation which Peters' Pills have acquired as a Medical Restorative, is the most unquestionable proof that can be given of their immense importance to the afflicted, in almost every class of diseases. The number of letters received from patients recovering through their means is really prodigious, and the complaints which they have cured are almost as varied as they are numerous. But still there are some in which they are more especially beneficial than in others, and among those may be named the too often fatal complaints of the stomach and bowels, such as Cholera, Flatulence, and Indigestion, for which they are not only a certain but an immediate relief. It is well known that from the disarrangement of the stomach and bowels, arise nine tenths of all the maladies of adult and declining life; that this is the foundation of Flatulency, Spasmodic Pains, Indigestion, Loss of Appetite, &c., and that those in their turn give birth to Dropsy, Liver Complaint, Constipation, and habitual bowiness of mind; therefore, Peters' Pills, being the best medicine which has ever been discovered for the incipient diseases of the intestines, are necessarily the surest preventives of those dreadful, and also general disorders, which embitter mature life, and drag so many millions to untimely graves. In speaking thus, Dr. Peters arrogates nothing to himself that has not been conceded by the public. He is no needy quack or un-known speculator, who comes before the world as his own herald and witness; but is placed in a responsible situation by the patronage which he has enjoyed for years, and which is increasing to an extent unprecedented in the history of medicine, that makes him careful to arrest nothing which is not borne out by the most inflexible proof, and hence he does not fear to be put to the test in any thing which he has promised respecting his Pills. Dr. Peters is most happy to be able to state, on the authority of a great number of regular physicians, that whatever his Vegetable Pills have introduced, they have almost superseded the adoption of mercurial experiments, for their peculiar faculty in sweetening the blood, and stimulating it to expel all noxious juices, and in giving strength and tone to the nerves, prevents disease from acquiring that strength which must be got under, if at all, by dangerous remedies.

QUACKS & THEIR DESTRUCTIVE FIVE NOSTRUMS.

The united testimony of physicians throughout the United States has fully proved to the satisfaction of the public, that Peters' Vegetable Pills are the only true Vegetable Pills which will stand the test of analysis; hence the proprietor would most earnestly urge them to the notice of those who have been in the habit of using, as cathartics or aperients, the destructive and irritating quack pills so generally advertised, and which are at best but slow consumers of the vital functions, and murderous agents, even to the most hale. It is true, most of them produce a purgative effect, and sometimes transient relief; but in most cases they injure the digestive organs, and an habitual resort to them must terminate in confirmed dyspepsia. It is true that cathartic and aperient medicines are often required, but the nicest discrimination should always be observed in the selection; and, if this be done, nothing injurious can result from their use. To produce this much desired result, Dr. Peters has made it his study for several years and he is proud to say he has succeeded at length far beyond his expectations. The object of his pills is to supersede the necessity of a frequent recourse to injurious purgatives, and to offer a medicine safe, certain, and pleasant in its operation. Prepared by Jos. Priestly Peters, M. D. No. 129 Liberty street, New York. Each box contains 40 pills, price 50 cents. For sale by J. Myers, and S. E. L. C. G. Dist., and Samuel Wilson & Co. Shippensburg. Dec. 6.

Peters' Vegetable Pills.

MORE than three millions of boxes of these celebrated pills have been sold in the U. S. since January, 1835. Hundreds and thousands bless the day they became acquainted with Peters' Vegetable Pills, which in consequence of their extraordinary goodness, have attained a popularity unprecedented in the history of medicine. When taken according to the directions accompanying them, they are highly beneficial in the prevention and cure of Bilious Fever, Fever and Ague, Dyspepsia, Liver Complaints, Sick Headach, Jaundice, Asthma, Dropsy, Rheumatism, Enlargement of the Spleen, Piles, Cholera, Female Obstructions, Heart Burn, Nausea, Furred Tongue, Distension of the Stomach and Bowels, Incipient Diarrhoea, Flatulence, Habitual Costiveness, Loss of Appetite, Blotched or Sallow Complexion, and in all cases of Torpor of the Bowels, where a cathartic or an aperient is needed. They are exceedingly mild in their operation, producing neither nausea, griping nor debility. The efficacy of these Pills is so well known, and their use so general, that further comment is considered unnecessary. Dec. 6.

Headache, Sick and Nervous.

THOSE who have suffered, and are weary of suffering from these distressing complaints, will find in Peters' Vegetable Pills a remedy at once certain, and immediate in its effects. In Dyspepsia they stand unrivalled; many have been cured in a few weeks after having suffered under this dreadful complaint for years. In habitual Costiveness they are decidedly superior to any Vegetable Pills ever yet discovered, and besides this they are recommended by all the eminent and leading members of the medical Faculty. For sale as above. Dec. 6.

A CATALOGUE OF REASONS.

FOR USING Dr. Peters' Celebrated Vegetable PILLS. 1. Because they are exceedingly popular, which proves them to be exceedingly good. 2. Because they are composed of simples which have the power to do good in an immense number of cases, without possessing the means to do injury in any.

3 Because they are not a quack medicine, but the scientific compound of a regular physician, who has made his profession the study of his life. 4 Because they are not unpleasant to take, nor distressing to retain, while they are most effective to operate. 5 Because they are recommended as standard medicine by the regular faculty. 6 Because by keeping the system in a natural state of action, they cure almost every disease which is incidental to the human frame. 7 Because they are cheap and portable, and retain all their virtues in full vigor, in any climate, and for any length of time. 8 Because, notwithstanding their simplicity and mildness, they are one of the six oldest purgative medicines which has yet been discovered. 9 Because they are an infallible remedy for procuring a good appetite. 10 Because in cases of spleen or dependency, by their healthy influence on the excited state of the body, they have a most happy effect, in calming, and invigorating the mind. 11 Because they effect their cures without the usual attendants of other pills, sickness and gripings. 12 Because as well as being an unrivalled purifier of the general system, they are a sovereign remedy for sick head aches. 13 Because they differ from the majority of medicines, in the fact that the more they are known the more they are approved. 14 Because as their application creates no debility in the system, they may be taken with safety, and without any hindrance to the usual pursuits of every day life. 15 Because when once introduced into a family, or a village, they almost immediately take the precedence of all other remedies in general complaints. 16 Because a number of the wonderful cures thus effected, can be substantiated without any undue means being resorted to, to procure unvalued testimonies. 17 Because their composition is such, that they are equally applicable to the usual diseases of warm, cold, or temperate climates. 18 Because two or three, are in general sufficient for a dose—so that, as is the case with the generality of patent medicines, the patient is not compelled to make a trial of them. 19 Because each individual pill is put up under the immediate superintendence of the proprietor, so that no mistake in the composition or quantity can possibly occur through the carelessness of a less interested agent. 20 Because they purify the frame without debilitating the system. 21 Because, notwithstanding their immense popularity, no person has ever ventured to raise against them the breath of censure, which would not have been the case, if any could have discovered in them a single flaw to cavil at. 22 Because—and this is the most important—ladies in a certain situation may take them, (not more than two or three at a time however) without in the slightest degree incurring the hazard of abortion. Were the virtues of Peters' inestimable pills, confined to this desirable end alone, it would give them a decided advantage over the medicines of all competitors, as in no cases is there more danger to be apprehended, or for which so few have been discovered, as the one referred to. 23 Because while they are so efficient in their operations with adults they may at the same time be administered to children and even to infants, in small quantities, half a pill for instance, without the slightest danger. 24 Because their virtues are acknowledged to stand pre-eminent, for their soothing influence upon young ladies while suffering from the usual changes of life, as directed by the laws of Nature. Dec. 6.

LIVER COMPLAINT.

Cured by Dr. Wm. Evans' Chamomile Tonic and Aperient Pills. MRS. LYLLIE, Mount Joy, Lancaster Co. Pa., completely restored to health, by Dr. Evans' Chamomile Pills. Her symptoms were, great pain in her right side, could not lie on her left without an aggravation of the pain, disturbed rest. Extreme debility, pain in the head, loss of appetite, palpitation of the heart, sickness and dimness of sight, languor, with other symptoms indicating great derangement in the functions of the liver. Miss Lytle, daughter of the above said Mrs. Lytle, has also been restored to her former health, by the same invaluable medicine. Her symptoms were extreme nervousness, attended with severe pain in her side, sickness of the stomach, cruritions, &c. Mrs. Lytle has the pleasure of informing the public, that numerous cases similar to her own, (in her vicinity) have been restored to health by the same valuable medicine.
