THE TRUE RICHES OF LIFE IS HEALTH.

THE TRUE RICHES OF LIFE IS

We know that health, and the ability to labor it the wealth of the great mass of the people in this as in most other, countries. To preserve, therefore, that health by NATURAL means, is a grand maral and political scheme, to fulfit which required bur at most attention.

THE unparallicled reputation which Peters' I Pills have acquired as a Medical Restorative, is the most unquestionable proof that can be given of their immense importance to the afflicted, in almost every class of diseases. The number of letters received from patients recovering throtheir means is really prodigious, and the complaints which they have cured are almost as varied as they are numerous. But still there are some in which they are more especially beneficial thair in others, and among those may be named the too often fattal complaints of the stomach and bowels, such as Gholic; Flatulence, and Indigestion, for which they are not only a certain but an immediate cure.

It is well known that from the disarrangement of the stomach and bowels, arise nine tenths of atthe they are not only a certain but an immediate cure.

Liver Complant, Consumption, and habitual lowness of spirits, therefore Peters' Pills being the very best medicine which has ever been discovered foul, and also general disorders, which embitter mature life, and drag so many millions to untimely graves.

In speaking thus Dr. Peters arrogates nothing to himself that has not been conceded by the public. He is no needy quack or unknown speculator, who comes before the world as his own herald and witness, but is placed in a responsibility of situation by the patronage which he has enjoyed for years, and which is increasing to an extent enprecedented in the annals of medicine, that makes him care

LIVER COMPLAINT,

mony of physicians throughout the United States has fully proved the fact that Peters' Vegetable Pills are the only true Vegetable Pills which will stind the test of analy zation, hence the proprietor would most earnestly urge them to the notice of those who have been in the habit of using, as cathartics or aperients, the destructive and irritating quack pills so generally advertised, and which are at best but slow consumers of the vital functions, and murderous agents, even to the most hale. It is true, most of them produce a purgative effect, and sometimes transient relief; but in most cases they injure the digestive organs, and an habitual resort to them must terminate in confirmed drapepsia.

It is true that cathartic and aperient medicines are often required, but the nicest discrimination should always be observed in the selection; and if this be done, nothing injurious can result from their use.

To produce this much desired result, Dr. Peters has made it his study for several years and feels proud to say he has succeeded at length furbeyond his expectations. The object of his pills is to supercede the necessity of a frequent recourse to injurious purgatives, and to the affect of the safe of Dr. Wm. Evans' Chamomile Tonic and Hypocondities in.
