

WILLIAM M. MATEER, Esq. has been appointed Post Master at Lees Roads, in this county in the room of D. Clever, Esq.

Report of the School Directors.

The committee appointed on behalf of the Board of School Directors of the Borough of Carlisle, to prepare and submit to the public a general exhibit of the schools, the situation of the funds of the present year, and the amount necessary for the ensuing year, respectively present the following exhibit:

The number of schools in operation during the past year, and at this time is fourteen—each school limited to sixty scholars. The number of children on the rolls are from 750 to 800, during the greater portion of the year the former number were in attendance, while at the present time from an examination of the rolls of the respective schools, it appears there are about 700 in general and regular attendance averaging 50 to each school. Of the whole number about 575 are of the Primary, 275 of the Secondary and High School Departments, and 50 of the Coloured School. On a comparison of the expenditures with the number of children taught, it appears that the average cost of teaching each scholar per year is \$5.25 or one dollar, and thirty cents per quarter.

The School Directors labor under considerable inconvenience in procuring comfortable and otherwise suitable school rooms for all the scholars. Ten school rooms are now rented at a rent of about \$350, while four school rooms situated on the "old College lot" are owned by the school district. This lot is well calculated for the erection of another school house suitable for several schools. The Board has thus far been prevented from building for want of the necessary funds.

It appears that the balance in the hands of the District Treasurer at the last yearly settlement (June 1, 1838) was \$958.05. In addition to this balance, a sum then considered sufficient to carry on the schools for the year just ending, was levied by the Board of Directors and the Citizens, as will appear from the statement herewith submitted. The committee therefore recommend that the said balance of \$958.05 be set apart for the building of an additional school house on the "old College lot."

The following embraces a correct exhibit of the school funds &c. of the past year, viz: Expenses—salaries of teachers, \$2988 17 Rent of school rooms & stoves, 375 50 Wood & incidental expenses, 247 26 Furniture, &c. 164 77 Repairs to old College, 194 81 Funds at present unavailable, 230 00

Whole amount, \$4200 51 To which the school funds of the year are applicable, viz: Annual State appropriation \$783 00 Levied by Directors, 1520 76 Additional tax levied by the citizens, 1800 00 From other sources, 178 60

Leaving a deficiency for the past year of \$218 15 To enable the Board to carry on the schools efficiently for the next year, the committee believe it will require a sum nearly equal to that of the past year, an estimate of which expenses is herewith submitted, viz: ESTIMATE FOR 1839.

Salaries of teachers for 14 schools, \$3221 62 Rent of school rooms & stoves, 354 50 Wood, &c. 175 00 Incidental & other expenses, 140 00 Fencing old College property, 75 00 Deficiency of last year on settlement, 218 15

Whole amount necessary, \$4184 27 To which amount the following sums are applied, viz: Annual State appropriation, \$844 00 Levied by Directors, 1520 76

Balance necessary to be raised, \$1819 51 To collect the tax levied the past year, the Directors were obliged to fix the dollar rate on trades, occupations and professions at 2 1/2 mills, and on real and personal property at 3 1/2 mills. The valuation of which property so taxed in 1838 in the aggregate amount of valuation as corrected is \$1050,256 00. The number of taxables in 1838 was 783, while in 1839 the number is 844. The increase in the valuation of property &c., as well as in the taxables will enable the Directors to levy and raise the amount now asked for at a rate less by half a mill than that of 1838, viz: on occupations &c. at the rate of 2 1/2 mills, while on real & personal property, the principal subjects of taxation the rate will be reduced to about 3 1/2 mills in the dollar, equal to five cents, in the hundred dollars less than last year.

The committee therefore recommend the sum of \$1800 additional tax as necessary to be raised by a vote of the people, to enable the Board to carry on the schools with efficiency during the coming year, and to meet the deficiency already stated, as well as the erection of a new school house. It is confidently believed, that in the course of another year a considerable reduction can be made in the expenses as compared with the past and former years, the schools being now nearly all furnished with the necessary furniture, apparatus &c., such expenditures in future will be with little exception unnecessary.

The committee having performed their duty and made such suggestions as to them seemed right and necessary in conclusion beg leave in the language of a former committee to state "that the plan upon which our schools are conducted has fully answered the expectations entertained of it by its friends, and is consequently no longer an

experiment, but a system well adapted to the wants of the community; and therefore we cheerfully submit the whole matter to the qualified voters of the Borough of Carlisle, willing to do any thing in our power to promote so great an object as the education of the great body of children in our town on the best possible plan, so that it is essentially connected with the well being and prosperity of the community and that it is duly appreciated by our fellow citizens."

To assist in the performance of their duty the Board earnestly ask and desire the co-operation of their fellow citizens. Respectfully submitted, R. ANGNEY, J. W. EBY.

Carlisle, April 29, 1839.

ITEMS.

From the Baltimore "Sun."

Chesapeake and Ohio Canal.—One hundred and thirty-seven miles of this work are now completed and in successful navigation, the water having been let into twenty-seven additional miles, but very recently finished. But fifty miles now remains to be finished to connect it with the town of Cumberland, the immediate vicinity of the coal region, and we may be permitted to add, the summit level of the first desires of its projectors. The evidences of its prosperity so far, are highly flattering, and its friends have not the least reason to doubt that it will accomplish all that was promised or expected. Not a moment should now be lost in getting the cross-cut canal under way. Although Baltimore is in some degree interested in the welfare of the Chesapeake & Ohio Canal, yet her interest lies more immediately in the early construction of the canal, which is to connect the eastern terminus of that great work with the waters of the Patapsco. She will never be able to reap the permanent advantages which are her due, until this result is accomplished.

An Attempt to rob a Bank.—We learn from the Washington Globe that Mr. Orme, a teller in the bank of the Metropolis, took fifty thousand dollars from the bank. The suspicions of the cashier being awakened by appearances, he counted the money, and discovering the deficit, charged the teller, who confessed every thing, and pointed to the person who had it in his possession, Mr. Goodrich, a clerk in one of the Departments. Mr. G. was arrested, and the money recaptured.

St. Louis (Mo.).—The census of this thriving city of the west, has just been taken, and the population is estimated at 22,000, being an increase of 4,000 during the last year. This estimate includes also the suburbs.

Most Horrible.—A letter received in N. York, and which fell into the hands of the editor of the Dispatch, states that a child, occupied by one James Felt, in Huron Michigan, was decapitated on the 9th inst. The remains of the child, and the children were found in the ruins, and horrible to relate, the father is charged with having murdered his family and fired the house to hide evidence of his guilt. He is under arrest.

Times in Mississippi.—According to a statement in the Gallatin Star, the sheriff of Copiah county, has executions to the amount of two hundred and fifty thousand dollars, to be made at May court. The Raymond, [Miss.] Times is filled with advertisements, principally those of the sheriff, to such an extent that the reading has to be furnished in an extra. Bad times, these, for every body but the sheriff and the printer.

The Potomac Fisheries.—The Alexandria Gazette of yesterday morning says: "The weather has lately been very fine for the Potomac fisheries, and great quantities of shad and herring have, we understand, been caught, especially on the Maryland shore. Shad have been selling at the fish wharf, in Alexandria, (the great fish depot,) at from \$2.50 to \$3.00 per hundred, and herring at from \$2.25 to \$3.00 per thousand. The demand has not yet been supplied."

Upper Canada.—The Kingston (U. C.) Herald of April 16, says: Five schooners had arrived at Oswego, on the 6th inst., from Ohio, through the Welland Canal. Four of them were laden with wheat, to the amount of 16,000 bushels, for the Oswego millers. Non-intercourse is the order of the day between Canada and the United States. The steamboats of both countries run only to their own ports. Indeed so far is this carried, that we have been informed the sentries at Brockville and Prescott fire on the American boats even in the day time.

The New Bedford Mercury states that a quantity of snow fell at that place on Wednesday afternoon, equal to any during the winter. On the 15th of May, 1834, the pavements of Boston were, for a long time kept whitened by falling snow.

WELLINGTON AND THE CANADAS.

The London Dispatch says of the Canadas: "The Duke of Wellington asserts that we have eleven thousand regular troops, and thirty thousand militia and volunteers in Canada, in order to suppress the rebellion and preserve the loyalty of our Canadian subjects. This is making it about twelve times as difficult to keep subjection in Canada as we ever found it to retain the Irish in subjection. If forty four thousand troops are necessary for the coercion of Canada, it would require in the ratio of the populations of the two countries, three hundred and fifty thousand soldiers to govern Ireland; whereas our largest force in that country has seldom permanently exceeded thirty thousand men. The Duke of Wellington's assertion discloses the impossibility of our retaining permanent possession of the Canadas, and if this be the real opinion of so excellent a Judge, the sooner we get rid of the colony the better."

THE MARKETS.

Baltimore, April 26, 1839. Howard Street Flour.—The Rail Road price is \$7, and lots by wagons are occasionally taken at a fraction higher. Wheat.—In the early part of the week sales of good to very prime reds were made at \$1.65 a 1.68 per bushel. Corn.—In the early part of the week sales of Md. white were made at 86 cents, afterwards at 84 cents, and more recently at 82 cents. Rye.—Remains at 90 a 100 cents. Clover Seed.—We continue to quote prime western at 12 to \$13 per bushel. Whiskey.—The wagon price of barrels is 36 cents, exclusive of the barrels.

Carlisle, May 1, 1839. Flour—Is selling at from \$7.25 to \$7.50. Beef—10 a 12 cts per pound. Pork—15 cts. Butter—25 cts. Eggs—12 1/2 cts.

FORGEMEN WANTED. SIX GOOD REFINERS wanted immediately at Dickinson Forge. Apply to A. G. EGE. May 2, 1839.
