THE TRUE RICHES OF LIFE IS HEALTH

The leading principles of the Hygeian or Mor-isonian theory of Disease, are too favorably and generally known to require a minute explanation IVe know that health, and the ability to labor is the wealth of the great mass of the headle in this as in most other countries. To preserve, therefore, that health by NATURAL means, is a grand moral and political scheme, to fulfil which requires our utmost attention. FHE unparalleled reputation which Peters' Fills have acquired as a Medical Restorative, is the most unquestionable proof that can be given of their immense importance to the affilicted, in almost every class of diseases. Is the most unquestionable proof that can be given of their immense importance to the afflicted, in almost every class of diseases. The number of letters received from patients recovering throw their means is really prodigious, and the complaints which they have cured are almost as varied as they are numerous. But still there are some in which they are more especially beneficial than in others; and among those may be named the too often fatal complaints of the stomach and bowels, such as Cholic, Flatulence, and Indigestion, for which they are not controly a certain but an immediate cure. It is well known that from the disarrangement of the stomach and bowels, arise nine tenths of all the maladies of adult and declining life; that these in their turn give birth to Dropsy. Liver Complant, Consumption, and habitual lowness of spirits; therefore Peters' Pills being the very best medicine which has ever been discovered for the invite the maladies of the store of the s The Pills are of two kinds—No. 1 and No. 2, sold in boxes with envelopes, at 25 and 50 cents; and packages at \$1 and \$3. timely graves.-. In speaking thus Pr. Peters arrogates nothing to himself, that has not been conceded by the public. He is no needy quack or unknown spec-ulator, who comes before the world as his own herald and witness, but is placed in a responsi-bility of situation by the patronage which he has enjoyed for years, and which is increasing to an extent unprecedented in the annals of medicine, cxtent unprecedented in the annals of medicine, i that makes him careful to arrest nothing which is not borne out by the most infallible proof, and hence he does not fear to be put to the test in any thing which he has promised respecting his Pills. Dr. Peters is most happy to be able to state, on the authority of a great number of regular physicians, that wherever his Vegetable Pills, have been introduced, they have almost super-ceded the adoption of mercurial experiments, for their peculiar faculty in sweetening the blood. for their peculiar faculty in sweetening the blood, and stimulating it to expel all noxious juices, and in giving strength and tone to the nerves, pre-vents disease from acquiring that strength which out the slightest danger, 24 Because their virtues are acknowledged

der the immediate superit tendence of the pre-prietor, so that no mistake in the composition or quantity can possibly occur through the care-lessness of a less interested agent. 20 Because they purify the frame without dibilitating the system. 21 Because, notwithstanding 'their immense' popularity, no person has ever ventured to raise against them the breath of censure, which would not have been the case, if envy could have dis-covered in them a single flaw to cavil at. 23 Because—(and this fact is of the utmost importance)—Indies in a certain situation may take them, (not more than two or three at a time, howevel), without in the slightest degree incurring the hazard of abortion. More-the-vitrues of Peters' instimable pills, confined to this desirable end alone, it would give them a decided advantage over the medicines of all com-petitors, as in no cases is there more danger to be apprehended, or for which-so few have been -discovered, as the one referred to. 23 Because while they are so officient in their operations with adults they may at the same time be administered to children and even to infinits, in small quantities, half a pill for instance, with-out the slightest danger.

stand the test of analyzation; hence the proprietor would most earnestly urge them to the notice of those, who have been in the habit of using, as cathartics or aperients, the destructive and irritating quack pills so generally advertised, and which are at best but slow consumers of the vital functions, and murderous agents, even to the most hale. It is true, most of them produce a purgative effect, and sometimes transient relief; but in most cases they injure the digestive or gans, and an habitual resort to them must terminate confirmed dyspepsia.
It is true that calinartic and aperient medicines are often required, but the nicest discrimination is done, nothing injurious can result from the ise.
To produce this much desired result, Dr. Performed and and at the study for several years and the same at has study for several years and the same at has study for several years and the study
