Goeticke's Matchless Sanathe. The article published below concerning the new and popular doctrine advanced by the illustrious Goelicke of Germany, cannot fail of exciting a deep and thrilling-interest throughout the country.

[Translated from the German.] LOUIS OFFON GOELICHE,

OF GERMANY.
THE GREATEST OF HUMAN BENE-FACTORS. .

Citizens of North and South America.

To Louis Offion Gorlicke, M. D. of Germany, Europe, belongs the imperishable honor of adding a new and precious doctrine which, though vehemently opposed by many of the faculty, (of which he is a valuable member) he proyes to be as well founded in truth as any doctrine of Holy Writ—a doctrine, upon the verity of which are suspended the lives of millions of our race, and which he boldly challenges, his opposers to refute. viz: Consumption is a disease always occasioned by a disordered state of Vis posers to refute. viz: Consumption is a disease always occasioned by a disordered state of Vis Vitas, Cor-Life Principle; of the human body: often secretly turking in the system for years before there is the least complaint of the lungs—and which may be as certainly, though not so quickly cured; as a common cold, or sinple headathe.—An invaluably precious doctrine this, as it imparts an important lesson to the apparently parts an important lesson to the apparently healthy of both sexes, teaching them that this insidious foe may be an unobserved inmate of their "clayey houses" even while they imagine themselves secure from its attacks, teaching them that THE GREAT SECRET IN THE ART OF PRESERVING HEALTH IS TO PLUCK OUT THE DISEASE WHILE IN THE BLADE, AND NOT WAIT TILL THE FULL GROWN EAR.

This illustrious benefactor of man is also enti-

This illustrious benefactor of man is also enti-tled to your unfeigned gratitude, and the grati-tude of a world, for the invention of his Matchclaim for its such a title, since it has so signally triumphed over our great common enemy consumption, both in the first and last stages,—a medicine which has thoroughly filled the vacuum in the Materia Medica, and thereby proyed itself the Congueror of Physicians—a medicine, for which all mankind will have abundant cause to breath the total control of the confidence o to bless the benificent hand of a kind Providence
—a medicine whose wondrous virtues have been so glowingly portrayed even by some of our clergy, in their pastoral visits to the sick cliamber; by which means they often become the happy instruments of changing despondency into hope, sickness into health, and sadness of friends into joyfulness.

Goolicke's Watchless Sanative, a medicine of more value to man than the vast mines of Austria, or even the united treasures of our globe—a medicine, which is obtained equally from the vegetable, mineral and animal king; doms, and thus possesses a three-fold power,—a for consumption solely, is possessed of a mysterious influence over many diseases of the human system,—a medicine, which begins to be valued by Physicians, who are daily witnessing its astonishing cures of many whom, they had regarded. by Physicians, who are daily witnessing its as-tonishing cures of many whom they had resign-ed to the grasp of the Insatiable Grave.

Dose of the Sanative, for adults, one drop; for children, a half drop; and for infants, a quar-ter drop; the directions explaining the manner of taking a half or quarter drop.

PETER FAHNESTOCK. Ephrata tp. Lan. co. Oct. 1838.

Alloway, May 5, 1838,
This may certify, that I have been engaged
n putting in S. B. Howd's cast iron direct acion Water Wheel, both in the State of New York and in Michigan, and can give it as my lecided opinion that with 8 feet head or under, rightly put in, it will do more business with the rightly put in, it will do more business with the same water than any other water wheel which I have yet had any experience in, and in reference to back water, is second best to aone that I have yet tried. 'In reference to guarding against ice; there can be no better operation, and it is very easy to be kept in repair.

STEPHEN AILES, Millwright.

Alloway, September 3, 1838.

This may certify that I have had in my Mill one of Mr. Howd's direct water wheels for the space of one year. It is a five feet wheel, find I have had a re-action in the same place—I have also had Wheeler's Union Wheel, yet I think Mr. Howd's will do more business with less water than any other I have tried. It does well in back water. I have had from 5 to 6 feet head. I think we could do as much work with half the water as we used to do with the under shoot wheel, which has also been in operation in my mill.

LAWRENCE RILEY.

Lyons, September 3, 1838.
This may certify, that we have used one of S
Howd's patent water Wheels since December
last, by the side of a re-action wheel, and we
think that Howd's will do double the business think that Howd's will do double the business, with the same water that the re-action wheel will door very near. We never have but three feet head, and can grind with that eight bushels per hour. We are-subject to back-water. This wheel will do as good business under back water as the re-action, and we recommend it to the attention and patronage of the public.

Philadelphia, Dec. 19, 1838.

Sir:—Being on a visit to Philadelphia, from my native village of Germantown, I joyfully avail myself of the opportunity of adding a few words of recommendation to your celebrated Pills, to the abundant testimony already given in their favor. About four years ago, I was attacked with Dyspepsia, and for several years suffered from that complaint in its worst stages. Notwithstanding I tried every thing that came before the public, I obtained no relief, till I accidentally saw your advertisement. From the numerous and respectable testimonials which accompanied it, I had some faint hopes that your medicine might not prove altogether use-

medicines, but none would cure me. At last, my physician gave me up; but fortunately one day as I was speaking to a friend on the subject he told me that Dr. Wm. Evans' Camomile Pills were the only medicine that would cure me, of which I purchased some, and the result hat I am now enjoying perfect health. In Dystresia they stand unrivalled many have been cured in a few weeks after having suffered under this dreadful complaint for years.

In habitual Costiveness they are decidedly superior to any Vegetable Pills ever yet discovered, and besides this they are recommended by all the eminent and leading members of the medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invelocine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invelocine, they would only make trial of: this invaluable medicine, they would only make trial of: this invelocine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invelocine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this invaluable medicine, they would only make trial of: this illevials and they would only make trial of: this illevials and they would only make trial of: this illevials and they would

12 Because as well as being an unrivalled purifier of the general system, they are a sover-legir remedy for sick head-ache.

13 Because they differ from the majority of medicines, in the fact that the more they are known the more they are approaved.

14 Because as their application creates not debility in the system, they may be taken with out producing any hindrance to business or the usual pursuits of every day life.

15 Because when once introduced into a family, or a village, they almost immediately take the precedence of all other medicines in general complaints.

Because a number of the wonderful cures hey have effected, can be substantiated without

any undue means being resorted to, to procure invalid testimonies.

17 Because their composition is such, that they are equally applicable to the usual diseases of warm, cold, or temperate climates.

18 Because two or three, are in general sufficient for a dose—so that, as is the case with the generality of patent medicines—the patient is not compelled to make a neal of them.

19 Because each individual pill is put up under the immediate superintendence of the proprietor, so that no mistake in the composition or quantity can possibly occur through the carelessness of a less interested agent.

20 Because they purify the frame without

20. Because they purify the frame without ebilitating the system.
21. Because, no withstanding their immense

21 Because, notwithstanding—their immense popularity, no person has ever ventured to raise against them the breath of censure, which would not liave been the case, if envy could have diegovered in them a single flaw to cavil at, 22 Because—(and this fact is of the utmost importance)—ladies in a certain situation may take them, (not more than two or three at a time however!) without in the slightest degree incurring the hazard of abortion. Were the virtues of Peters' inestimable pills, confined to this desirable end alone, it would give them a decided advantage over the medicines of all competitors, as in no cases is there more danger to be apprehended, or for which so few have been discovered, as the one referred to.

operations whe had so children and even to infants, in small quantities, half a pill for instance, without the slightest danger.

24 Because their virtues are acknowledged to stand pre-eminent, for their soothing influence upon young ladies while suffering from the usual changes of life, as directed by the laws of Nature.
