Siri—Being on a visit to Philadelphia, from my native village of Germantown, 1 joyfully avail myself of the opportunity of adding a few words of recommendation to your celebrated Pills, to the abundant testimony already given a boot for your very said. in their favor. About four years ago, I was attacked with Dyspepsia, and for several years suffered from that complaint in its worst stages. Notwithstanding I tried every thing that came before the public, I obtained no relief, till I accidentally saw your advertisement. From the numerous and respectable testimonials which accompanied it, I had some faint hopes that THE subscribers will lease for one of more years, their valuable Tan Yard, with all its appendages. It is one of the best locations in Virginia for carrying on the business on an extensive scale, as there is abundant room and the materials are ample. A number of the Vats are under cover, and all the buildings are of the most suitable kind—besides the grinding of Bark (which can be got convenient and at fair prices,) is done by water power.

Any quantity of Hides can be procured in the neighborhood, as there is no other xannery with-

the use of your invaluable medicine (CAMOMILE PILLS.) I was for five years very seriously troubled with Dysp. psia, which caused a nervous sensation throughout my system—so much that I sometimes shook as if I had been afflicted with palsy; during all this time. I took many medicines, but none would cure me. At last, my physician gave me up; but fortunately one day as I was speaking to a friend on the subject he told me that Dr. Wm. Evans' Camomile Pills were the only medicine that would cure me, of which I purchased some, and the result is that I am now enjoying perfect health, Any is that I am now enjoying perfect health, Any person wishing to see me can call at my house, No. 365 North Front street, Philadelphia.

To preserve, therefore, that health by NATURAL means, is therefore, that health by NATURAL means, is a round political scheme to be recommend and bolitical scheme to be recommend and bolitical scheme to be recommended.

These medicines cure all diseases which admit of a cure, and many heretofore deemed incurable.

They may be given with safety to the weakest patient, and under every circumstance and stage of human suffering, and to children of the most tender age.

None offered for sale within the aforesaid districts are genuine, unless each box or package have a fac simile of James Morrison's signature, with a sac simile of the signature of A. D. Olmstead, G. But still there are some in which they are more especially beneficial than in others; and among those may be cial than in others; and among those may be named the too often fatal Complaints of the stomach and bowels, such as Cholic, Flatulence, and Indigestion, for which they are not only a certain but an immediate cure.

It is well known that from the disarrangement of the stomach and bowels, arise nine tenths of all the maladies of adult and declining life; that this is the foundation of Flatulency. Liver Complant, Consumption, and habitual lowness of spirits; therefore Peters' Pills being the very best medicine which has ever been discovered for the interior and best medicine which has ever been discovered for the incipient diseases of the intestines, are necessarily the surest preventives of those dreadful, and also general disorders, which embitter mature life, and drag so many millions to unimely graves.

In speaking thus Dr. Peters arrogates nothing to himself that has not been conceded by the public. extent unprecedented in the annals of medicine, that makes him careful to arrest nothing which is not borne out by the most infalible proof, and hence he does not fear to be put to the test in any thing which he has promised respecting his Pills.

Dr. Peters is most happy to be able to state, on the authority of a great number of regular physicians, that wherever his Vegetable Pills have been introduced, they have almost superceded the adoption of mercurial experiments, for their peculiar laculty in sweetening the blood, and stimulating it to expel all noxious juices, and in giving strength and tone to the nerves, prevents disease from acquiring that strength which must be got under, if at all, by dangerous remedies.
