Goelicke's Matchigss Sanalive. The article published below concerning the new and popular describe advanced by the illustrious Goelicke of Germany, cannot fail of exciting a deep and thrilling interest throughout the country.

[Translated from the German.] LOUIS OFFON GOELICHE,

OF GERMANY.

THE GREATEST OF HUMAN BENE FACTORS.

Citizens of North and South America,
To Louis Offon Goelicke, M. D. of Germany, Europe, belongs the imperishable honor of adding a NEW and PRECIOUS DOCTRING to the Science of Medicine—a new-doctrine which, though vehemently opposed by many of the faculty, (of which he is a valuable member) he culty; (of which he is a valuable member) he proves to be as well founded in truth as any doctrine of Holy Writ—a doctrine, upon the venty of which are suspended the lives of millions of our race, and which he boldly challenges, his opposers to refute, viz: Consumption is a disease always occasioned by a disordered state of Vis Vites, (or Life Principle) of the human body often secretly lurking in the system for years before there is the least complaint of the lungs—and which may be as certainly, though not so quickly cured, as a common cold, or simple headach. cured, as a common cold, or simple headache.

An invaluably precious doctrine this, as it imparts an important lesson to the aliparently parts an important lesson to the alpharently healthy of both sexes, teaching them that this insidious foe may be an unobserved immate of their "clayey houses" even while they imagine themselves secure from its attacks, teaching them that THE GREAT SECRET IN THE ART OF PRESERVING HEALTH IS TO PLUCK OUT THE DISEASE WHILE IN THE BLADE, AND NOT WAIT TILL THE FULL GROWN EAR.

This illustrious benefactor of man is also entitled to your unfeigned gratifude, and the grati

tled to your unfeigned gratitude, and the gratitude of a world, for the invention of his Matchless Sanative,—whose healing fiat may justly claim for it such a title, since it has so signally triumphed over our great common enemy consumption, both in the first and last stages,—a
medicine which has thoroughly filled the vacuum in the Materia Medica, and thereby proved
itaelf the Conqueror of Physicians—a medicine,
for which all mankind will have abundant cause
beless the begingent bard of a kind Paguidage. to bless the benificent hand of a kind Providence a medicine whose wondrous virtues have been so glowingly portrayed even by some of our clergy, in their pastoral visits to the sick chamber; by which means they often become the happy instruments of changing despondency into hope, sickness into health, and sadness of friends into ionfulness

Goelicke's Matchless Sanative, a medicine of more value to man than the vast mines of Austria, or even the united treasures of our globe—a medicine, which is obtained equally from the vegetable, mineral and animal kingdoms, and thus possesses a three-fold power,—a medicine, which, though designed as a remedy walling to possessed of a myster walls. for consumption solely, is possessed of a mysterious influence over many diseases of the human system,—a medicine, which begins to be valued by Physicians, who are daily witnessing its as-

by Physicians, who are daily witnessing its astonishing cures of many whom they had resigned to the grasp of the Insatiable Grave.

Dose of the Sanative, for adults, one drop; for children, a half drop; and formfants, a quarter drop, the directions explaining the manner of taking a half or quarter drop.

To Millers & Manufacturers. HOWD'S IMPROVED DIRECT ACTION WATER WHEEL.

THE public are informed that the subscriber has bought the right of the above water wheel, for the State of Pennsylvania. It is considered by those having them in use, as one of the most important improvements that has ever been introduced. Persons desirous of seeing the wheel, can do so, by calling at the foundry of DAVID COCKLEY, Lancaster. The annexed certificates have been given as a slight testimonial of its value; they will speak for themselves. All communications addressed to the subcriber in Lancaster, Pa., will be promptly attended to. MICHAEL M'MATH.

This is to certify, that I have put in one of Howd's Patent Cast Iron Direct. Action Water Wheels, in the place of a Reaction Wheels that the Direct Wheel does not flood the tail race as much by three inches as the reaction did, and that I can grind seven bushels with the direct action wheel an hour, and drive two run of stones, where I could not grind four bushels in the same time with the reaction and drive one run of stones.

PETER FAHNESTOCK. Ephrata tp., Lan. co. Oct. 1838.

Alloway, May 5, 1838.
This may certify, that I have been engaged in putting in S. B. Howd's cast iron direct action Water Wheel, both in the State of New York and in Michigan, and can give it as my decided opinion that with 8 feet head or under, rightly put in, it will do more business with the me water than any other water wheel which I have yet had any experience in, and in reference to back water, is second best to done that I have vet tried. In reference to guarding a gainst ice, there can be no better operation, and it is very easy to be kept in repair. STEPHEN AILES, Millwright.

Alloway, September 3, 1838.
This may certify that I have had in my Utill one of Mr. Howd's direct water wheels for the space of one year. It is a five feet wheel, and I have had a re-action in the same place—I have also had Wheeler's Union Wheel, yet I think Mr. Howd's will do more business with less water than any other I have tried. It does well in back water. I have had from 5 to 6 feet in back water. I have had from 5 to 6 feet head. I think we could do as much work with half the water as we used to do with the under

shoot wheel, which has also been in operation in my mill. LAWRENCE RILEY. Lyons, September 3, 1838.
This may certify, that we have used one of S. Howd's patent water Wheels since December last, by the side of a re-action wheel, and we think that Howd's will do double the business. think that Howd's will ab double the business with the same water that the re-action whee will door very near. We never have but three feet head, and can grind with that eight bushed per hour. We are subject to back water. This wheel will do as good business under back wa ter as the re-action, and we recommend it to the attention and patronage of the public.

DYSPEPSIA! DYSPEPSIA!!

ORE testimonials of the efficacy of Dr. Wm. Evans' Camomile Pills.

Philadel/hia, Dec. 19, 1838.

Sir:—Being on a visit to Philadelphia, from my native village of Germantown, I jnyfully avail myself of the opportunity of adding a few words of recommendation to your celebrated Pills, to the abundant testimony already given Pills, to the abundant testimony already given in their favor. About four years ago, I was attacked with Dyspepsia, and for several years suffered from that complaint in its worst stages. Notwithstanding I tried every thing that came before the nublic, I obtained no relief, till I active the nublic that the nublic th surered from that compaint in its worst stages. Notwithstanding I tried every thing that came before the public, I obtained no relief, till I accidentally saw your advertiscment. From the numerous and respectable testimonials which accompanied it, I had some faint hopes that your medicine might not prove altogether useless in my own case. I tried it, and it is scarcely necessary to add was shortly cured. Indeed the success was greater than I could possibly have anticipated from even the warmest, recommendations. As a small return for the benefit you have bestowed, I send you this acknowledgment of my thanks and the deep sense of obligation or my thanks and the deep sense of objection under which I feel myself toward you. Having implicit confidence in the efficacy of your Camomile Pills, and Teeling it due to my fellow sufferers, I would warmly entreat all who may be dragging on their existence under the influence of the contract of the of that scourge of the human family, Dyspepsia, to lay aside their early prejudices against—such remedies, and—apply to you, that they may receive a speedy and permanent restoration.

I still reside in Germantawn, though I frequently visit the city, and will willingly give any

further information that may be desired. Ever gratefully yours, T. B. WILLIAMS.

S there no cure for that distressing disease? is the echo from thousands. Read the many certificates of cures performed by Dr. Wm. Evans' C momile Tonic and Family Aperient Pills, The following certificate most certainly convince every person of the great efficacy of this invaluable medicine!

Dr. Wm. Evans—Dear Sir:—I can never be grateful enough for the cure I have received by the use of your invaluable medicine (CAMOMILE Pills.) I was for five years very seriously froubled with Dysp. psia, which caused a hieriroubled with Dysp psia, which caused a fiery yous sensation throughout my system—so much that Isometimes shook as if I had been afflicted with ralsy; during all this time. I took many medicines; but none would cure me. At last, my physician gave me up; but fortunately one day as I was speaking to a friend on the subject he told me that Dr. Wm. Evans? Camomile Pills were the only medicine that would cure me, of which I purchased some, and the result is that I am now enjoying perfect health. We know that health, and the ability to labor is the wealth of the great mass of the heople in this as in most other countries. To-preserve, therefore, that health by NATURAL means, is a grand moral and political scheme, to fulfil which requires our utmost attention.

THE unparalleled reputation which Peters' Pills have acquired as a Medical Restorative, is the most unquestionable proof that can be given of their immense importance to the afflicted.

imely graves.
In speaking thus Dr. Peters arrogates nothing to himself that has not been conceded by the public. He is no needy quack or unknown speculator, who comes before the world as his own herald and witness, but is placed in a responsibility of situation by the patronage which he has enjoyed for years, and which is increasing to an extent unprecedented in the annals of medicine, that makes him careful to arrest nothing which is not borne out by the most infalible proof, and hence he does not fear to be put to the test in an

thing which he has promised respecting his Pills
Dr. Peters is, most happy to be able to state on the authority of a great number of regular physicians, that wherever his Vegetable Pills have been introduced, they have almost superceeded the adoption of mercurial experiments, for their peculiar faculty in sweetening the blood, and stimulating it to expel all noxious juices, and in giving strength and tone to the nerves, pre vents disease from acquiring that strength which must be got under, if at all, by dangerous reme-

UACKS & THEIR DESTRUC-TIVE NOSTRUMS.—The united test-

of physicians throughout the United States has fully proved the fact that Peters' Vegetable Pills are the only true Vegetable Pills which will stand the test of analyzation; hence the proprieor would most earnestly urge them to the notice cathartics or aperients, the destructive and irritating quack pills so generally advertised, and which are at best but slow consumers of the vital functions, and murderous agents, even to the most hale. It is true, most of them produce a purgative effect, and sometimes transient relief, but in most cases they injure the digestive or-goes, and an habitual resort to them must ter-

minate in confirmed dyspensia, nmade in committee divisions and aperient medicines re-often required, but the nicest discrimination hould always be observed in the selection; and, f this be done, nothing injurious can result from

their use.

"To produce this much desired result, Dr. Peters has made it his study for soveral years and feels proud to say he has succeeded at length far beyond his expectations. The object of his pills s to supercede the necessity of a frequent recourse to injurious purgatives, and to offer a me dicine safe, certain, and pleasant in its operation.

R. SWAYNE'S COMPOUND SYRUP OF PRUNUS VIRGINIANA, or WILD CHERRY.—This medicine is offered to the public as an effectual remedy in all affections indicative of Pulmonary discases, both in their recent and more advanced stages; such as Asthma, Pulmonary Consumption, peccent or chronic coughs, hoarseness, hooping cough, wheezing, and difficulty of breathing, spitting of blood, night sweats, &c. This remedy is highly useful to persons whose nerves have been injured by calomel or excessive grief, great loss of blood, the suppression of accustomed discharges, or cutaneous cruptions, intemperate habits, or other causes which tend to renovate or relax the nervous system. How many persons do we daily cent and more advanced stages; such as Asthma, neryous system. How many persons do we daily behold approaching to an untimely grave, wrest-ed in the bloom of youth from their dear relatives and friends, afflicted with that common and destructive ravager, called Consumption which soon wastes the miscrable sufferer until they become beyond the power of human skill. If such sufferers would only make a trial of Dr. Swayne's invaluable medicine, they would soon find them selves more benefitted than by gulphing the various ineffective remedies with which our papers daily abound. This syrup immediately begins to heal the ulcerated lungs, stopping profuse night sweats, mitigating the distressing cough, and at the same time inducing a healthy and natural expectoration also relieving the and natural expectoration also relieving the shortness of breath, and pain in the chest, which harrass the sufferer on the slightest exercise, and finally-the-hectic flush in the palid and e-

by their healthy influence on the excited state of the body, they have a most happy effect, in calming and invigorating the mind.

11 Because they effect their cures without the usual attendants of other pills, sickness and

gripings.

12 Because as well as Baing an unrivalled

12 Because as well as being an unrivalled purifier of the general system, they are a sovereign remedy for sick head-ache.

13 Because they differ from the majority of medicines, in the fact that the more they are known the more they are approved.

14 Because as their application creates no debility in the system, they may be taken without producing any hindrance to business of the usual pursuits of every day life.

15 Because when once introduced into a family, or a village, they almost immediately take the precedence of all other medicines in general complaints.

16 Because a number of the wonderful cures they have effected, can be substantiated without any undue means being resorted to, to procure invalid testimonies.

17 Because their composition is such, that

they are equally applicable to the usual diseases of warm, cold, or temperate climates. 18 Because two or three, are in general suf-

18 Because two or three, are in general sufficient for a dose—so that, as is the case with the generality of patent medicines—the patient is not compelled thanke a meal of them.

19 Because each individual pill is put up under the immediate superintendence of the proprietor, so that no mistake in the composition or quantity can possibly occur through the carelessness of a less interested agent.

20 Because they purily the frame without lebilitating the system.
21 Because, notwithstanding their immense

21 Because, notwithstanding their immense popularity, no person has ever ventured to raise against them the breath of censure, which would not have been the case, if envy could have discovered in them a single flaw to cavil at.

22 Because—(and this fact is of, the utmost importance)—ladies in a certain situation may take them, (not more than two or three at a time however!) without in the slightest degree incurring the hazard of abortion. Were the virtues of Peters' inestimable pills, confined to this desirable end alone, it would give them a decided advantage over the medicines of all competitors, as in no cases is there more danger to be apprehended, or for which so few have been discovered, as the one referred to.

23 Because while they are so efficient in their operations with adults they may at the same time be administered to children and even to infants, in small quantities, half a pill for instance, with-

out the slightest danger.

24 Because their virtues are acknowledged
to stand pre-eminent, for their soothing influence
upon young ladies while suffering from the usual

changes of life, as directed by the laws of

maciated clieck, will soon begin to vanish, and the sufferer will here perceive himself snatched from a premature grave into the enjoyment again of comfortable health. LIFE AND HEALTH.

DERSON'S whose nerves have been injured by calomel, or excessive grief, great loss of cuod, the suppression of accustomed discharges or cutaneous eruptions; intemperate habits, or other causes which tend to relax and enervate the nervous system, will find a friend to soothe and comfort, in EVANS' CAMOMILE PILLS. and comfort, in EVANS' CAMOMILE PILLS. Those afflicted with Epilepsy or Falling Sickness, Palsy, Serious Apoplexy, and organic affections of the heart, nausea, vomiting, pains in the side, breast, limbs, head, stomach or back, will find themselves immediately relieved, by using EVANS' CAMOMILE and APERIENT FILLS. Dr. Evans does not pretend to say that in all debilitated and impaired constitutions—in nervous diseases of all kinds, particularly of the digestive organs, and in incipient consumption, whether of the lungs or liver, they will cure. That dreadful disease, Consumption, wight have been checked in its commencement, and disappointed of its prey all-over the land, if the first symptoms of nervous debility had been counteracted by the Camomile Flower chemically prepared, together with many other diseases, where other remedies have proved fatal.

How many persons do we daily find tortured with that dreadful disease, Sick Headache. If they would only make trial of this invaluable medicine, they would perceive that life is a pleasure and not a source of misery and abhorrence. In conclusion I would warn nervous persons against the abstraction of blood faither. persons against the abstraction of blood, either by leeches, cupping, or the employment of the lancet. Drastic purgatives in delicate habits are almost equally improper. Those are practices too often resorted to in such cases, but they seldom full to prove highly injurious. Certificates of cures are daily received which add sufficient testimony of the given efficient cest of this in.
