Goelcke's Matchless Sanative.
The article published below concerning the new and popular doctrine advanced by the illustrious Goelcke of Germany, cannot fail of exciting a deep and thrilling interest throughout the country.
[Translated from the German.]
LOUIS OFFON GOELCKE,
OF GERMANY.
THE GREATEST OF HUMAN BENEFACTORS.

Citizens of North and South America,
Go LOUIS (DEGG) GOELCKE, M. D. of Germany, Europe, being the imperishable honor of adding a new and precious doctrine to the Science of Medicine—a new doctrine which, through vehemently opposed by many of the faculty, (of which he is a valuable member) is proved to be as well founded in truth as any doctrine of Italy Witt—a doctrine, upon the verity of which are suspended the lives of millions of our race, and which he boldly challenges his opposers to refute. viz: Consumption is a disease, arising from a disorder in the state of the VITA, OR LIFE PRINCIPLE, of the human body, often secretly lurking in the system for years before there is the least complaint of the lungs—and which, may be as certainly, though not so quickly cured, as a common cold, or simple headache.

An individual, who has been afflicted with this disease, has an important lesson to be learned, to the health of both sexes, teaching them that this insidious foe may be an unobserved inmate of their "clayey houses," even while they imagine themselves secure from its attacks, teaching them to your unfeigned gratitude, and the gratitude of PRESERVING HEALTH IS TO PLUCK OUT THE DISEASE WHILE IN THE BLADE, AND NOT WAIT TILL THE FULL GROWN EAR.
This illustrious benefactor of man is also entitled to your unfeigned gratitude, and the gratitude of a world, for the invention of his *Matchless Sanative*,—whose healing fiat may justly claim for it such a title, since it has so signally triumphed over our great common enemy consumption, both in the first and last stages,—a medicine which has so nobly filled the vacuum in the Materia Medica, and thereby proved itself the *Conqueror of Physicians*—a medicine, for which all mankind will have abundant cause to bless the beneficent hand of a kind Providence—
A medicine whose wondrous virtues have been so gloriously proved by some of our clergy, in their pastoral visits to the sick chamber, by which means they often became the happy instruments of changing dependants into hope, sickness into health, and sadness of friends into joyfulness.

Goelcke's Matchless Sanative, a medicine of more value to man than the vast mines of Austria, or even the united treasures of the East Indies, is a medicine which is obtained equally from the vegetable, mineral and animal kingdoms, and possesses a three-fold power,—a medicine, which, though deemed as a remedy for consumption solely, is possessed of a mysterious influence over many diseases of the human system—a medicine, which has been so highly valued by Physicians, who are daily witnessing its astonishing cures, many who they had resigned to the grasp of the Insatiable Grave.
Dose: of the Sanative, for adults, one drop; for children, a half drop; and for infants, a quarter drop; the directions respecting the manner of taking a half or quarter drop.
Price:—Three and one-third six dollars; (\$2.50) per half ounce.
A German coin, value, 75 cents.

IMPORTANT

To Millers & Manufacturers. HOWD'S IMPROVED DIRECT ACTION WATER WHEEL.
THE public are informed that the subscriber has bought the right of the above water wheel, for the State of Pennsylvania. It is considered by those having them in use, as one of the most important improvements that has ever been introduced. Persons desirous of seeing the wheel, can do so, by calling at the foundry of DAVID COCKLEY, Lancaster. The annexed certificates have been given as a slight testimonial of its value; they will speak for themselves. All communications addressed to the subscriber in Lancaster, Pa., will be promptly attended to.
MICHAEL M'MATH.
April 11, 1839. 1y

[Copy.]
This is to certify, that I have put in one of Howd's Patent Cast Iron Direct Action Water Wheels, in the place of a Reaction Wheel; that the Direct Wheel does not foul the tail race as much by three inches as the reaction did, and that I can grind seven bushels with the direct action wheel an hour, and drive two run of stoves, where I could not grind four bushels in the same time with the reaction and drive one run of stoves.
PETER FAHNESTOCK.
Ephrata tp. Lan. co. Oct. 1838.

Alloway, May 5, 1838.
This may certify, that I have been engaged in putting in S. B. Howd's cast iron direct action Water Wheel, both in the State of New York and in Michigan, and can give it as my decided opinion that with 8 feet head or under, rightly put in, it will do more business with the same water than any other water wheel which has ever had water experience in use, and in reference to back water, is second best to none that I have yet tried. In reference to guarding against ice there can be no better operation, and it is very easy to be kept in repair.
STEPHEN ALLES, Millwright.

Alloway, September 5, 1838.
This may certify that I have had in my mill one of Mr. Howd's direct water wheels for the space of one year. It is a five feet wheel, and I have had a reaction in the same place—I have also had Wheeler's Union Wheel, &c. I think Mr. Howd's will do more business with less water than any other I have tried. It does well in back water. I have had from 5 to 6 feet head. I think we could do as much work with half the water as we used to do with the reaction wheel, which has done well in operation in my mill.
LAWRENCE RILEY.
Leans, September 3, 1838.

This may certify, that we have used one of S. B. Howd's patent water wheels in our mill, and we think that Howd's will do double the business, with the same water that the reaction wheel will do very near. We never had but three feet head, and can grind with that eight bushels per hour. We are subject to back water, and our wheel will do as good business under back water as the reaction, and we recommend it to the attention and patronage of the public.
