Commodore Elliott .- This gentleman, whom we consider "more sinned against than sinning," has recontly been attacked by Tristram Burgess of Rhode Island, in a pamphlet, in which old and stale slanders that have been disproved years ago are again hatched up to please the New England blue light federalists, who, it would appear, never can forgive the object of their detraction for plac ing the figure head of Gen. Jackson upon the Fri gate Constitution, in Boston harbor, some six vents ago. This unpardonable offence, in their eyes, together with the fact that the Commodoro is considered by some of the boys in the navy too strict and rigid a disciplinarian, are the great moving causes of the vituperation and abuse which are constantly heaped upon him from a certain quar-

As a matter of justice to Commodore Elliott, we give place this week to a communication from a highly respectable source, the writer of which has been long and intimately acquainted with that officer, and whose opportunities of knowing his true character and standing have been many. We inwite for the production an attentive perusal.

Strange Coincidence .- A few days ago, as several gentlemen were assembled in a barber shop in this town, one of them an old revolutionary veteran, whose eyes have grown dim with years, but Senatorial district, of 979 votes in the short space whose thoughts are always, reverting back to the "time that tried men's souls," accosted another person present with this interrogatory-"Can you tell me, sir, what countryman Annold was?"shots do as much injury sometimes as regular displaces it was the least welcome. Reader, who was no less a personage than the celebrated politprosecuted a printer for publishing a toast which compared him to Benedict Arnold, so well known in revolutionary history as the traiter who was willing to sell the liberties of his country for filthy lucro. The other was old Mr. Hutton. The question put by the old man must have been gall and wormwood to the very soul of this political trimmer. He hommed and hawed-twisted and turned-and finally left the shop without being able (or willing at least,) to answer the question satisfactorily. "A guilty conscience needs no accuser."

Last year-ac couraged to return, and but little danger is to be cording to the report of the Senate which made Gov. Porter's majority about 5000 less than it really was—the vote stood: Porter 127,821—Ritner 122,325—Democratic majority 5,496.

From the above our readers will perceive that was still raging. It had assumed a new character the democratic majority in this State, has been increased in one year upwards of TWENTY-FIVE At Mobile, on the 18th ult., no improvement in THOUSAND VOTES! The State has been under the control of the Federalists for the last two years—and if a we had any right to calculate upon with certainty. All we had reason to expect was a gain to the Democratic party, on the vote of the last two years. Next week we shall be able to furnish our readers with the result.

New Jersey .- The aggregate democratic majority in this State at the recent election, as ascertained from the official returns, is 2236. Will the five federal pretended members of Congress who were defeated last year by 83 votes, but who nevertheless received the certificate of election from a federal Governor contrary to all law and justice, now persist in claiming their seats at the meeting of Congress? That men consenting to receive a fraudulent certificate would be willing to take their seats upon it, we do not doubt, even if the popular majority against them was ten times as large; -but that they will be permitted so far to outrage decency itself, we cannot for one moment believe. The federalists tried that game last winter at Harrisburg, and were foiled-if they attempt it at Washington this winter, they will be equally disappointed. This is our opinion of the matter.

Loss by Fire .- It is estimated that during the month of October, property has been destroyed by fire in the United States, to the amount of four millions of dollars.

The Sum required is now stated to be only £180,000. The manner in which the Bank has come forward has given great satisfaction, and it is generally thought that this disem-barrassment from so large an amount of deprecated Stock, will be a sensible relief to its coffers; especially if the vacuum is supplied by specie from America.

### THE "GREAT REGULATOR."

Facts are being developed which begin to show pretty plainly that the recent move-ment of the Bank of the United States will be something more than a mere suspension. That she has sustained heavy losses, may be gathered from the fact that, apart from the usual drawback in the shape of bad debis? and from the character of some of her loans which have come to our knowledge, we should suppose she has held a large amount of stocks of various kinds; it is said, as much as \$4,000,000, for which it is fair to presume she gave as much at least as 30 per cent. above that which they will now command. If this be the case, and we see no reason to doubt.it, this one item may deduct some 10 or \$12,000,000 from her nominal capital. Then there are her heavy losses on her cotton speculations-losses which we have seen estimated by sagacious financiers at some 7 or \$8,000,000 more; to which are to be added the damages on her protested European bills, and the enormous sacrifices she has made in the sale of post notes also estimated at \$12,000,000; and a grand aggregate of losses, of upwards of \$30,000,-000, is produced! If the bank shall be called on to wind up its affairs, and shall have to deduct all these loses from its capital, and quated slander which has been refuted years a period, however, for envious and maligago. We all know that of the 450 officers of the general government, located at Washington, about 200 Whige have been allowed to come in for their crumbs of comfort, but of the 851 office-holders under the state government of Massashusetts, there are but two who belong to the Democratic ranks,

> per annum, and its population 701,000. So It is worthy of cemark that the draining that there is in this Commonwealth, one f the Bullion from England to the Contipublic revenue, and one to every 845 souls, men, women and children! Taking the actual voters at say 100,000, and there is one

power, and pay, where one in 62 has or

hopes to have an office.
Of the 850 officers 61 are chosen by the people 29 by the legislature, 497 are nominated by the Governor, and 423 subordinates under the Governor and Legislature."
