Mr. Vm. Tucker, having lately been restored to a sound state of health, through the efficacy of Dr. Hunt's Botanic Pills, thinks it an indispensable duty to state certain facts relative to the disease under which he had so long suffered. The symptoms were a painful obstruction, with a constant rejection of food, head-ache, palpitation of the heart, lowness of spirits, a trouble-some dry cough, dizziness, tightness at the chest and difficulty of breathing, almost constant pain in the side; loins, and shoulders, accompanied with much languor and debility. These afflictions, together with an unusual degree of flatulence, brought on such a state of extreme weakness, as to prevent him from attending to his business, and his health appeared lost beyond receive visits from customers, and furnish them at the shortest notice with any thing in their line of business, such as

DR. WM. EVANS' SOOTHING SYRUP. FOR CHILDREN TEETHING.

To Mothers and Nurses.

The passage of the teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gumsswell, the secretion of the saliva is increased, the child is seized with frequent and sudden fits of crying, watching, starting its sleep, and spasms of peculiar parts; the child shricks with extreme violence, and thrusts its fingers into its mouth. If these precursary symptoms are not speedily alleviated, spasmodic convisions universally supervene, and soon cause the dissolution of the infant. If, mothers who have their little babes afflicted with these distressing symptoms would apply the celebrated American Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady convulsions.

DR. GOODE'S CELEBRATED FEMALE PILLS

These Pills are strongly recommended to the notice of the ladies as a safe and efficient remedy

These Pills have gained the sanction and approbation of the most eminent Physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. To married females, whose expectations of the tenderest pledges of connubial happiness have been defeated, these Pills may be truly esteemed a blissful boon. They soon renovate all functional debility and if taken (according to directions,) obviate all morbid action. They dispet that fulsome and disagreeable sensation common to females at each monthly return, likewise the attendant pains in the back, side, or -loins; they generally counteract the nausea, vomiting, and other nervous affections in chlorosis, or green sickness, in a few days, (and if continued according to directions,) soon effect a perfect sure.—Nothing is so signally efficacious in recruiting the pallid and sickly female (who has been during her life irregular and sensitive) as the FEMALE

This infallible remedy has preserved hundreds then thought past recovery, from convolsions.

As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it.—
When infants are at the age of four months, though there is no appearance of teeth, one bottle of the syrup should be used on the gums to open the pores. Parents should never be without the syrup in the nursery where there are young children, for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease, by opening the pores and healing the four mends and the poor printer's boy, who at one period of his life had no covering to shelter his head from the dews of night, rent in twain almost universal suffrage, to facilitate instead of they preventing Convulsions, Fevers, and so pleasant, that no child will refuse to let its gums be rubbed with it.—
