SHOCKING FAMINES. Sad Condition of British India-500,000 People Swept off.

British India is an empire as large as Europe, exclusive of Russia, with a population, including tributary States, of more than 150,000,000. Over this empire and people a sway is exercised wholly British; while it is affirmed that ignorance, poverty, crime and disaffection prevail there, to a distress-

ing and alarming extent.
It has been estimated that the famine of 1837 and 1838, in the Upper Provinces of Bengal, swept off more than 500,000 people. The famines of the year 1839, visited the Northern Provinces of Bombay and Madras.

The Asiatic Journal for August, 1838, states that "200,000 were scantily fed daily by Government and private individuals in the north west provinces; yet this is but a faint palliative. The people are dying like dogs-mothers throwing their living children at night into the Jumna-disease destroying numbers whom famine has spared-dogs and jackals actually devouring bodies in which life was not extinct." At Gwalior "hydro-phobia was as fatal as cholera—famine dreadful-horses, asses, buffaloes, every thing that has died a natural death, caten by the natives." At Agra "the police pick up 150 bodies daily."
On the 14th of April, 1838, 78,000 pining

wretches, men, women and children, were fed by bounty at Agra; and between the 1st and 15th of March, 71,523 infirm and sightless creatures were relieved in a similar manner. So great were the ravages of death, that the air for miles was tainted with 'the effluvia from the putrifying carcases of men and cattle, and the rivers of the Jamua and the Ganges were choked up and peisoned by the dead bodies thrown into their channels. The water and fish of these rivers were rejected as unfit for use, and men kept constantly employed in pushing the accumulated-bodies down-the-torrents .- The mortality was at the rate of ten thousand a month; a destruction of life which, if it had continwed, would have swept off the entire popu-

lation in less than a year.

A still more dreadful picture is given in a letter from Calcutta, under date of the 10th of April, which says:-- "Since the despatch of the overland mail per the Berenice, which left Bombay at the close of last month, public attention in this quarter has been engrossed by the accounts which daily reach the capital of the horrid ravages of famine in the previnces to the west and north west. It is impossible to compate the numbers who die in their tedious progress from the desolate districts to the towns where food is procurable. We hear almost daily of mothers deserting their children on the highways—of and then covering the head with a flannel night covering the head with a fl infants crawling around the granaries to pick cap the relief afforded in that painful form of up the grains of rice accidentally scattered during the process of distribution at the doors -of the roads being lined with dead bodies, a prey to the vulture and jackal-of the courses of small rivers actually obstructed by the masses of dead bodies thrown therein, by those who are employed to clear the highways-of the European inhabitants of the large towns of Aga, Cawnpore, &c., being compelled to abandon their evening drive, from the impossibility of encountering the effluvia from the putrid corpses a-

From the Little Rock (Ark.) Gazette, Dec. 18. NEWS FROM THE CHEROKEES.

By Col. T. J. Pew, who arrived here late last evening, four days from Fort Smith, we learn that Jack Nicholson, one of the murderers of Major Ridge, and an Indian named Terrell, and two others, charged with being concerned in disturbances in the Cherokee nation, have been arrested by commands under Lieutenant Porter of the 4th Infantry, and Northrup of the 1st Dragoons. The prisoners are now on their way to this city, under the charge of the U. States Marshal, Major E. Rector, and will be here in a day

The Superintendent of Indian Affairs, Captain Wm. Armstrong, has received instructions to withhold all annuities and payments to the Cherokees, except mere subsistence, until affairs in that nation shall become in a more settled state.

T is sometimes urged that the Rheumatism cannot be cured by external applications.

This may be true sometimes; but it is also certainly true that this dirtressing complaint cannot be cured by internal remedies, except by their long and constant use, by which perhaps, at the same time the system becomes generally deranged, debilitated and destroyed. Even were not this the case how shall the great distress of the sufferer be alleviated while such slow and doubtful remedies have their effect. The answer is plain, candid and most true—use Dr. Klewe's Nerve and Bono Liniment.

No name could be more appropriate. It reaches and snothes the nerver; and allays pains most effectually on its first application, and by a few applications removes more eff. ctually and speedily Rheumatic pains than any internal or exter-nal remedy was ever known to do. Try it and be convinced. For sale by STEVENSON & DINKLE.
