Goelicke's Matchless Sanative. The article published below concerning the new and popular doctrine advanced by the illustrious Goelicke of Germany, cannot fail of exciting a deep and thrilling interest throughout the country.

Translated from the German. LOUIS OFFON GOELICHE, THE GREATEST OF HUMAN BENE-

FACTORS.

Citizens of North and South America,
To Louis Offor Goelicke, M.D. of Germany, Europe, belongs the imperishable honor of adding a new and precious doctrine which, though vehemently opposed by many of the faculty, (of which he is a valuable member) he proves to be as well founded in truth as any doctrine of Holy Writ—a doctrine, upon the verity of which are suspended the lives of millions of our race, and which he boldly challenges, his opposers to refute. viz: Consumption is a disease always occasioned by a disordered state of Vis Vite. (or Life Principle), of the human bodyroften secretly turking in the system for years be fore there is the least complaint of the lungs - and which may be as certainly, though not so quickly ore here is the least compilaint of the lungs - and which may be as certainly, though not so quickly cured, as a common cold, or simple headache.—An invaluably precious doctrine this, as it imports an important lesson to the apparently healthy of both seeks, teaching them, that this insidious for may be an unobserved inmate of their "clayey houses" even while they imagine themselves secure from its attacks, teaching them that THE GREAT SECRET IN THE ART OF PRESERVING HEALTH IS TO PLUCK OUT THE DISEASE WHILE IN THE BLADE, AND NOT WAIT TILL THE FULL GROWN EAR.

This illustrious benefactor of man is also entitled to your unfeigned gratitude, and the gratiude of a world, for the invention of his Marchless Sanative,—whose healing fiat may justly claim for it such a title, since it has so signally triumphed over our great common enemy consumption, both in the first and last stages,—a medicine which has thoroughly filled the various of the survey and the parameters.

LIVER COMPLAINT.

This disease is discovered by a fixed obtase pain and weight to the night side under the short ribs, attended with heat, uneasiness about the pit of the stomach,—there is in the right side and becomes sick and troubled with vomiting. The tongue becomes rough and black, countenance changes to a pale or citron color or yellow, like those afflicted with jaundice—difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left side—the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's Comprund Tonic Strengthening & German Apericat Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the medicine n lew weeks, a perfect cure will be performed. LAWRENCE RILEY.

Lyons, September 3, 1838. This may certify, that we have used one of S. Howd's patent water Wheels since December last, by the side of a re-action wheel, and we think that Howd's will do double the business, with the same water that the reaction wheel will door very near. We never have but three feet head, and can grind with that eight bushels per hour. We are subject to back water. This wheel will do as good business under back water as the re-action, and we recommend it to the attention and patronage of the public, SIMON BURTT, MILES S, LEACH
