The Tonic or Strengthening Pills are to strengthen and invigorate the nerves and digestive organs and give tone to the Stomach, as all diseases originate from impurities of the blood and disordered stomach. This mode of treating diseases is pursued by all practical Physicians, which experience has taught them to be the only remedy to effect a core. They are not only recommended and prescribed by the most experienced Physicians in their daily—practice, but also taken by those gentlemen themselves whenever they feel the symptoms of those diseases, in which they know them to be efficacious.—This is the case in all large cities in which they have an extensive sale. It is not to be understood that these medicines will cure all diseases merely by purifying the blood—this they will not do; but they certainly will, and sufficient authority of daily proofs asserting that those medicines, taken as recommended by the directions which accompany them, will cure a great majority of diseases of the stomach, lungs, and liver, by which impurities of the blood are occasioned.

LIVER COMPLAINT.

This disease is discovered by a fixed obtuse pain and weight in the right side under the short ribs, attended with heat, uneasiness about the pit of the stomach,—there is in the right side also a distension—the patient loses his appetite and becomes sick and troubled with vomiting. The tongue becomes rough and black, countenance changes to a pale or citron color or yellow, like those afflicted with jaundice,—difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left side—the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's Compound Tonic Strengthening & German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the medicine a few weeks, a perfect cure will be medicine a few weeks, a perfect cure will be performed. Thousands can testify to this fact. Certificates of many persons may daily be seen of the efficacy of this invaluable medicine, by applying at the Medical Office, No. 19. North Eighth street, Philadelphia. Also, for sale by I. J. MYERS, & CO.

[COPY.]
This is to certify, that I have put in one of Howd's Patent Cast Iron Direct Action Water Wheels, in the place of a Reaction Wheel; that the Direct Wheel does not flood the tail race as the Direct Wheel does not flood the tail race as much by three inches as the reaction did, and that I can grind seven bushels with the direct action wheel an hour, and drive two run of stones, where I could not grind four bushels in the same time with the reaction and drive one

run of stones.

Alloway, May 5, 1838.

This may certify, that I have been engaged in putting in S. B. Howd's cast iron direct action Water Wheel, both in the State of New York and in Michigan, and can give it as my decided opinion that with 8 feet head or under, rightly put in, it will do more business with the same water than any other water wheel which I have yet had any experience in, and in reference to back water, is second best to none that I have yet tried. In reference to guarding against ice; there can be no better operation, and it is very easy to be kept in repair.

STEPHEN AILES, Millwright.

Alloway, September 3, 1838.
This may certify that I have had in my Will one of Mr. Howd's direct water wheels for the space of one year. It is a five feet wheel, and I have had a re-action in the same place—I have also had Wheeler's Union Wheel, yet I think Mr. Howd's will do more business with less water than any other I have tried. It does well in back water. I have had from 5 to 6 feet in back water. I have then. It does well in back water. I have had from 5 to 6 feet head. I think we could do as much work with half-the water as we used to do with the under shoot wheel, which has also been in operation in my mill. LAWRENCE RILEY.

Lyons, September 3, 1838.

This may certify, that we have used one of S. Howd's patent water Wheels since December last, by the side of a reaction wheel, and we think that Howd's will do double the business, with the same water that the reaction wheel will door very near. We never have but three feet head, and can grind with that eight bushels per hour. We are subject to back-water. This wheel will do as good basiness under back water as the re-action, and we recommend it to the artention and patronage of the public.
