Carllsie, August 1, 1839. R.SWAYNE: Respected Friend:—From the very beneficial effects which I have received from the use of thy Compound Syrup of Wild Cherry Bark, I am fully willing to testify to the astonishing effect—My attack was that of a common cold, which began to threaten something of a more serious nature. Being recommended to use the above Syrup, I finally gave it a trial, and am happy to say it gave me almost instant relief. I have used it frequently, and always with the same beneficial effects. If others would use this medicine at the commendement of their colds and coughs, they would prevent a disease which would be more alarming it its character, and much more obstinate in the cure.

LIVER COMPLAINT.

This disease is discovered by a fixed obtuse pain and weight in the right side under the short ribs, attended with heat, uncasiness about the pit of the stomach,—there is in the right side and becomes sick and troubled with vomiting. The tongue becomes rough and black, countenance changes to a pale or citron color or yellow, like those afflicted with jaundice—difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left side—the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's Compound Tonic Strengthening & German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the will theck it, and by continuing the use of the will check it, and by continuing the use of the medicine a few weeks, a perfect, cure will be performed. Thousands can testify to this fact, Certificates of many persons may daily be seen of the efficacy of this invaluable medicine, by applying at the Medical Office, No. 19 North Eighth street, Philadelphia. This is to certify, that I have put in one of Howd's Patent Cast Ivon Direct Action Water Wheels, in the place of a Reaction Wheel; that the Direct Wheel does not flood the tail race as much by three inches as the reaction did, and that I can grind seven bushels with the direct action, wheel an hour, and drive two run of stones, where I could not grind four bushels in the same think with the reaction and drive one run of stones. .

PETER FAHNESTOCK. Ephrata tp. Lan. co. Oct. 1838.

Alloway, May 5, 1838.

This may certify, that I have been engaged in-putting in S. B. Howd's cast iron direct action Water Wheel, both in the State of New York and in Michigan, and can give it as my decided opinion that with 8 feet head or under, rightly put in, it will do more business with the same water than any other water wheel which I have yet had any experience in, and in reference to back water, is second best to none that I have yet tried. In reference to guarding against ice; there can be no better operation, and it is very easy to be kept in repair.

STEPHEN AILES, Millwright.

Alloway, September 3, 1838.
This may certify that I have had in my Mill one of Mr. Howd's direct water wheels for the space of one year. It is a five feet wheel, and

space of one year. It is a five feet wheel, and I have had a re-action in the same place—I have also had Wheeler's Union Wheel, yet I think Mr. Howd's will do more business with less water than any other I have tried. It does well in back water. I have thad from 5 to 6 feet head. I think we could do as much work with half the water as we used to do with the under shoot wheel, which has also been in operation in my mill.

LAWRENCE RILEY.

Luons, September 3, 1838. This may certify, that we have used one of S. Howd's patent water Wheels since December last, by the side of a re-action wheel, and we think that Howd's will do double the business. with the same water that the re-action wheel will door very near. We never have but three feet head, and can grind with that eight bushels per hour. We are subject to hark-water. This wheel will do as good business under back water as the re-action, and we recommend it to the attention and naturage of the public

SIMON BURT r. MILES S. LEACH. LIVER COMPLAINT: Ten years standing, cured by the use of Dr.

HARLICH'S Compound Strengthening and German Aperient Pills.

Mrs. Sarau-Boyler, wife of William Boyer, North Fourth street above Callowhill, Philadelphia, entirely cured of the above distressing disease. Her symptoms were, habitual costiveness of the bowels, total loss of appetite, excruciating pain in the side, stomach and back, depression of spirits; extreme debility, could not lie on her left side without an aggravation of pain, with other symptoms indicating a great derangement in the functions of the liver. Mrs. Boyer was attended by several of the first Physicians, but received but little-relief from-their medicine—at last, a friend of hers procured at package of Dr. Harlich's Strengthening and German Aperient Pills, which, by the lise of, one package induced her to continue with the medicine, which resulted in effecting a permanent cure, beyond the expectations of her friends.
