The following statement of a remarkable cure of partial paralysis of a limb is from William L. Norton, Esq. a well known and respectable manistrate of Southwark.

Messrs. Vaughan & Peterson—During several weeks I suffered a partial paralysis of the right arm and of the third and fourth fingers of the right hand, which sensibly affected the whole power of the latter, writing became to me a difficult task which I could not execute but with greatly diminished legibility. The use of half a bottle of your Liniment gave entire relief, and I cheerfully hear this testimony to its efficacy.

WILLIAM ASKWITH,

Carlisle: Dec. 26, 1830

Carlisle, Dec. 26, 1839.

This disease is discovered by a fixed obtuse pain and weight in the right side under the short ribs, attended with heat, uneasiness about the pit of the stomach,—there is in the right side also a distension—the patient loses his appetite and becomes sick and troubled with vomiting. The tongue becomes rough and black, countensance changes to a pale or cirron color or yellow, like those afflicted with jaundice—difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left side—the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's Compound Tonic Strengthening & German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the medicine a few weeks, a perfect cure will be performed. Thousands can testify to this fact.

Certificates of many persons may daily be seen of the efficacy of this invaluable medicine, by applying at the Medical Office, No. 19 North Eighth street, Philadelphia. Also, for sale by J. J. MYERS, & CO. MIVER COMPLAINT.
