PRACTICE VS PROFESSION .- There are no more noisy brawlers against proscription for opinion's sake than the federalists—and none who are more ready at denouncing a demoho are more ready at denouncing a democratic Governor or President, if he decins it mer publicly avowed declarations, and obligations. Oh! consistency, thou art a lewelnecessary, in the faithful discharge of his tions, they have thus forfeited all claims to an Can this contemptible changeling, for the opponent. Yet how does their practice correspond with their profession when they get his strict, unswerving adherence to truth now lies course? Can be and assume the brazen imputhe power? Let us look at it in its applica-

tion to our Borough affairs.
At the spring election, the federalists acjor ty of three votes, five of the nine members of Council. This gave them the control assistant in the doing and perfecting of that which of all the little offices at the disposal of that body. Well what have they done? They holy infraction of man's moral duties; the exqui-—but they were afraid to turn him out for careely deign, with gloved hand, to touch a vilo faithfully; supported by the pleasing thought that fear of a popular reaction against them; and plebeian, now familiarly grasss the veriest longer ere the sun went down they should be well as they retained Col. McCLung as President of their body, for the simple reason that he only was qualified for the post, but what else did they do? They dismissed the late efficient Treasurer, and installed in his place one whose sole merit consists in his hightoned aristocrant olde-light principles. But log of wood, andeed me conduct of the Federalists baleful cloud over the sunny sky of all the rest.—

The worst yet remains to be in the erection of their log cabin, and in the drink. There was one present, who by his whole life had proved himself consciously. ported for the office a poor, but highly respectable man who has a family of young children to support by his own industry, extatingly cast his vote for his poor relative— and particularly so as he had pledged himself to his friend that he would go for him

in the ballot. But tell it not in Gath! Publish it not in taken, the poor man was defeated-and that hearted, this unfeeling father-in-law is? We will tell you—and we hope you will remem-ber it against him and his infamous party refused this pittance (in which no principle was involved) to his son-in-law!!

We leave every Parent-every Benevolent man-every Christian in the commu nity to make his own comment: and then ask them if they can support a party whose prejudices carry them so far as to spurn from their embrace the husbands of their daughters, and the motherless orphans who are bone of their bone and flesh of their flesh? If such a party is worthy your support, then should paternal affection and the warmest sympathies of our nature be scouted at as unworthy a place in the human breast.

The Harrison procession on Monday last, made up as it was of the Tories from Adams, the Blue-light Federalists from Franklin, the Anti-Masons from Dauphin, and the "fragments of all factions" from Cumberland, Perry and York counties, numbered exactly 522 men and boys all told! And this was the procession which was to number 3000 according to the prediction of the Log what a long pull; you are full blooded at any rate. The German Merient Pills are to cleanse the stomach and purify the Blood. The Tonicon Strengthening Pills are to strengthen and invigorate the nerves and diseases originate from impurities of the blood and disordered stomach. This mode of treating diseases is pursued by all practical Physicians, which experience has taught them to be to only diseases is pursued by all practical Physicians, which experience has taught them to be the only remedy to effect a cure. They are not only recommended and prescribed by the most experienced Physicians in their daily practice, but also taken by those gentlemen themselves whenever they feel the symptoms of those diseases, in which they know them to be efficacious. This is the case in all large cities in which they have an extensive sale. It is not to be understood that these medicines will cure all diseases merely by purifying the blood—this they will N. RHEUMATISM OF THE HEAD.
Numerous cures in all the above affections have come under the observation of the proprietors. The following statement of a remarkable cure of partial paralysis of a limb is from William L. Norton, Esq. a well known and respectable magistrate of Southwark.

Messrs. Vaughan & Peterson.—During several-weeks I suffered a partial paralysis of the right arm and of the third and fourth fingers of the right band, which sensibly affected the whole power of the lattert writing became to me a difficult task which I could not execute but with greatly diminished legibility... The use of half a bottle of your Liniment gave entire relief, and I cheerfully bear this testimony to its.
