Dyspepsia and Hypocondriacism.
Cured by Dr. Harlich's celebrated Medicines.
Mr. WM. MORRISON, of Schuylkill County, Sixth
street, Philadelphia, afflicted for several years
with the above distressing disease—Sickness at
the stomach, headache, palpitation of the heart,
impaired appetite, acrid eruptions, coldness
and weakness of the extremities, emaciation &
general debility, disturbed rest, a pressure over
the chest, back and sides, stiffness of
pains in the chest, back and sides, costiveness,
a dislike for society or conversation, languor and
lassitude upon the least occasion. Mr. Morrison
had applied to the most eminent physicians,
who considered it beyond the power of human
skill to restore him to health; however, as his
afflictions had reduced him to a deplorable con-
dition, having been induced by a friend of his
to try Dr. Harlich's Medicines, as they being
highly recommended, he procured several
bottles for trial; before using the second
package, he found himself greatly relieved, and
by continuing the use of them the disease en-
tirely disappeared—he is now enjoying all the
benefits of perfect health. For sale by

SHORT FACTS.
TO THE AFFLICTED.
It is sometimes urged that the Rheumatism
cannot be cured by external applications.—
This may be true sometimes; but it is also cer-
tainly true that this distressing complaint can-
not be cured by internal remedies, except by
their long and constant use, by which the system
at the same time the system becomes generally
deranged, debilitated and destroyed. Even
were not this the case how shall the great dis-
tress of the sufferer be alleviated while such
slow and doubtful remedies have their effect?
The answer is plain, cannot be, and must be
at the same time the system becomes generally
deranged, debilitated and destroyed. Even
