Acute Bronchitis, a forerunner of Consumption.

This disease is very much like a common cold, with hoarseness, chilliness, slight cough and oppression and tightness about the breast. In many instances the disease seems at first of no very serious character. As the disease continues its oppression in the throat increases, the respiration becomes more and more laborious, sometimes wheezing or rattling sound, and if the air is forced through a narrow aperture, clothed with a viscous fluid. To neglect this disease it may be of serious consequences, but by a timely application to Dr. Swaney's Compound Syrup of Wild Cherry, with a strict attention to the directions, all these unpleasant effects will be removed. Be careful, not to sit at no place except at No. 19 North Eighth st. or at the respective agents.

SHORT FACTS.

TO THE AFFLICTED.
It is sometimes urged that the Rheumatism cannot be cured by external applications.— This may be true sometimes but it is also certainly true that this distressing complaint cannot be cured by internal remedies, except by their long and constant use, by which perhaps, at the same time the system becomes generally deranged, debilitated, and destroyed.— Even were not the case how shall the great distress and suffering be alleviated while such slow and doubtful remedies have their effect? The answer is plain, candid and most true—use **Dr. Kew's Nerve and Bone Liment.** No name could be more appropriate. It reaches and soothes the nerves, and allays pains most effectually on its first application, and by a few applications removes more effectually and speedily the rheumatic pains than any internal or external remedy ever known to do. Try it and be convinced. For sale by
