### DR. WM. EVANS' CAMOMILE PILLS

A severe case of Piles cured at 100 Chatham street.—Mr. Dan'l Spinning of Shrewsbury, Eden Town, New Jersey, was severely afflicted with Piles for more than 20 years. Had had recourse to medicines of almost every description, also the advice of several emminent Physicians, but never found the slightest relief from any source whatsoever, until he called on Dr. Evans, of 100 Chatham street, N. Y., and procured some medicine from him, from which he found immediate relief, and subsequently a perfect

Mr. Wm. Tucker, having lately been restored to a sound state of health, through thelefficacy of Dr. Hukt's Botanic Pills, thinks it an inof DR. HUNT'S BOTANIC PILLS, thinks it are indispensible duty to state certain facts relative to the disease under which he had so long suffered. The symptoms were a painful obstruction, with a constant rejection of tood, head-ache palpitation of the heart, lowness of spirits, a troublesome dry cough, dizziness, tightness at the chest and difficulty of breathing, almost constant pain in the side, loins, and shoulders, accompanied with much languor and deblity. These afflictions, together with an unusual degree of flatulence, brought on such a state of extreme weakness, as to prevent him from attending to his business, and his health appeared lost beyond recovery. His friends and relatives became a larmed at the melancholy prospect, and strongly recommended Hunt's Botanic Pills—they were administered, and in a few days produced astonishing relief, and finally realized a perfect restoration to sound health.

SOOTHING SYRUP,

FOR CHILDREN TEETHING.

To Mothers and Nurses.

The passage of the teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gums swell, the secretion of the saliva is increased, the child is seized with frequent and sudden fits of crying, watching, starting in its sleep, and spasms of peculiar parts; the child shricks with extreme violence, and thrusts its fingers into its mouth. If these precursary symptoms are not speedily alleviated, spasmodic convalsions universally supervene, and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms would apply the celebrated American Scotling Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady convulsions.

He was my per-sonal friend and advocated my cause in scveral debates of a personal character; but as. a politician I never admired, and like himless now than before-because I think he has lent himself to serve those who during the last war were his worst enemies-those who cursed him for a coward, and all that sort of thing-those who cursed the war and all its advocates-rejoiced at our defeat, and at the success of the enemy-and who now, without any change in either his creed of theirs, extol his military and civil qualifications to the skies-when in fact, I think, as they professed to believe, he never performed any exploits as a General. But what destroys my confidence in his present profess-ed political friends more than any thing else. is—that during the last war, whilst they cursed him for his cowardice and imbecility, I, and many others defended him, not that we believed him to be a great General, but because we were willing to sustain him for the sake of the cause of our common country; and that he was doing as well as he knew how: and notwithstanding they pretended to dread with holy horror the cleva-tion of a 'Military Chieftain' to the office of President in 1828—they now predicate his claims to that office, upon his military exploits. I say that there is something rotten in Denmark, that it is not for the good of the country that they wish to elect him, but to serve their own party designs, in the over-throw of our Democratic form of Government. Neither do they take Harrison as a matter of choice, but of necessity-because
