CARLISLE:

THURSDAY, NOVEMBER 8, 1840.

FOR GOVERNOR IN 1841, DAVID R. PORTER.

STANDING COMMITTEE MEETING.

WHEREAS it has become necessary for the Democratic party to adopt measures to place in nomination a candidate for Congress to supply the vacancy now existing in this Congressional District, and an important means of attaining this object consists in the appointment of Conferees who will select for the candidate such a man as will be most acceptable to the Democracy of the district— And WHEREAS the people have for a long time, and until very recently, been engaged in conducting and accomplishing two important elections, and therefore would not be likely to attend in any considerable number to Township elections for the purpose of electing Delegates to a county Convention— Therefore,

Resolved, That the delegates, who selected the ticket which was run on the 13th, be requested to re-assemble

On Monday next,

the 9th day of November inst. for the purpose of choosing three suitable men as conferees, to meet similar conferees on behalf of the counties of Perry and Juniata, to nominate a suitable person to be supported, at the election about to be held, as a candidate for Congress to fill the vacancy now existing in this District— And that for this purpose said Conferees shall meet such similar Conferees as are or may be appointed by the Democratic Party of Perry and Juniata counties, at such time and place as may be agreed upon.

Resolved, That these proceedings be published in the American Volunteer.

BENJ. MYERS, Chairman. Geo. D. Foulke, Secretary.

WEDNESDAY NEXT, the 11th inst. is the day fixed upon for the meeting of the Conferees at Bloomfield, to nominate a candidate for Congress. The Conferees from this county, to be appointed by the Convention on Monday next, would do well to take notice of this arrangement.

The approaching Courts will afford many of our patrons an opportunity of furnishing us with a little of the "needful." We mean exactly what we say, and we would not say it if it were not sheer necessity. The expenses of carrying on the establishment are necessarily very heavy, and, as we once before stated, we have no income what ever from the books of the late firm. These were assigned to Mr. Corman, for his own use, for his share of the establishment, (this on account of our poverty being the only plan we could adopt to effect the purchase, and he being determined to sell out,) and their disposal throws us entirely upon the liberality of our friends. The partnership was dissolved, on the 11th of June last, nearly five months ago, and, according to the terms of the paper, there would be \$1,000 due from each subscriber (those few who have paid excepted) at the present time. There is also a considerable amount due for advertising and job work. When we state these facts, and inform our patrons likewise, that the income since the 11th of June has not amounted to more than one third the expense of carrying on the establishment, we need say nothing more. Such an appeal cannot be resisted.

The city papers are still filled with the proceedings of the investigation of the frauds perpetrated by the Federalists of Philadelphia and New York, in the spring of 1838 and 1839. The investigation thus far has elicited the fact, that at the election of 1838, about 1600 illegal votes were polled in the city of New York, by which means the four Democratic candidates for Congress were defeated. It is also tendered pretty certain that this wholesale scheme of villainy was concocted and carried out by several of the prominent Federalists in that city and Philadelphia. When the proceedings are brought to a termination, we shall endeavor to present a synopsis of the affair to our readers.

An Old One.—There is said to be living in Moscow, a widow aged 137!

The official returns of the late election in this county will be found in the paper—By which it will be perceived that the Federalists were defeated, there is no doubt in the Democratic vote over the former election of 69 votes. How the Federal vote was so largely increased, or where their voters all came from, is more than we can tell. While the Democratic vote is about the same it was in 1838, when our majority for Governor Porter was 430—the Federal vote has been increased nearly 500, and consequently has placed the county in their hands by 96 majority!

It is useless now to repine at our defeat. We are beaten, it is true—but not vanquished. We still have 2700 "good men and true," who have remained firm in their principles against all the mummery of hard cider and log cabins, and all the allurement and seductions of the money power. These brave hearts and noble spirits will form a nucleus of rallying point hereafter, and old Cumberland will redeem her character at the next trial of strength. We have, moreover, at length got rid of the TRAITORS who have wormed themselves into the party, and who, in consequence of the influence it gave them, enabled them to lead a number of honest but unsuspecting Democrats astray. These political Snakes—these wolves in sheep's clothing are now known. Their movements were watched on Friday last. There were eyes upon them that they little suspected—and we shall take good care to put the people on their guard against them hereafter. Their professions shall not avail them any thing, for so long as we have command of a free press, (and it shall be free while we control it,) we shall not fail, whenever necessity occurs, to advise the people of their treacherous designs. We love an open, honorable opponent—but we despise, from the bottom of our heart, the man who would assume the garb of Democracy for the purpose of carrying out his villainous designs against the party. We look upon such a man as a compound of all that is base and infamous—a second edition of Judas Iscariot, who would sell himself, soul and body, for thirty pieces of silver, and dispose of the liberties of his country for a much smaller sum! But enough for the present.

As we observed before, there are still left 2700 genuine Democrats in the county, who have not shakely bowed the knee to the image of Baal, (the MONEY POWER!) and with this strong and determined phalanx Democracy must again rise, like another Phoenix, from the ashes of defeat, and restore the once fair fame of this ancient republicanism county from the hands of the spoilers. The party will now be purified from the baneful influence of corrupt and designing men, who in an evil hour crept into it, and will receive accessions daily from the honest portion of those who were made the dupes of the enemy.

Electoral elections took place on Monday last, in Connecticut, Rhode Island, Maine, New Hampshire, Virginia, Maryland, Missouri, Illinois, Arkansas, Michigan, Indiana, Kentucky and Georgia. On Tuesday, in Tennessee and Louisiana—On Monday, Tuesday and yesterday, in New York—and on Tuesday and yesterday, in Mississippi and New Jersey.

Massachusetts and Alabama will elect on Monday next—Delaware and Vermont on Tuesday—and North Carolina on Thursday.

The great contest is now over—and whatever may be the result, one thing is certain that there has been a power at work dangerous to the liberties of the people. Should it turn out that Gen. Harrison is elected—and we have our fears that such is the result—his election has been effected by the powerful and corrupting influence of MONEY. Yes! this great Republic, the last refuge of Freedom, the asylum of the oppressed and persecuted of all nations, has been made to follow in the wake of other Republics—and what British arms could not effect, has been accomplished by BRITISH GOLD! Like the Grecians of old, who were conquered by the gold of Persia, the American people have it is feared given in their adhesion to a money oligarchy, made up of British Bankers and American Stock Brokers!—Such is the Despotism that we fear is about searing islydra headed away over the country—and should our worst fears be realized, we tremble for the fate of our beloved country.

Re-assembling of the County Convention.

By reference to another column it will be perceived that the Standing Committee, at their meeting on Monday last, have passed a resolution recommending the late County Convention to re-assemble at the County Hall, in this Borough, on Monday next, the 9th inst., to appoint Conferees who are to meet the Conferees of Perry and Juniata, to nominate a suitable candidate for Congress. This course, we understand, the Committee adopted as the most likely means of having a fair expression of public sentiment—and they did so because of the shortness of the time till the election, and the impossibility of electing and assembling a new Convention at as early a day as would be desirable.

We trust, therefore, that the delegates to the late County Convention, will endeavor to be in attendance on Monday next, and that they will bring with them as full an expression as possible of public sentiment in their respective boroughs and townships.

To our Democratic friends in Cumberland county, we say prepare for the contest on the 20th inst. The enemy, unbolstered by their late success in this county, will make a desperate push to carry their candidate for Congress in the District. They are well aware that at special elections they have decided advantages over us, as their greatest strength is in the towns, whilst ours is in the country—hence they will expect to take us by surprise. And, although they may hold out the idea that they will make but little opposition to the Democratic candidates, and talk about suffering the election to go against them by default—believe them not; they will assuredly deceive you. Flashed and elated with victory, the Federalists will make another desperate rally on the 20th. Let us be prepared to meet them like Freeman. Let us make one more effort, and the cohorts of Bank Aristocracy will be driven to the wall.

The Baltimore Republican of Thursday last, says:—"The concern which has been carried on in this city under the name of the 'Real Estate Savings Institution,' closed their doors at noon yesterday, leaving many suffering friends to mourn their irreparable loss."—Seriously, will the people never open their eyes—will they continue to support a party which has brought these evils upon them? If they do, they have none but themselves to blame, for the many losses they have sustained by such concerns.

"There's many a slip" &c.—The Federalists heretofore were so elated with their success in the county, and their fancied triumph in the State, that they had actually made preparations for a grand illumination of the town, and of course a boot. By the way, these Federalists evince a greater love for bonfires and illuminations now, than they did at the time the army and navy of the Republic were humbling the haughty and arrogant Britons during the late war. Then, when the great body of the people were exulting in the success of our arms at Bridgewater, at Plattsburg, at New Orleans, on Lake Erie and elsewhere, and lighting up the windows of their houses in token of their joy, some of these same Federalists, or their progenitors, robed their houses in sackcloth and darkness, and mourned over the defeat of their natural friends and allies, the British! But, alas! how futile are all human calculations. A few short days have served to blow all these calculations to the winds, and disappointed the Federal gormandizers of their anticipated feast.—Van Buren and Johnson have got the vote of the State, the fatted ox still lives, and the windows of the Peace Party Federalists are yet shrouded in impenetrable gloom! Alas! Alas! for poor, pitiful, used up, and defunct Federal Whiggery! No one so poor as to do reverence to her fallen, miserable condition.

PAIN OR WEAKNESS.

In all cases of Pain or Weakness, whether it be chronic or recent—whether it be deafness, or pain in the side—whether it arise from constitutional, or from some immediate cause—whether it be from internal or external injury, it will be cured by persevering in the use of Brandreth's Vegetable Universal Pills—because purging with these Pills those humors from the body, is the true cure for all these complaints and every other form of disease.—This is no mere assertion, it is a demonstrated truth, and each day it is extending itself far and wide—it is becoming known and more and more appreciated.

When constant exercise cannot be used, from any cause, the occasional use of opening medicines, such as one as Brandreth's Vegetable Universal Pills, is absolutely required. Thus the conduits of the Blood, the fountain of life, are kept free from those impurities which would prevent its steady current ministering to health. Thus morbid humors are prevented from becoming mixed with it. It is nature which is thus assisted through the means and outlets which she has provided for herself.

ALL'S WELL!

Table with 4 columns: Counties, Van Buren, Harrison, and Total. Lists various counties and their respective vote counts.

P. S. Since the above was in type, and after we had worked off about half our edition, later news rendering the result DOUBTFUL has been received. It has been a close run.

While the Ohio papers are teeming with accounts of the monstrous frauds committed in that State at the recent election by the importation of Harrison voters, and by other means, we find the following paragraph in a Baltimore Paper, which goes far to confirm the truth of the charges: a sudden increase of sixty thousand votes is at the best a very suspicious circumstance.

POPULAR INCREASE.—The Cincinnati Chronicle estimates the number of votes polled at the State election in Ohio at 270,000, being 60,000 more than was ever polled in the State before.

As a sample of the mode in which this increase of sixty thousand was made up, we subjoin the following extract from the Ohio Statesman:—"From what we have heard before the election and what we hear since, we are led to believe such an election was never held before in any State.—Hamilton, Pickaway, and some other counties have been carried by open and acknowledged fraud. There is not the least doubt of this."

"Along the Ohio river and Lake shore, and on the canal, men dressed like boatmen were poured in by hundreds to vote, where Mr. Kelly had his Judges elected for that purpose. We are beaten, it is true, but the means used must prostrate our opponents ever after, and raise the Democracy of Ohio on surer grounds than they ever stood before.

Who could estimate beforehand the 28 canal boat loads of voters that were run into Newark, or the travelling army of voters that went from county to county, and from poll to poll by express. A most respectable correspondent writes us that 60 voters appeared at one poll in Greene county, that were never heard of before, and of course, never will be again, except by some other name.

The St. Clairville, Belmont, Gazette has the following:—"The British Whigs not content to heat us by force and fraud, must needs import voters from other counties and another State.—Boat loads were sent off Wheeling for this county, and led on by the bank millions of Virginia, McKee, Wharton, and McOrary of that State, we have been cheated out of our rights. We do not feel beaten, but de-

prived of justice. The enumeration of this county last fall, by the assessor, of the white male inhabitants over 21 years of age, was 6,770. Out of this number, scores of aliens, not naturalized, were returned, and many voters were absent on business, and many were sick—5,700 would have been a large poll. The vote poll is 6,022.

The Dayton Herald, in speaking of the election in that county, (Montgomery) says, that "1644 more votes polled than last year, and more by many hundreds than there are male residents in the county; over twenty one years of age."

The imported voters seen in Mead township were upwards of 50, and they were turned adrift, and voted in Pultney and Pease. Many, no doubt, voted twice under fictitious names. Men have been seen in Wheeling who voted in the river townships, and no doubt exists as to imported voters from Monroe. No man can account for this unprecedented vote, unless from the frauds resorted to. Had our vote decreased, or men changed to Whiggery, we would have submitted in silence. But this deep and damning stain on the elective franchise is unparalleled. The voters beyond the census and enumeration prove the fact, and still we can count 100 votes not polled."

And thus it appears to have been throughout the state—frauds everywhere.—Pennsylvanian.

Pain or Weakness.—In all cases of Pain or Weakness, whether it be chronic or recent—whether it be deafness, or pain in the side—whether it arise from constitutional, or from some immediate cause—whether it be from internal or external injury, it will be cured by persevering in the use of Brandreth's Vegetable Universal Pills—because purging with these Pills those humors from the body, is the true cure for all these complaints and every other form of disease.—This is no mere assertion, it is a demonstrated truth, and each day it is extending itself far and wide—it is becoming known and more and more appreciated.

Thus the conduits of the Blood, the fountain of life, are kept free from those impurities which would prevent its steady current ministering to health. Thus morbid humors are prevented from becoming mixed with it. It is nature which is thus assisted through the means and outlets which she has provided for herself.

OBITUARY.

Died on the 24th ult. Mrs. Elizabeth Graham, wife of J. H. Graham Esq., in the 51st year of her age.

Death, by this envious stroke, has made a happy family desolate; leaving a husband to mourn the loss of a tender, discreet, and amiable wife; leaving three little children to mourn the irreplaceable loss of a fond Christian mother. But death was not the victor. Bound to this world by every tie that sweetens human life, she would gladly have lingered to fulfil a longer term of duty here; but when the will of God was manifest, she yielded all with tranquil and elevated joy. She gave delightful exhibition of the power with which faith in Jesus Christ surmounts the tenderest endearments of life and the terrors of the last conflict. Unusually concerned in the early stage of her disease to entertain a genuine hope, and to avoid the perils of a false security, she searched with many tears, and prayers, and inquiries, the stability of her resting place.—She found it more and more clearly to be "The Rock of Ages," and long before the hour of dissolution came, her tears were dried, her fears dismissed, her faith was strong and triumphant, and more than she had even hoped, the dying pillow was smoothed, release was sent without a pang, and with entire exemption from suffering she fell asleep in Jesus.
