CARLISLE:

THURSDAY, NOVEMBER 12, 1840. FOR GOVERNOR IN 1841.

DAVID R. PORTER.

To-Morrow Week,

(Friday the 20th inst.) Is the day fixed upon for the CONGRESSIONAL ELECTION. Remember it, DEMOCRATS—and ACT ACCORDINGLY.

The Foreign news is becoming highly important-for particulars see opposite page.

"LADIES' COMPANION."-'This excellent periodi eal, published in New York, still maintains the high character it has won for itself in the reading community. The November number is now be foro us, and is, in all respects, equal to any of its

Democrats of Cumberland!

What is your determination? Will you fold your arms and willingly consent to be in the mi nority-or will you redeem the character of your county on the 20th inst? Recollect there is not a moment to lose, if the latter is your resolve. The work must be commenced at once, if you wish to elect your candidate at all! Perry will no doubt do her duty-but her majority cannot be expected to be very large at a special election. Juniata will likewise do as well as she can-but, under the circumstances, we can scarcely anticipate any majority there. The result therefore depends on Cumberland, and if we fail, all may be lost .-What a heavy responsibility rests upon the De mogracy of this county at the present juncture of affairs-and it well becomes our friends to be up and doing.

In view of these things we urge you by all that is sacred and dear to freemen to set to work at once in your respective neighborhoods and townships. Those of you who can spare the time should ride round to your neighbors and press them to turn out to the special election on to-morrow week. It matters not who our candidate may be-it is the duty of every member of the party. and every sincere friend of Democratic principles, to give all the aid in their power to have him elected. "The times are sadly out of joint"-corruption and villainy have triumphed over honesty and justice in the late election-and it is incumbent on the Democracy of this county to lend a helping hand to arrest the torrent that threatens the destruction of our liberties. Will you do it, Freemen of Cumberland county? We appeal now to the 2700 unbought and unpurchasable Democrats who so gallantly maintained the centest on the 30th ult., and to the honest portion of those who we believe were deceived by the wiles of the enemy, but who, we are disposed to think, are already weary of the strange company in which they are placed. What say you, Freemen? It is for you to decide -not us. As a faithful sentinel on the watch tower, we warn you that DANGER IS NEAR AT HAND-that though your enemies are apparently asleep, they are secretly preparing for the c inflict, and will steal a march upon you if you are not more than usually vigilant and active, Take the alarm, therefore, in time. Be up an deing at once, or all may be lost.

Our friends from the country, who hap pened to be in town on Monday evening last, con form some ilea of the insulting, taunting and dominocring spirit of Federalism. Sing-ing, shouting and beltowing like madmen—cursing and swearing, were the order of the night
—and the fell spirits of mobocracy and blackguardism combined, converted our hitherto peaceful borough into a perfect bedrein. If such is already a fair specimen of the reform promised upon the election of Gen. Harrison, what may be expected after the 4th of March next?

The leading Federalists are already "laughing in their sleeves" at the credulity of those who were induced to oppose Mr. Van Buren by the hypocritical cant about "Standing Armies," "Gold Spoons," "Low Wages," "Extravagant Expenditures," and the multiplicity of items in the account current of humbuggery with which they Bought to gull and deceive the people! This is to gull the unwary and unsuspecting-and, if successful, turn round and laugh at them for their folly. They go upon the principle that "all is fair in politics," and if by downright false-hood and misrepresentation they can effect any thing, they think a resort to such a course is perfeetly justifiable. They can never expect any thing by stating the truth, and exposing their principles to the public gaze. Such a course would be certain destruction to all their prospects -hence we find no open and candid ayowal of principles on their part during an electioneering campaign, such as characterises the Democratic party. Their weapons of electioneering are lying and deception, and when the election is over they exult at the success of their infamous schemes and laugh at the simplicity of those who were led astray by their devices.

The Federalists are boasting loudly and crowing prodigiously about their success in this county, and the Herald is ready to claim old Cumberland in advance as good for five hundred Federal majority at the Governor's election next fall. We wish our Democratic friends to mark these "signs of the times"-to weigh well their import-and to set about the good work of redeeming the county at once, if they expect to defeat the calculations of the enemy. Our disaster on the 30th ult., instead of discouraging our friends and paralyzing contrary effect. A glorious opportunity is afforded

Give "a long pull, a strong pull, and a pull all toand victory must and will crown your exertions.

ALL'S LOST!

Even Pennsylvania, the old flag-ship of the Democratic fleet, has been loosed from her moorngs, and swept away by the storm. We had our nisgivings about the general result for some time revious to the election, as state after state apeared to be giving way before the tremendous forts of the Bank Aristocracy-but we could scarcely bring our mind to doubt that Pennsylvania would prove any thing else than true to her that the "Keystone" is gone, and the whole arch has crumbled to pieces. Verily "the glory is de-

From the Globe!

THE ABOLITION TICKET. Since the formation of parties in this country, w schemes have been concocted showing more ompletely the absorbing object of Federalist than their contemptible union with this party.-Power and its patronage, the love of office, and the aching desire for the emoluments of station, were the moving springs of the unnatural coalition. We did not suppose such motives strong enough the extent necessary to the formation of the most perfect union which seems to have be encousing mated throughout the North and West. Men differing totally upon all the legitimate question of public policy, by nature as dissimilar, and apparently as incapable of close union, as oil and water, have, aided by the unnatural influences of corporate funds and foreign gold, so unblushingly Federalism unmasked, Its leaders first attempt used and unsparingly lavished since the visit of Mr. WEBSTER to the BARINGS of London, acted throughout with all the perfect harmony to be expected of men embarked in a common cause, and devoted entirely to the success of its principles .-In Connecticut, Rhode Island, and Pennsylvania the Abolition ticket has scarce been heard of .-In Ohio, from the returns published in the Nation al Intelligencer, we do not learn that it received solitary vote. From the reports which we have received, but one vote in Franklin, and mine only in the strong Abolition county of Muskingum, are mentioned, while all our letters inform us that the Abolitionists have rushed to the support of the Harrison electoral ticket with a zeal bordering

upon fury. Abolition gave him the nomination for President at Harrisburg, furnished the efficient power which urned the scale against the Democracy of the North and West, which filled the ballot boxes and if the South has now unfortunately fallen in the snare, the day which places Gen. Harrison in the Executive chair will be hailed by them as a Abolition jubilee. No doubt thousands of the Southern Whige hate and dread the fell spirit of this fanaticism, and would not, for the vain hope of attaining some personal distinction amid the confusion produced by its uncontrolled raging, associate with it, and warm it into effectual life by securing its permanent triumph. The spirit of Abolition is not of a nature to be checked or tamed their operations in future, should have a directly by kindness in the hour of victory. It is childishness alone which leads to a hope of guiding or

The party is untarnished by fraud and crime, and the shafts of Abelition will fall harmless at their feet. They are barbed, but yet unstained by any virus which is fatal to their peace or their domestic institutions. What would be ancient and time honored principles. They might possibly tranquilize their local fends, by leaving the question of domestic servicing to the defence of those whose all is suspended upon. lested passage through his own peaceful territory. the issue, and thereby regain their lost ascendency in the councils of the nation. Should the Northern Democracy, assume this attitude, we cannot find language adequate to the just expression of our fears for the result. Friends of your country, Democrats of the North, do not do it. Such a triamph would be inglorious, humiliating. If you have been abandoned, if you have been sacrificed to the cause of your brethren, still you have labored in the defence of righteous principles. You have performed a public duty, which you owed to the patriot fathers, who bequeathed us this glorious Union. It is still worth defending as the last, the proudest hope of the friends of Republican freedom. If the South has done wrong, it is no cause why you should prove recreant to the calls of duty. If the party in interest has abandoned the field, and left you to be slaughtered by their most deadly foe, whose onward progress you have heretofore firmly and steadily impeded, it is because they were deluded and cheated-because they have been betrayed and cajoled, and knew not what they did.

Melancholy Coincidence. The New York Tatle relates the following melancholy coincidence: "Mr. Peter Brigge, of this city, who died on Monday, had a brother residing in Westchester county A messenger was despatched to inform that brothto carry the body for burial to Westchester county. That messenger on his way, passed another, who was coming from Westchester, to bring the news of the death of the other brother, who had died- in that place. Both messengers reached their destination at nearly the same time, and both brothers were yesterday consigned to the tomb in Westchester, together. Each had died in ignorance of the illness of the other."

"Trouble in the Wig-wam."-The Federalists are already in trouble in this quarter. There are some ten or twelve of them, and perhaps more, who have an itching for the Post Office, and they are even now ready to jump into each other's wool about it. And yet this is the party, and these are the men who have professed such a hely horror for any thing in the shape of an office-holder! Out upon the hypocrites! their whole desire has been after the flesh pots of Egypt, and we feel confident that they will, like Kilkenny cats, devour each other about the "loaves and fishes" before another six months rolls around. It will be a family quarrel, however, and the Democrats can look en and smile at the sport it will afford.

"A CHANGE-A CHANGE."

This has been the Federal watch word for the ast six or seven months-and as they bid fair to effect it ere long, we shall by and by see what kind of a change they will introduce into the policy of the government. We predict the change introduced will be something after the manner of introduced will be something after the manner of equivalent for what they receive. No sinceures the reform promised by Joseph Ritner previous to equivalent for what they receive. No sinceures are bestowed to fatten the indolent; no garlands his election, the effect of which is felt in the impoverished condition and bankrupt treasury of Pennsylvania! The people have willed a change, would be that would pluck a perennial would pluck a pe

GALE AT ST. JOHN, N. B .- The most severe gale of wind with which that city has been visited for many years, occurred on the 27th ult. from the South West, and continued to blow with extraordinary violence until late in the afternoon. The sea rolled into the harb or with overwhelming force, causing the tide to rise much above its ordinary level; the waters from beyond Partridge Island to the Breakwater, in the harbor, as well as the whole extent of Courtenay Bay, in the rear of the city, presented one grand mass of foam, wave following wave in rapid succession; in the Bay of o influence the stubborn nature of Federalism to Fundy the sea was terrifically high; while even up to the head of the harbor the waves and surf were exceedingly heavy. Considerable damage was done to small vessels at the wharves. It is feared that sad accounts of shipwrecks will be heard from the neighboring coasts.

TEXAS

Arrivals at New Orleans bring advices from Pexas to the 5th October. There was a rumor current of an attack on San Antonio by the Cumanches, in which many of the inhabitants were said to be killed. The cotton crop of Texas this year has been quite productive. The harvest of grain, &c., is also abundant. Genr Houston has issued proclamation inviting the citizens to join him in an expedition against the Indians.

BOUNDARY QUESTION .- THE HIGHLANDS. The Gardiner (Me.) Spectator contains the folwing extract from a letter to a gentleman in Gardiner, from Professor Renwick, one of the cr

gineers engaged in the boundary survey: 'I am happy to be able to communicate to you that the result of my operations will probably leave no other basis for the British claim than the quibble whether the Bay of Fundy be the Atlantic Ocean. I have discovered and explored a range of mountains extending from the Bay of Chaleurs around the heads of the branches of St. Johns t the Temiscouta portage, so that even on the British ground that the Highlands are necessarily mountains they can be met to advantage. The height of these mountains I can only guess at until I make up the calculations.

thanks for a pamphlet copy of his very excellent address to the Senior Class of Dickinson College, delivered on the 8th of July last. We transcribe the honest reign of democracy.—Keystone, er of his death, and of the intention of the friends a few sentences of the Address, which will be apreciated by all our readers:

"On whatever career of life you enter, fix your yes on the highest point of possible excellence, and then persevere in your efforts to approach it. Probably more persons fail for want of continued exertions, than for want of high resolves. They make a few efforts with apparent zeal, but, meeting no immediate reward or discouraged by unoreseen difficulties, give over the struggle and sink down in listless inaction or gloomy misanthro-py. The racer might as well think to win the prize without the breath and bottom to reach the goal. Men might with equal reason complain that the pure wine does not sparkle in the cup without the care of wintage and the labor of the wine-press. The great Roman orator devoted twenty years to constant application before he commenced his public career; and afterwards, amidst the harrass-

ng anxieties of political life, found time, besides delivering an incredible number of orations, to write valuable and learned works on a great variety of subjects.

Let him answer for himself in the oration for Archias the poet: "Who then in the oration for Archias the poet: "Who then can justly censure me, if, as much time as is given to other men for their own business; for the celebration of festival days and other pleasures; for repose of body-and mind; for gaming, ball, and nightly entertainments; so much I appropriate to myself, and devote to these studies." Now the areas of why so fow attain similar emissions is that reason why so few attain similar eminence is that sok few make similar efforts. What Cicero became, he made himself; and whatever degree of usefulness or reputation you attain, must be the fruit of patient, resolute toil. You live in an age

THE RESULT.

We have just emerged from one of the warmest political conflicts in which we were engaged. It was emphatically a conflict, which called into requisition—the fiercest-passions—and the most undaunted energies of our nature. All that the utnost ingenulty of embittered partizans could devise, was made to bear on the momentous issue, which has just terminated. What indeed has been

We have seen the public press teeming with reckless libels, hurled with vituperative and malignant aim at the reputation of a Chief Magistrate, worthy to tread in the footsteps of a JEFFERSON, a MADISON, and a JACKSON, and slandering in the language of the latter, "both the living and the dead."

We have beheld swarms of demagogical table-

We have witnessed other and still more disgust-ing exhibitions. We have seen the consecrated LIBERTY CAP, with all its hallowed associations, torn down from our National standard, and in its stead reared the degraded emblem of a RUM ARREL—and the American Eagle, the noble bird of Jove, bearing in his beak the peaceful clive, and in his talons the gleaming thunderbolt, scoffed and derided, and the incanest of the animal creation, a RACOON, made to usurp his hallowed place.

We have seen a man asking his fellow-country-men to elevate him to the highest office in the world, and yet REFUSING to disclose to that people the principles upon which the government should be administered—a precedent fraught with imminent peril to our institutions, and suited only to the ill-dogmed regions where it is admitted, "That the King can be no Whong!"

We have seen men high in office, disregardful of their solemn oaths, Pollure the sacred ermine and heap Penjuny upon their souls, by purchasing abandoned instruments, like cattle in the shambles, at the JUDAS price of "thirty pieces of silver".

From a conflict, thus characterized by all the tricks which human ingenuity could invent, is it wonderful that we have emerged unsuccessful?—That our opponents have gained a temporary advantage over us?—But their majority is so small that they have nothing to boast of—nothing to inspire them with future confidence. Had the democrats supposed there was danger, the result would have been different. But as it is, we have only to look out more vigilantly hereafter. Our opponents carry con caled in the bosom of their party the elements of dissolution.
