SHORT FACTS.

TO THE AFFLICTED. To THE AFFLICTED.

It is sometimes urged that the Rheumattem cannot be cured by external applications.—
This may be true sometimes but it is also certainly true that this distressing complaint cannot be cured by internal remedies, except by their long and constant use, by which perhaps, at the same time the system becomes generally deranged, debilitated and destroyed. Even were not this the case how shall the great distress of the sufferer be alleviated while such slow and doubtful remedies, even their effect? The answer is plain, cannot and ment true—use

Dr. Hewe's Nerve and Bone Liniment: cept on those recognized as agents above. Noname could be more appropriate. It reaches and spothes the nerves; and allays pains most es and spottes the nervest and unity's plants most effectually on its first application, and by a few applications removes more effectually and speed-blessed when they compare themselves to those ity Rheumatic pains than any internal or exter-sufficient that have been afflicted for years with

However incredible it may appears Doctor Bartholomew's Pink Expectorint Syrup has never been known to fail in affording relief in the above cases. Many certificates have been received attesting its virtues. The public are respectfully invited to make a trial of the article when its value will be fully attested. For sale by STEVENSON & DINKLE.

January 16, 1840.

R, SWAYNE: Respected Friend:—From the very beneficial effects which I have received from the use of thy Compound Syrup of Wild Cherry Bark, I am fully willing to testify to the astonishing effect. My attack was that of a common cold, which began to threaten something of a more serious nature. Being recommended to use the above Syrup, I finally gave it a trial, and am happy to say it gave me almost instant relief. I have used it trequently, and always with the same beneficial effects. I others would use this medicine at the commence others would use this medicine at the commence users of their colds and coughs, they would prevent a disease which would be more alarming tits character, and much more obstinate in the cure.
