The LADY'S COMPANION for the current month is filled with a choice variety of entertaining and instructive matter.

The LADY'S AMABANTH is an excellent monthly periodical, each number containing 24 pages of themselves to be governed and rode over by their closely printed matter, and furnished at the low rate of \$1 per annum.

The SATURDAY EVENING POST has recently appeared in an entirely new dress. It is now the handsomest weekly published in Philadelphia.

LOCKHART VS. U. S. BANK .- Judge Randall g we his opinion in this case, on Saturday last, in the Court of Common Pleas of Philadelphia .-He decided against the forfeiture of the Bank's charter, on the ground that it was necessary that the same person should hold the notes at the time of proceeding who held them at their first presentation and refusal of payment.

The Pennsylvanian of Monday last says:--We have been informed that the following Banks have refused to accept the "Relief Bill," viz:-Com mercial, Philadelphia, North America, Western,

It is rumored that the Pittsburg Banks also refuse to accept. The Carlisle Bunk; we understand, has accepted:

Sanari Ann Davis .- This woman, whose trial for the nurder of Julia Ann Jordan took place in Philadelphia last week, was convicted, and sentenced to be hung. The sentence of the court was delivered on Monday last by Judge Barton.

JOHN BANKS still holds on to his Judgeship .-Monest John, as the Federalists have dubbed him, no doubt thinks that "a bird in the hand is worth two in the bush," and that it is best to hold on to the good fat office he has got, rather than run the risk, by resigning, of losing the teat entirely.—
There is too much of the Yankee about John to be caught in such a foolish act. Lawyers don't do such things-not they.

## GOVERNOR PORTER.

Since the organization of the government to the present time, there has not been an Executive in Pennsylvania who has had one half the difficulties to encounter that have encompassed Gov. The people were told over and over again, by the newspapers and stump orators of Federalism, that Mr. Van Buren had ruined the country—that it to the humblest laborer engaged in the public serwas going headlong to destruction, and that he and he alone was the cause of the depression in colors and the tolive, let alone enjoy office. It is now more than twenty years since I entered its service. They have been years of intense labor, and they have earned for me a right to claim a relaxation and repose which approaching age and precarlous health require. I have waited anxiously for the most spared; but hitherto, whenever I have sought the retirement I so much needed, come difficulty, in which my service was debmed useful, always interposed to detain me. None such exist now.—All the political dissentions connected with the Bank for the last ten years have ceased; all its extraordinary efforts for the protection of our national interests are happily ended; and the Bank has returned to its accustomed channel of business in peace.
