Governor Porter.

We almost envy Governor Porter what must be his feelings since the election. No Executive in Pennsylvania ever reached the chair of State through such a flood of calumny and detraction—and no one ever had the same difficulties to encounter after his elevation to that distinguished post. Brest with abbas and quicksands on every hand—the vessel of State leaky and unmanageable from the gross mismanagement of her former pilot—he has steered the ship with consummate skill and prudence, and brought her safe to port. With a powerful and uncompromising opposition, made up of the leaders of a party whose creed is to...

We venture the assertion that there never has been an Executive in Pennsylvania, Governor Snyder not excepted, that had so large a share of public esteem as David R. Porter—and never was confidence more richly merited. Judging from his past course, we predict that he will retire from the gubernatorial chair at the end of his second term with a greater degree of popularity than any of his predecessors, and that his administration will be looked up to in all time to come as a model for future Executives to follow.

The triumph of the election of Mr. Clevenger to the Legislature by a majority of 634 votes over Major Givins, is the most gratifying when we take into account the extraordinary efforts made up of defeat him. The result should convince our political opponents that "honesty is the best policy," and that nothing substantial is to be gained by sly attempts at deception and trickery.

The majority for Governor Porter in Mifflin township is 97! This sterling Democratic township never flinches in the good cause.

The whole vote of the late election in this county was 4718—of which number Governor Porter received 2721, and Judge Banks 1997 votes. At the gubernatorial election of 1838, the whole number of votes polled was 5059—of which Porter had 2743, and Banks 2316. At the last Presidential election, the whole vote was 5485—of which Mr. Van Buren had 2695, and Gen. Harrison 2790.

The majority for Governor Porter in 1838, was 427—at the late election, 724. Gen. Harrison's majority was 95.

The Universal Whig party has been most essentially "used up" at the recent election in this State, and indeed in every State in which elections have been held since the rising of Congress.

FLOUR.—The New York Express says:—"The news from England has had an unforeseen effect on the flour market. All hope of any demand from England has fled, consequently prices now rest on the supply and home demand.

McLEOD has been acquitted by the Jury who tried him. The evidence on the part of the prosecution, connecting him with the affair of the Caroline and the murder of Durfee, was contradicted by several witnesses on the part of the defence.

In the above enumerated States alone, there is a Democratic gain on the elections of last year, of more than NINETY THOUSAND VOTES!

GOING IT STRONG.—The Portsmouth (Va.) Chronicle says:—"We have it from an unquestionable source, that Mr. Secretary Ewing allowed one of his hopeful sons, a minor, the enormous sum of \$50,000, for negotiating a million loan. Here is Federal economy for you—log cabin retrenchment, and cool skin honesty, with a vengeance. We ask what better is the act than downright theft! Can such infamous swindling receive the sanction and approbation of honest men?"

NEW YORK MILITARY MAGAZINE.—This is the title of a neat weekly periodical, commenced in the city of New York, by Capt. W. W. TOURNAI, Editor, and Messrs. BROWN and LANE, Proprietors.

The result of the election in the State, and in this Senatorial District, completely puts a veto upon the Gettysburg Rail Road. "The Topo-Worm is now doubly killed."

How KEYS, Esq., one of the Canal Commissioners of this State, died at his residence in Fayette county, on Thursday last the 14th inst.

Mr. K. was an excellent citizen and a valuable public officer, and was justly esteemed by all his acquaintances.

THE RESULT.

Entire returns are not yet received of the late election in this State, nor are all those official which we have received; yet enough is known to justify us in stating that Governor PORTER is re-elected by over 20,000 majority, and that there will be a Democratic majority in the House of Representatives of 24, and that the Senate is probably revolutionized! Never was there a more overwhelming triumph—never did a State more gloriously redeem herself than has Pennsylvania.

We subjoin the returns as far as received. In our next we hope to be able to give the official vote of the State.

THE DEVIL MURDERED! The latest villainous attempt at robbery, was that of a fellow in Georgia, who put the levy of the law to a trial, and made a man's work of it. He stepped his reward, the Raleigh (North Carolina) Dispatch says.

This fellow disguised himself with a club foot, went to the house of an old lady, a fish widow, and, pretending himself the devil, and frightened the family of her premises, took the old lady's money and clothes. In the act of retreating, he was met a mile or two from the house by a man with a gun who had been sent to meet a messenger and was returning home; and who, not recognizing the fellow, shot him through the back and man upon meeting him retreated, levelled his gun, and demanded who comes there? I am the Prince of Darkness, but it is not thee I mean. He then fired, and the man had only two subjects, and them I have despatched to the lower regions? The man who was shot, had a fatal wound, and he died in a few minutes.

The case hereabouts has assumed a most malignant form—we advise all those, therefore, who have been attacked with depression of spirits, and nausea at the stomach, from a too free use of hard cider, to apply this invaluable remedy before convulsions come on—it would be well enough, after applying the plaster, to take a dose or two of "Virginia abstractions," to give tone to the system—this has been found very efficacious, as well in the extreme cases as in the incipient stages of the disease.

"Take one pound of beef, mellowed over a slow fire, one string of buck-eyes puffed fine, one blue badge and a chunk of honey—put them into a gourd, pour in as much hard cider or buttermilk as will make it stick together, stirring it well with a buck-eye stick—then add the title-page of a Tippecanoe Song Book, cover the whole up with a turtie shell, and let it stand just an hour—long enough—then spread it on a Cob-Skin and apply it to the breast, tying it fast with a blue ribbon."

Gen. Donos, the proscribed Governor of Iowa, has been elected the Delegate to Congress from that Territory, by a majority of 514 votes over his Federal opponent. This is rather a severe rebuke to Captain Tyler.

J. W. TAYLOR, Esq., of Philadelphia, has been appointed by the President, Commissioner General for supplies, in place of Gen. Callender Irvine, deceased. Col. J. G. WATSON takes Mr. Taylor's place as Surveyor of the Port.

CURE FOR THE VETO DELIRIUM.—This

disease, says the New Era, having become of late very prevalent all over the country, a correspondent of the Carlisle Sentinel offers the following cure:—"The disease hereabouts has assumed a most malignant form—we advise all those, therefore, who have been attacked with depression of spirits, and nausea at the stomach, from a too free use of hard cider, to apply this invaluable remedy before convulsions come on—it would be well enough, after applying the plaster, to take a dose or two of "Virginia abstractions," to give tone to the system—this has been found very efficacious, as well in the extreme cases as in the incipient stages of the disease.
