Connection of Bank and State .-- We every day see the evils of a connection between the Government and Banks, and fortunate for the country will it be when the Sub-Treasury system, or something similar, be made-sites for mills can be had within is re-established. The war commenced by Goneral Jackson and continued by the De-moeratic party against the United States Bank has saved the country millions of dollars, for if she continued to be the repository of the government until her failure the losses would have been incalculable. As it is the people are likely to be heavy sufferers. A suit has been instituted against the U.

States Bank by the General Government for \$350,000, which is set down for hearing on the first Monday of next month. It is understood that the only hope of recovery depends upon thrusting aside the assignments which the Bank has made of its assets to Calumet, Marquette, Portage, Winnebago, the other city banks. A part of this demand of the General

rnment is on account of the protest of the old French bill of exchange about which General Jackson quarreled with them so long, and \$80,000 balance of the amount due on the Government's interest in the stock of the old Bank. If the assignment stands good the United States will not get a farthing. This is another illustration of the beauties of the connection of Bank and State.-Three hundred and fifty thousand dollars at
