State have made a close run of it with their opponents, and Davis is re-elected by the "skin of his teeth." And in Michigan, which has run riot with Federal Bank domination for a period of three years, and which last year gave Harrison a majority of fifteen hundred, the Denocrats, it appears, have made a clean sweep of it, and elected Mr. Banur, their candidate for Governor, by five or six thousand majority, a large majority of the Senate, and probably every member of the House of

It is also a dreadful re-buke to the leaders of Federalism throughout the Union, for the infamous game of deception they practiced upon the people to get themselves invested with power. I is a trite, but true remark, that the Federal party never get into power but to abuse it-and the history of the last eight months is an abundant verification of the fact. It is equally true, that the people never entrustof Congress demonstrate the assertion as clear as holy. writ. The people, the great mass of whom are honest. may be deceived for a time by treacherous, designing demagogues, where pockets are their household gods, cents, but they cannot long remain deceived. They may, once in forty years, be blinded by hellish and malignant misrepresentations, and carried away with a malignant misrepresentations, and carried away with a wild and ungovernable enthusiasm—but the "sober wild and ung second thought" will speedily follow, and their just vengeance is heaped on the heads of their betrayers.-So has it been heretofore-so is it now-and so will it

be in all time to come. · It is said that revolutions never go backward-and indeed, it would appear that the mighty ball of victory increases its velocity the farther it rolls. In every State in which elections have been held during the summer and fall, the Democratic cause has been making unparalleled headway, and it would not be surprising if, before another twelve-month rolls around the whole twenty-six sovereignties should have ranged themselves under the Republican standard. Such will, in all human probability, be the case, unless the present party in power speedily change their course of

To the vast body of uncorrupted and incorruptible Democratic Freemen throughout the Union, who so nobly stood by their patriotic President, Martin Van Buren, the result of the recent elections must be soul. cheering in the extreme. They waged the contest on open and honorable grounds, against the foulest corrupruptions and vilest misrepresentations ever before attempted in the history of this Republic. They fought the great battle of principle, determined to do their duty regardless of consequences-and, although defeated, they had the proud consolation to know that they fell with their faces to the enemy. They seemed to have adopted the advice of the Spartan mother to her son, upon his going to the field of battle, "Return with your shield or on it." To these noble spirits the Democratic triumphs of the present season are doubly intoresting, in the reflection that multitudes of their fellow citizens now acknowledge the justice and righteousness of their cause, and are found helping them to swe'l the great Democratic triumph

With their not leave to inference what ought to be stated in planits origin with the Federal party, and was carried to great perfection during the last Presidential campaign. Our neighbor having been the organ of that party du ring the contest, is doubtless an apt hand at the busi ness; but it will not do for him now to attempt to throw dust in the eyes of the people, by making a proad and unqualified assertion against an administraion which-three-fourths of the community, at this moment, regret was pute down. Such a course an swered the purpose some twelve or eighteen months ago, when the editor was helping his Whig brethren to build log cabins and drink hard cider; but it does not suit how since he professes to have cut loose his connexion with a portion of his quondam friends, and is about entering upon the advocacy of Tempe-

rance to boot. The Whig papers are publishing a ridiculous story that General Harrison came to his death by Potson. What they expect to gain by giving publicity to such a silly and incredible assertion we are at a loss to divine, unless they want to furnish their old women Rye Flour.—The stock is very light. We note sales at \$3,40 a \$4, according to quality.

The inspections for the week ending on Wednesday, amount to 13,180 barrels, and 695 half barrels.

The price of Wheat varies from \$1,25 to \$1,31.

Clover Seed.—Holders are firm to day. We make our quotations from stores at \$6 a \$6,50.

There is very little received by wagons.

Cattle.—The supply this week has not been so large. There were on Monday about 500 head at market; about 300 were taken at \$3,50 for inferior; \$4 poisoned, how does it happen that his physicians, celebrated men in their profession, did not detect it! And why is it, that such an important occurrence as the poisoning of a President, would only be found out and \$4.50 for good to prime; and \$5 for strictly prime poisoning of a President, would only be found out months after it happened! And still more strange, quality.

There has been a large supply at marthat the circumstance would first become known to an ket this week, and large sales have been made to the editor in Boston! (for, we believe, the article going salters at prices ranging from \$3.31 to \$3.50 per 190 the rounds of the Federal press, first made its appearance in the New England Review.)

The whole story is so absurd as to scarcely need refutation. The truth of the matter is, the poor old During the session of the Court last week, the man was dogged to death by the crowds of office eckers-who-worried-him-to-that-degree that his worn out constitution sunk under the excitement, exposur and fatigue. This was the poison that laid his head in the grave-and to this cause alone his physicians and every body else, at the time, attributed his death

MASSACRIUSETTS ELECTION. We have now returns from 296 towns, in which the results is as follows:—Morton, 50,103; Davis, 54,522; Boltwood and scattering, 3,394; Davis's majority, 1,-025. There remain to be heard from 12 town oted last year as follows—Morton, 1,245; Davis, 1,924; majority for Davis, 659. Davis anajority for Davis, 659. Davis anajority in the State this year will hardly reach 1,600. His majority in this city is 1,600, and in the rest of the State he is in a minority. Last year his majority was 16,000! and Harrison's majority, was 21,000! Any of our whig friends who are good at *cyphering* may amuse themselves by calculating the difference.

The democrats have made large gains in both branches of the Legislature. They have elected their Senatorial candidates in Middlesex, Bristol, Berkshure, and Hampden counties, and in Plymouth county there is no choice. In Norfolk county, Appleton Howe (who was on both the whig and abolition tickets) is the only Senator chosen. The whigs have elected their candidates in Suffolk, Essex, Worcester, Hampshire, Franklin, Barnstable, and Dukes and Nantucket. The Senate, after all vacancies are filled, will probably be com-posed of 13 democrats and 27 whige; whig majority, 14. In the last Senate the whig majority was 37!-14. In the last Senate the whig majority was 37!—
There will be a strong whig majority in the House,
although the democrats have gained many members in
that branch. In a day or two, when we get returns
from all the towns, we shall publish a complete list of
the members chosen. We think it useless to occupy
our columns with an imperfect list.
The result of this election is in the highest degree
recouraging to the democratic party. It proves that
they are rapidly acquiring strength throughout the
State, and that, at a day not very remote, Massachusetts will be added to the list of Democratic States.

The same price rules claewhere at \$1,50 per hundred. The same price rules claewhere to say nothing of the buildings. A cistern of ampliant those who are buving here do not give more than \$1,50. It is hardly probable that much advance will be made upon this price. Cincinnati, the greatest Pork market in the West, in the present condition of affairs in Ohio, in relation to her banks, will hardly be able to engage to any very great extent in the purchase of pork. As the banks must with-hold the facilities heretofore extended to the pork buyers, the stock will either not find a market at all, or a very small price must be paid to the raisers. Added to this, there is very large amount of last year's pork yet on hand .-In the city of- New York alone, there are 40,000 bar rels in the market for sale."

CEDAR HILL, New Kent County,

Gentlemen:—Few things would afford me more pleasure than to meet my friends and old constituents of this County, at the festive board in pursuance of your polite invitation, but the necessity which exists for my speedy return to the Seat of Government, places it out of my power to do so. I can however, do not less than return to you and those you requested not it out of my power to do so. I can, however, do no less than return to you, and those you represent, my grateful thanks; for the kind sentiments of regard and confidence which you have been pleased to express towards me. Shall I not be justified by the people of this ancient County, in the declaration, that, when as long ago as twenty-five years, they did me the honor to confer their almost unanimous suffrages upon me, as their representative in Congress, the political principles which I then avowed, have been the same, which, since my accession to the Presidency. I have dared to vindicate and maintain, at the expense of the bitterest denunciations which have ever heretofore assailed a public functionary.

The same opinions as to the power of Congress to charter a National Bank, which I then avowed in the presence of your fathers, and of many who still survive smong you, and which, as your Representative, I strenuously urged in 1819, are still maintained with abiding and undiminished conviction. I was then sustained by the results of the strenuously under the still maintained with abiding and undiminished conviction. I was then abiding and undiminished conviction. I was then sustained by the people of this district, with almost entire unanimity, and I therefore take leave to say, that if any of them are converts to new opinions, they might at least have granted me, as the Chief Magistrate, bound by oath to support the Constitution, the benefit of the lights of reason, which have been shed upon thom, before they united with others, in a spirit of unqualified denunciation. What would they have me sacrifice the consistency of my past life, for party ends? Or, what is of far more importance, both morally and politically, would they require of the Chief, Magistrate of this glorions Union, to surrender all claim to their respect; by violating his oath of office, in order to gratify the Moloch of party—If they would have so great a sacrifice, then I am proud to say, they will not receive it at niy

It is to be hoped, therefore, that he will be selected for the responsible station.

THE TREASURERSHIP. It is a well settled point in the policy of the den cratic party, that all the departments of her state government, must be filled in accordance with the will of the people as expressed at the ballot boxes. It is further a matter of much concern to them, that all their offices shall be filled by men of unimpeachable integri ? of character, sterling common sense, and enlarged and active business habits. Such a man must succeed the present State. Treasurer, several counties having name prominent democrats. In this part of the state w prominent democrats.
