

AMERICAN VOLUNTEER.

BY GEO. SANDERSON.

CARLISLE:

THURSDAY, DECEMBER 9, 1841.

From the Baltimore Republican. Review of the Baltimore Market, Thursday Evening, December 2.

CATTLE.—There has been a fair supply of Beef Cattle at market this week. There were on Monday about 800 head offered, and only 300 head were taken by the butchers, at prices ranging from \$3 a 3.50 for inferior, \$4 a 5.00 for fair to good, and \$5.50 for prime. The balance lays over.

Live Hogs.—We have heard of no important transactions this week. Killed Hogs are selling as in quantity and size, at \$3.50 a 3.75 from Wagons, and at \$3.75 a 4.00 from stores.

FISH.—Herring.—Small lots of late inspection continue to be made at \$3.25 per bbl. No. 1. Mackerel.—We continue to quote No. 1 at \$14; No. 2 at \$12, and No. 3 at \$7.00 per bbl.

FLOUR.—Howard street Flour.—Since our last report, several sales have been made from stores at \$6.25, and holders are generally asking that price today. We believe that sales could be effected at a shade less. The car price continues at \$6.12 1/2.

City Mills.—Since our last report, sales have been made from stores at \$6.50 full and \$7.00 part at short date. The millers are firm day at \$6.50 full.

Susquehanna Flour.—The receipts continue light, and sales are confined to dry lots at \$6.60. Eye Flour.—It is in good demand, and scarce. Sales for good brands at \$4.

The inspections for the week ending on Wednesday evening, comprise the following kinds and quantities:

	bbls.	half bbls.
Howard street,	125	144
City Mills,	625	850
Susquehanna,	59	00
Total,	1441	494

There were also inspected 95 bbls. Rye Flour, and 42 bbls. Corn Meal.

GRAIN.—Wheat.—The supply of Maryland continue light. The parcels that have come to market have been taken at \$1.35 a 1.40 for good to prime reds, or sorts as in quality. Several parcels of Pennsylvania reds have been sold at \$1.43, a 1.44 a 1.45, and some at \$1.46 for family flour, bringing \$1.43 a 1.50 per bushel.

Corn.—Old Maryland Corn has experienced a further decline in price, and is now selling at 55 a 56 for yellow, and 56 a 57 for white. Sales of Pennsylvania do at 62 a 64.

Wheat.—There is a limited business doing in Pennsylvania, and sales are making in bbls. at 20 cents in bbls. at 22 cents. In Pennsylvania at 18 cents exclusive of the bbl.

TWO LECTURES

On the subject of the "Improvement of the Common School System," will be delivered in the School of Education Hall, in this Borough, on Saturday and Monday evenings next, (the 11th and 13th inst.) by Mr. J. O'NEILL TAYLOR, a merchant of the city of New York. He has lectured to large audiences in Lancaster, Harrisburg, Chambersburg, York, and other places, and as his lectures are delivered without charge, it is to be hoped our citizens generally will attend upon the occasions referred to. The lectures commence each evening at 6 o'clock.

N. B. Mr. T. will lecture on the same subject, in Shippensburg, on to-morrow (Friday) evening, and in Mechanicsburg, on Tuesday evening next.

CONNECTION.—An error occurs on our first page, in the table of Government officers. The name of JONAS C. SPENCER should be placed with the Secretaries of War, instead of under the head of Attorney General.

TAVERN LICENSES.—By the law now in force regulating Tavern Licenses, it is provided that the position of each applicant for License must be advertised three times in one newspaper, the last publication to be at least seven days before the meeting of the Court. For the information of those who intend applying at the ensuing January Court, we state that by advertising in our three next numbers they will be just in time, with nothing to spare. By reference to our advertising columns, it will be perceived that several applicants have already made their wishes known to the public.

Next week we shall lay the annual message of President TYLER before our readers. We had not yet received a copy at the time our paper went to press on yesterday afternoon.

The Special Court, came off last week, highly satisfactory to the people generally who witnessed its deliberations. A great amount of business was transacted, mostly of a complicated and perplexing nature. Much praise is due to his honor, Judge PARSONS, for the able manner in which he presided—the promptness of his decisions, and the rapidity (without at the same time prejudicing the interests of the parties litigant,) with which he despatched the business of the session. He is emphatically a business man, maintaining the dignity of his station without austerity—easy and accomplished manners, and at the same time great decision of character. We hesitate not to say that he will make one of the ablest and most popular Judges in Pennsylvania.

In these few remarks we trust no one will accuse us of flattery. We only speak the sentiments of the whole Bar, the Jurors, and all who attended the sitting of the Court.

Judge PARSONS will hold another Special Court in this place, on the 21st of February next.

VALUE OF NEWSPAPERS.—At the Special Court last week several defaulting Jurors were fined in the sum of \$5 each. One of them, (by the way a tolerably intelligent man too) attempted to get the fine remitted by informing the Court that he did not take a newspaper in the county, and therefore was not aware that a Court was to be held at the time. The Court refused to exonerate him, very properly considering the extent an insufficient one—and at the same time allowed, in a pleasant manner, to the propriety of every man taking a newspaper who is able to pay for it.

The fine, which the Juror offered to had to look up, would have paid the subscription, price of a paper for two years and a half. We trust this will be a lesson to him, (and all others similarly situated), and that he will at once become a regular subscriber to at least one of the county newspapers. Two dollars is a trifling sum for the amount of intelligence which the regular reader of a newspaper gets in a year, and no man is doing his duty to himself or his family who does not take one.

The Democratic Review for December, which concludes the ninth volume of the work, is promptly on our table, and judging from the busy glance we have been enabled to give its contents, equals, if it does not excel, most of the preceding numbers. It is embellished with a steel engraving of WASHINGTON IRVING, perhaps one of the most popular literary writers of this or any other nation. We subjoin a table of the contents:

Animal Magnetism.
Democracy.—By J. G. Whittier.
Sketches of Characters of the Middle Ages.—No. III. —The Esquire.—By the Author of "The Brothers," "Cromwell," &c.
The First Lesson; or, the Boy and the Philosopher.
The Home-League.
Landscape Gardening and Rural Architecture.—By A. J. Downing.
Hervance; or, Father and Son.—By Walter Whitman.
On Rights and Government.—By a Philologist.—Second Article.
A Dream.—By William Cullen Bryant.
The History of Uncle Sam's Patriarchal System of Government.
Washington Irving.—(With a Fine Engraving on Steel.)
The Works of Washington Irving.
Goth's Acre.—By Henry W. Longfellow.
Monthly Financial and Commercial Article.
Monthly Literary Record.

Congress is now again in session, and our readers may therefore soon look for interesting news from Washington city. We shall endeavor to keep them regularly advised of what is going on—the movements of parties—and the attempts that will doubtless be repeated by a portion of the Whig delegation to "head Captain Tyler." The Captain, so far, has proved a troublesome customer on their hands, and we are strongly inclined to the opinion, that their efforts against him will be made to recoil upon themselves.—At all events, judging from his past history, the two veto messages, and his recent Virginia letter, we consider a National Bank entirely out of the question.—What substitute will be adopted remains to be seen.—The Message will probably throw some light in that direction. It is generally thought that the Independent Treasury, if not in name, in substance and reality will be suggested—if so, with the aid of the Democrats, the project will be carried.

The movements on the political chess-board, with reference to the succession, will be looked for with interest. Mr. Clay will try to get the weather-gods of all his competitors for the nomination—the friends of Gen. Scott will be busy—and Mr. Tyler will not remain a passive spectator. The political situation of the country will be the subject of the Whig platform in the mean time, relying on the purity of their principles, and anxious to husband their strength until the proper time arrives, will, for the present, be anxious only to legislate for the benefit of the country. They will move along harmoniously, as a unit—and where they cannot effect a positive good, will endeavor to prevent, as far as they can, a manifest evil.

The Federal members will be pretty much in the plight of the Kilkenny cats. The Democrats can look on with composure at the catering and enjoy themselves to their hearts' content.

West Point Military Academy.
It is high time for the people of this country to think seriously about abolishing this Aristocratic fungus upon our military system. That this institution is an exclusive and aristocratic one, intended for the sons of the rich only, no one will pretend to doubt. The son of a poor man, however meritorious his conduct, possessing the requisite qualifications for becoming a good soldier—is excluded, to give place to a set of rascals and be-whiskered dandies, who are content only for the performance of one isolated task—curling their soap-locks or brushing their beards—who are incapacitated for the hardships of a soldier's life, on account of their being "fondled in the lap of luxury," and whose deeds of daring consist in keeping out of harm's way. We saw it stated in the papers some time ago, that at the commencement of the Seminole war, in 1835, out of ONE HUNDRED AND TEN of these VALENTINE heroes, one hundred and four resigned their commissions, for fear of being called upon to serve their country in Florida! Yet the Government can expend two or three hundred thousand dollars annually, to keep a gang of rascals and loafers living fat, without receiving a return of their services to the country! and we may ask: How long are the people going to submit to this monstrous outrage upon their rights and liberties! WEALTH, it seems, is worshipped like the dumb idols of the Hindus, while MERIT, which always deserves its reward, is discarded by a people professing to have supreme adoration for equal rights and equal privileges.—(Chambersburg Times.)

The justice of the Government in permitting wealth instead of merit to be rewarded, is thus unadvisedly upon by Senator Pierce, of New Hampshire, in a speech delivered during the Extra Session of Congress, in regard to the West Point Academy. He says:—"The principles on which Frederick the Great and Napoleon acted, were those to make soldiers who merit and reward always followed; but had not you witnessed cases of men of courage, character, and capacity, asking from day to day in vain, for the humble rank of third lieutenant in your army, who would be glad to have such appointments! I know—(said Mr. P.) a man who, at the battle of the *Wittchenochie*, had performed the same service under Napoleon, would have received a *baton*. But in our what did he get! Three times did that gallant fellow, with his arm broken and hanging to his side, charge the Indians, and drive them from hammocks, where they were entrenched.—The poor sergeant staid in the service until his time expired, and that is all he got for his disinterestedness! Such instances of *neglect* would upset any service, destroy all emulation, and check all proper pride and ambition in subordinates. If ever they were to have a good army and navy, they must *promote merit* in both branches of service, as every truly great general had done, and every wise Government ought to do."

THE LADIES COMPANION.—The December number of this periodical is embellished with two steel engravings, and contains a popular piece of music. We also notice contributions from several of the best writers of the day.

The work is published in New York at \$3 per annum, in advance, and is highly deserving of public patronage.

The Orphans Court for this county will be held on Tuesday next.

A FERRY.—The Philadelphia Gazette of Thursday last, states that on the day previous, it was discovered that three of the city banks, viz: the Pennsylvania, Farmers and Mechanics, and the North American, had been swindled out of \$130,000 by means of forged checks, in the name of a firm on the wharf, by a clerk in the establishment.

We suppose this fellow, who only cheated the banks out of a few thousands, will be housed in the Penitentiary for a number of years—while the Biddles and Copperheads, who defrauded the widows and orphans, and the community generally, out of as many millions, are permitted to run at large, and set all law and justice at defiance!

A State Temperance Convention will be held at Harrisburg, on the second Wednesday in January.

Another Congressman Dead.—By the following which we copy from the Somerset Whig of the 1st inst, it will be seen that Mr. BLACK, the member of Congress elected in the room of CHARLES OOK, dead, is also dead.—"It is with extreme regret, that we announce this week, the demise of the Hon. HENRY BLACK, Representative in Congress from this District. He was found dead in his bed by one of the inmates of the house, (his wife being on a visit to this place,) on the morning of the 28th ult, at his residence in Stoneycreek township—having expired very suddenly, as he was in pretty good health the evening previous. The deceased was for several years a member of the Legislature, and afterwards was appointed Associate Judge of this county, which office he held for a period of 18 or 20 years."

INDIAN EXORATION.—The Little Rock (Ark.) Gazette of the 10th ult. says.—"The steamer Little Rock, Capt. Stevenson, arrived on Thursday, the 4th inst, and passed up, having on board 207 Seminole Indians, sixty of whom were warriors, the remainder women and children, destined for their future homes west of Arkansas. Among them are two noted hostile chiefs, Wild Cat and Hopti. The officers in charge of the party are Capt. Seawell and Lieutenant Britton, of the 7th U. S. Infantry, and Assistant Surgeon Walker."

FINANCES OF MARYLAND.—By the following paragraph which we copy from the Philadelphia Inquirer, our readers will perceive that Maryland is in a worse predicament, if possible, with regard to her public debt than many of her neighbors.—"The assessment of the taxable property of Maryland, authorized to be made by the Legislature at its last session, has been completed, and from the scale on which the assessment has been made, it is supposed that the whole property of the State, will not reach \$200,000,000. The tax on this is to be twenty cents on the hundred dollars. This would raise the gross sum of \$400,000, whereas the deficiency to be supplied to meet the interest on the State debt is over \$600,000! Additional taxes will, therefore, have to be imposed, or the faith of the State will be violated."

SCHOOLS IN NEW JERSEY.—According to the recent official returns, there are in New Jersey 1400 School Districts, 891 of which have submitted reports to the Legislature. In these latter, there are 64,430 children, of whom 41,310 attend school. The number of children in the State is estimated at 96,954—of whom 45,610 do not attend school!

MR. CLAY AS A SPECTATOR.—The Lexington (Ky.) Intelligencer says.—"We are happy to be able to state, that Mr. Clay's health is entirely restored, and to inform his friends that he leaves Ashland in a few days for Washington City. We are happy to see that benefit (!) to his country. The rumor, that he only awaits the meeting of the Legislature to tender his resignation, is unfounded. It is not possible that Mr. Clay should, at this time, when above all others, his counsel is needed, retire from his post, and yield the citadel to the enemy."

QUE.—Does the Intelligencer, by the concluding word of the paragraph, mean Captain TYLER?

SENATOR FLEMING.—This gentleman, who whose protracted absence in the West painful missings were entertained, it appears from the following letter taken from the last Keystone, is alive and well, and has probably ere this arrived at home:

"WILLIAMSPORT, Nov. 24, 1841.
Yesterday I received a letter from Mr. Fleming, dated Burlington, (Iowa) Nov. 7, stating that he had just returned from Mack River, a distance of 900 miles above St. Louis, and informing his friends that he will be home by the 1st of December."

HON. DIXON H. LEWIS.—This gentleman, it appears, is still "alive and kicking." The story of his death, which has been going the rounds of the papers, is a miserable hoax, perpetrated by some vile scoundrel whose "wish is probably, 'father to the thought.'" Such creatures ought to be scourged from all decent society.

THE HON. CLEMENT C. CLAY, of Alabama, (Dem.) has resigned his seat in the Senate of the U. States. The vacancy, we presume, will be filled immediately, inasmuch as the Legislature of the State is now in session.

COMMODORE READ is to succeed Commodore STREWART as Commandant of the Philadelphia Navy Yard. So says the Pennsylvania. Commodore R. is a distinguished officer of the late war.

VIRGINIA SPECIAL ELECTION.—The late election for member of Congress, to fill a vacancy in the Madison district, has resulted in the election of SMYTH, the Democratic candidate, by a majority of about 200 over SLAGBORTH, his Federal opponent.

THE REBELL CASE.—In the case of the U. States vs. Rebellion, which was recently tried before the Circuit Court in Philadelphia, and which involved the operations of mail contracts for a number of years, the Jury, on Monday last, rendered a verdict in favor of the defendant for the sum of \$188,496.00!

COUNTERFEIT \$5 notes on the Miners' Bank of Pottsville are in circulation. They are said to be well executed, and are made payable to J. WATZ & J. LYONS, dated June 1st, 1841, and August 1st, 1840 and 1841—letter F.

INTEREST ON THE STATE DEBT.—We have been favored with the following extract of a letter from the Treasurer of the State to a gentleman of this city, which contains important information relative to the payment of the interest on the State Debt.—"Penn'a.—"It gives me pleasure to state as my firm belief, that the interest of our public debt due on the 1st of February will be promptly paid without recourse to the Treasury. The balance in the Treasury this day, Nov. 30, 1841, is \$1,089,224, and the amount of the interest to be paid is \$700,000. The two heaviest months of receipts are yet to come before the interest is payable, and the receipts for those months, I think may be safely estimated at from 4 to \$600,000. I am therefore of opinion that the resources of the Treasury will not only be sufficient to pay the interest, but that all the ordinary demands of our government will likewise be met.

But to guard against any contingencies that might occur, to insure the present prospect, the Governor has made a request upon the banks under resolution of the 5th of May last, to make up any deficit, if such there should be. Under all these circumstances there can be for a moment remain a doubt as to the interest being punctually paid."

A MAMMOTH SHIP.—A correspondent of the Bangor (Maine) Whig, gives a description of a new ship, the Rappahannock, of Bath, the largest merchantman in the United States. She is 1424 tons, custom house measurement 180 feet long, 37 feet beam, and 23 feet deep, built of Virginia oak. Her masts are 123 feet tall, and 34 inches in diameter; the longest ninety feet above on board a ship, of one piece or tree. Her anchor weighs 3700 pounds. The wheel is enclosed in a house with windows, through which the man or men at the wheel can overlook all that is passing abeam, ahead, and astern. She is estimated to stow 4000 bales of New Orleans cotton under deck, and has two decks.

ATTEMPT TO ESCAPE FROM PRISON.—We learn that on Tuesday morning last, HENNING, who was recently convicted of murder in Reading, made an attempt to escape from the prison in that place. In the morning, when the bell was rung to summon the prisoners to breakfast, he rushed down stairs with an iron bar in his hand, ran out of the kitchen, and made the best of his way, and in a few minutes he was seen by a number of citizens, and after a chase of a mile and a half he was brought to bay. He turned upon his pursuers, and threatened to kill the first man who approached him. Mr. Samuel Elmer, the former postmaster, borrowed a gun which was in possession of one of the persons present, and approached Reinhardt, calling upon him to surrender. This he refused to do, and made a demonstration to execute his threat. Mr. Elmer fired, and wounded him severely. He threw down the bar, and was recaptured, and safely lodged in prison.—Pennsylvania.

THE DEMOCRATS OF Georgia have nominated Messrs. Colquitt, Cooper and Black, to supply the vacancies in Congress, caused by the resignation of Messrs. Norcott, Alfred and Dawson, Whigs. The Democratic candidates were members of the last Congress.

IOWA.
A letter from Iowa to the New York Express says.—"Our summer has been pleasant, and the health of our territory much better than during the two preceding years. Crops have been good—so good that corn is selling here to be shipped at 16 cents per bushel, oats for 18, wheat 50, and pork at 2 50 per cwt. in exchange for goods at a profit to the merchant near 100 per cent. This Territory will be great for agriculture. This country is scarce five years old. Judge of its improvement, when I inform you that there are farms in it having some 800 acres under cultivation and stocked in proportion. I will instance the farm of a Mr. Thompson, who has 400 acres in corn, 100 acres in wheat, and 100 in oats, and one hundred head of sheep, and hogs, horses and cattle in proportion. Corn will average some 60 or 60 bushels to the acre. Wheat and oats about 40."

THE NEXT SPEAKER.
MR. EDITOR.—I beg to recommend through your paper, the name of HENRICH W. RICH, of Luzerne county, as a suitable candidate for the next Speakership of the House of Representatives. This gentleman has always been a Democrat, and is known to be possessed of more than ordinary talents and abilities. His education is such, and his acquaintance with our Constitution, his long and most excellent professional life. By inserting this, you will confer a favor on an old Democrat of NORTH MIDDLETON.

December 6, 1841.
For the Volunteer.

MR. EDITOR.—For a moment let me call the attention of your readers, to a subject that justly demands the denunciation of the citizens of our Town. I refer to the course pursued by some malicious persons, towards the "African Fire Company."

During the month of March, the young men of our Town organized themselves as a body. Since their organization, to the present time, particularly during the last few weeks, those persons individually and collectively, have been industriously circulating a *publicly* concocted and unfounded, yet if not *publicly* refuted, rumor, to the prejudice of the rights of our citizens against this Company. The report which on behalf of the "African Fire Company" is in circulation, is that the members of the *African* are *unqualifiedly* *base*, and *immoral*. The rumor is that they are *immoral*, and *unqualifiedly* *base*, and *immoral*. The rumor is that they are *immoral*, and *unqualifiedly* *base*, and *immoral*. The rumor is that they are *immoral*, and *unqualifiedly* *base*, and *immoral*.

This Mr. Editor furnishes a key to the motive that prompts this *base* and *immoral* cry of "top thief" will not avail them, it shall not screen them from the public view, nor shall the punishment which they justly deserve be lessened. It is by such means that an attempt is made to prejudice the minds of our citizens against this well-conducted Company—while despite all opposition, bids fair to out-triumph the other Companies, both in point of numbers and usefulness. Such conduct cannot but call forth the contempt and loathing of all just and patriotic citizens. The members of this honorable man, in their motive, high-minded citizens of our Town, I trust will properly apply the name of well-conducted Company—while despite all opposition, bids fair to out-triumph the other Companies, both in point of numbers and usefulness. Such conduct cannot but call forth the contempt and loathing of all just and patriotic citizens. The members of this honorable man, in their motive, high-minded citizens of our Town, I trust will properly apply the name of well-conducted Company—while despite all opposition, bids fair to out-triumph the other Companies, both in point of numbers and usefulness.

THE POOR.—This is the season of the year, Mr. Editor, when the means of living are so generally in the hands of a few, and the condition of the poor is so generally in the hands of a few. I don't know that there are any in this Borough, in actual want; but there may be some, whose false shame—not modesty, may forbid them making their real situations known, who need relief. Is there no benevolent society in this Borough, whose care it should be to do for the wants of the poor? If there be not, we are not to be "those who are blessed with abundance," to collect, that "they who are poor, live in the love" for the poor and the objects of his special care. See the parable of the rich man and Lazarus. Please call the attention of the public to this subject, it is one that will be attended to by every generous citizen and Philanthropist.

Now is the time too, that all persons ought to be diligent in their moral and religious duties. Unfortunately, we are, we fear, the victims of a winter, in keeping up the flames, without an overmatch for the exertions of all our firemen in suppressing them, even with plenty of water, which, unfortunately is not the case in many parts of the Borough.

OBSTINATION ON COSTIVENESS.—Costiveness is an unnatural state of the bowels, caused by whatever is injurious to the digestive organs. Its immediate consequences are, nausea, headache, loss of appetite, &c., but its ultimate consequences are, pregnancy with every variety of complaint, and their attendant pains and sufferings. The GERMAN APERTURE PILLS are admirably suited to this purpose—but more than this—they they *cleanse* the system they *purify* the blood, and assist nature kindly in her operations. The Compound Strengthening Pills give tone to the stomach, while they impart vigor to the whole system; hence they are a desideratum, and no family should remain without them. In fact they are a sort of "Family Physician," but unlike the "school men"—for those Pills may be safely consulted in all cases—they may be taken without injury to any—while they afford positive relief in many. We only ask for a fair trial of their merits, and are willing to abide the issue.

F. WOOLMAN.
BURLINGTON, N. J.
December 9, 1841.

MARRIED.
On Thursday the 18th ult. by the Rev. Mr. Gillet, Gen. HENRY W. BEESON, member of Congress from Fayette county, to Miss LOUISA C. CLARK, of Brownsville.

DIED.
Communicated.
On Saturday last, the 4th inst, a child, aged 3 years, named BARBARA, wife of JACOB LONGNECKER, Esq., of Wormleysburg in this county, aged 32 years. She has left a husband and two children to lament her early death. Alas! But a short time since she was in perfect health—now she is no more. Truly, "in the midst of life we are in death."

NOTICE.
All persons are hereby forewarned not to take an assignment of a *Note of hand* given by me to Saxe Eschmeyer, of the Borough of Carlisle, dated sometime in March, 1841, for the payment of \$65 to the said Samuel about the 25th of this month—as I am determined not to pay it, having received no value for the same.
JOHN ENSMINGER.
Midlin town P., Dec. 8, 1841.
