The efficacy of this most valuable Embrocation is attested by thousands who have proved its heal-ling qualities in the cure of the most troublesome diseases to which the horse is liable, such as old or fresh Wounds, Sprains, pains and weakness of the Limbs, Bruises, Swellings, stiffness of the Joints, &c. &c.

Among numerous certificates which might be produced, the following is thought sufficient; it is from I. Reesides, Rsq. the great stage owner and

mail contractor.

This is to certify that I have used M. B. Roberts' Embrocation for various kinds of Sores, Wounds, & Sprains on horses, and I find it to ex-Wounds, & Sprains on noises, and ceed any other that I have tried.

Carlisle, November 8, 1841. Messrs. E. Robinson & Co.—Gentlemen:—I have had sufficient time to try "Hathaway's Patent Hot Air Cooking Stove," you put up in my kitchen, and am prepared to certify to its good qualities. I find that large quantities of water can be heated with Messrs. E. Robinson & Co .- GENTLEMEN: - I have it in a short time; that for cooking it boils, roasts meat, and bakes bread. The provision in this cooking stove for baking bread is the only arrangement I have eyer seen in an article of the kind, at all calculated to accomplish that object. The simall calculated to accomplish that object. The simplicity of its arrangements are its great recommendation, the entire heat is applied to the purpose intended, and I verily believe a great saving of fuel is effected. Comparing the Hot Air Cooking Stove with the much celebrated Rotary, the latter is insignificant and a toy, incapable of any thing but boiling. I am of the opinion that no arrangement of iron can be made to supersede the "Hot Air Cooking Stove;" nor can I suggest any improvement.

Messrs. E. Robinson & Co.—Gentlemen:—According to your request, I have given one of "Hathaway's Patent Hot Air Cooking Sloves" a thorough trial, and in my opinion think it one of the best now in use. I have had a Rotary stove in use for several years, and am decidedly in favor of your stoves—they do not consume as much fuel as the Rotary, and are better adapted for baking, and e-Rotary, and are better adapted for baking, and qually as well for any kind of cooking.

Messrs. E. Robinson & Co.

Gentlemen:—I have fairly tested the "Hot Air Stoves" which you put up at my house and can recommend it as possessing principles of economy and convenience far surpassing any other stoves which I have ever seen. The boilers coming in immediate contact with the fire gives it great facilities for boiling, and the oven is heated on such a principle that bread is baked in as fine a manner as in a brick oven. I find it also a great saving of fuel and labor, and would advise all to adopt it.

Gentlemen.—I have during the few days I have had your Hathaway Hot Air Stove in use become convinced of its great superiority over all other stoves I have used or seen—I find by the trial that boiling, roasting, baking and broiling may all be dome at the same time, in a most perfect manner and with less than one fourth the fuel I have ordinarily used for the same purposes. I have heretofore been of the opinion bread could not be well baked in a Cook Stove, but I am convinced upon trial that it can be done as well in your stove as in a brick oven.
