Harrisburg, November 11, 1841.

Messrs. E. Robinson & Co.—Gentlemen:—According to your request, I have given one of "Hathaway's Patent Hot Air Cooking Stoves" a thorough trial, and in my opinion think it one of the best now in use. I have had a Rotary stove in use for several years, and am decidedly in favor of your stoves—they do not consume as much fuel as the Rotary, and are better adapted for baking, and e-Rotary, and are better anapted to. bands, qually as well for any kind of cooking.
Yours with respect,
VAL. HUMMEL, Jr.

I do certify that I am now using one of Hathaway's Patent Hot Air Cook Stoves, No. 3, and do recommend it as superior to any stove I have seen. The great saving of fuel and the variety that can be cooking at the same time, makes it an object to those who wish to facilitate the operations of the kitchen.

J. CULBERTSON.

Chambersburg, September 6, 1841.

I have in use in my kitchen one of Hathaway's Patent Hot Air Cooking Stoves, and can recommend it as a very superior article. The one I have is No. 3, it has 5 boilers and an oven sufficiently large to bake 6 loaves of bread. The baking, roasting and boiling, can be done at the same time and with much less wood than required for any stove I have ever used. This size appears to be prouliarly calculated for Farmers, and for their benefit I invite them to call and see this stove in use, as I shall take pleasure in showing the stove to those shall take pleasure in showing the stove to those who wish to see it. S. WUNDERLICH.
Carlisle, September 12, 1841.

Messrs. E. Robinson & Co. Messrs. E. Röbinson & Co.

Gentlemen:—I have fairly tested the "Hot Air Stoves" which you put up at my house and can recommend it as possessing principles of economy and convenience far surpassing any other stoves which I have ever seen. The boilers coming in immediate contact with the fire gives it great facilities for boiling; and the oven is heated on such a principle that bread is baked in as fine a manner as in a brick oven. It find it also a great saving of fuel and labor, and would advise all to adopt it.

Messrs. E. Robinson & Co.
Gentlemen.—I have during the few days I have had your Hathaway. Hot Air Stove in use become convinced of its great superiority over all other stoves I have used or seen.—I find by the trial that boiling, roasting, baking and broiling may all be dome at the same time, in a most perfect manner, and with less, than one fourth the fuel I have ordinarily used for the same purposes. I have here to to be a swell in your stove as in a brick oven. I believe that the general introduction of your stoves into use will be very beneficial to the public, therefore I shall take pleasure in tecome and the steel plate engraving representations a fine steel plate engraving representations.
